Flood-Seal® multi-port connectors with EZ-Seal®

New insulating rocket design eliminates cutting

Same great multi-port connectors — now with a revolutionary new insulating rocket that installs faster, easier and safer with no sharp tools required. Its re-enterable, re-sealable, range-taking design accommodates #2 AWG to 350 kcmil cable with no gels, tapes, mastics or heat-shrinks.

Features and benefits

- No blind connections — connections are fully visible until final rocket positioning
- Aluminum alloy connector construction offers high strength and high conductivity and is dual-rated for use with aluminum or copper cable
- Wide cable port spacing makes installation easier with gloves
- Ball-bottom screws support the widest conductor range and aid in breaking up aluminum oxides
- Prefilled with oxide inhibitor to help prevent oxidation and keep out moisture
- All connections are 100% hi-pot tested at 4000 V for 60 seconds
- Exceed ANSI C119.1 and C119.4 requirements
