

ABB MEASUREMENT & ANALYTICS

Smart remote positioners

Reliable and accurate even under adverse conditions

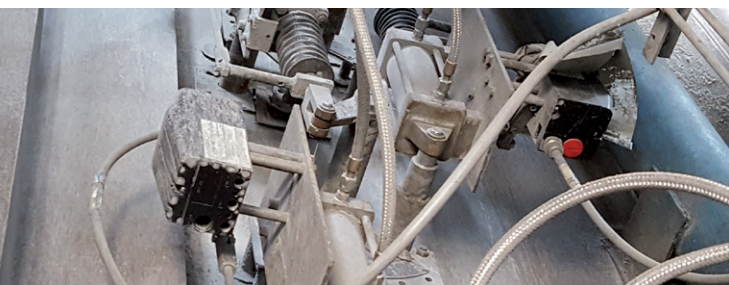

Smart remote positioners

The EDP300 and TZIDC series of digital positioners provide flexible and cost-effective valve management and control. They are now available as a remote version, delivering reliable and accurate results even under adverse conditions.

- Position sensor and pneumatics/electronics installed in separate housings
- 10 m (32 ft) cable length allow for high flexibility
- Higher vibration immunity
- Excellent accessibility
- Increased protection class
- Stainless steel housing

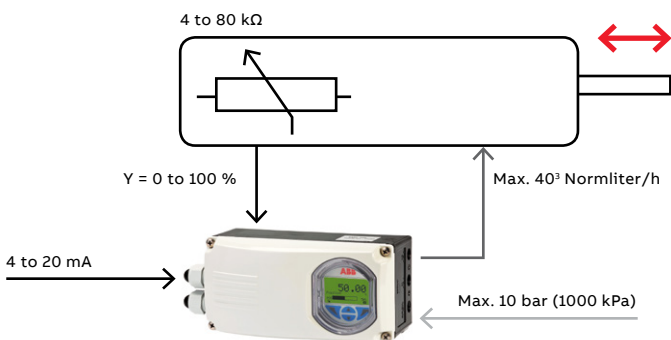

TZIDC remote sensor

Reliable and accurate

Using pneumatic actuators with integrated position sensor.
