## Lifecycle phase change of SELMA 2 Control System (non-mapped version)

This document announces the transition of SELMA 2 Control System (non-mapped version) to the obsolete phase of ABB's product life cycle.

### 1. LIFE CYCLE PHASE CHANGE

On January 1, 2008 SELMA 2 Control System (non-mapped version) product entered obsolete phase.

### 2. SUPPORT AVAILABILITY

When entering to the obsolete phase ABB shall no longer guarantee support for SELMA 2 Control System (non-mapped version). Spare parts and repair, support services are provided only as long as they are available.

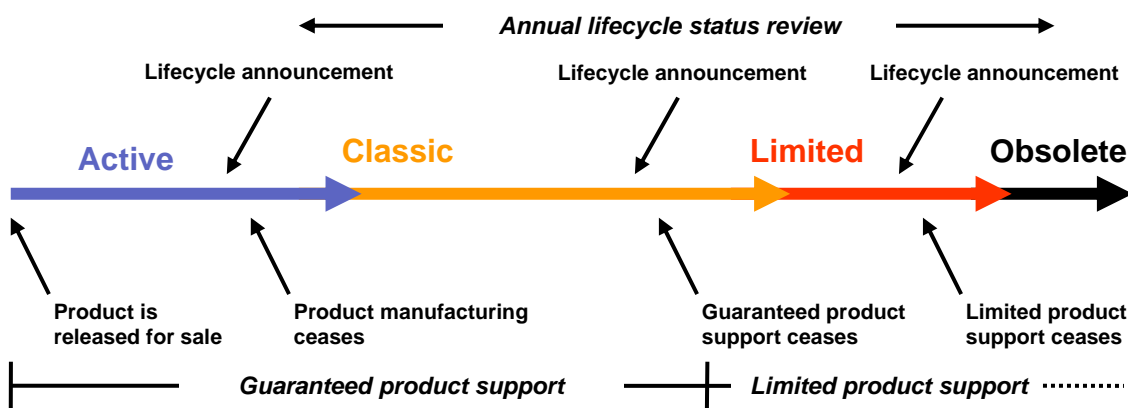

### 3. RECOMMENDED ACTION

It is recommended that the SELMA 2 Control System (non-mapped) will be replaced with a new product. The local ABB organization is glad to help to choose the correct replacement for the equipment in question and explain what other options are available.

### 4. FURTHER INFORMATION

For more information, please contact ABB by e-mail or contact your local ABB organization.

### 5. ABB LIFECYCLE MODEL

Specifications subject to change without notice.
