

Calculation and comparison of power losses pursuant to 10.10.4.2.1 Rated current below 630 A max., 1 compartment

Manufacturer of the ASSEMBLY:

Customer:

Order number:

Project:

Type:

Switchgear cabinet			
Family			
Type			
Dimensions (mm)	Height	Width	Depth
dissipatable power loss (W) enclosure			
Power loss of the equipment Nominal value (W)			
Power loss of the wiring Nominal value (W)			
Additional power loss Nominal value (W)			
Sum power loss Nominal value (W)			
Selected / calculated RDF Effective installed power loss (W)			
Assessment	Installed power loss < = Installable power loss	o.k.	
	Installed power loss > = Installable power loss	not o.k.
