4690 turbidity analyzer  
Low range turbidity  
system

### Introduction

This document provides an overview of the 4690 low range turbidity system life-cycle phases detailing ABB's availability to support this product now and in the foreseeable future.

The 4690 low range turbidity system covers the following products:

Part number	Description
4690	Low range turbidity analyzer

## Product life-cycle

### ABB life-cycle policy for Continuous Water Analyzers

ABB's range of [Water Analyzers](#) are designed for continuous evolution, and each of the individual products go through a defined life-cycle process.

Once the product has been removed from Active sale we will continue to support the product with spares for up to 10 years through the Classic and Limited life-cycle phase.

Where possible we will endeavor to secure stock at the point of when the product has been removed from Active sale to support the installed base. However, it is important to note that during this period certain spares may no longer be able to be sourced due to component obsolescence issues outside of ABB control.

### 4690 service offerings through the product life-cycle

	Life-cycle management phase			
	Active	Classic	Limited	Obsolete
4690		Jun 2023	Jun 2028	Jun 2033
