Drives courses

Course schedule 2024

Welcome to ABB India's Training Program that enhances your technical competence!

We offer hands-on training for ABB Low & Medium Voltage drives and motors. The course schedule for 2024 is as below. Also, ask for other courses – we are happy to customize an offer for you based on your requirements.

Scheduled courses

Enrollments

There are two ways to enroll for a course: via Motion Upskill or by sending a registration form to us by e-mail. To ensure your participation, we recommend you sign up as early as possible, since the number of participants per course is limited and enrollments are accepted in the order of arrival. Once your enrollment is completed you will receive a registration notification e-mail from Motion Upskill.

Some courses have prerequisites, such as other classroom courses and/or e-learning, which are defined in the course descriptions available in Motion Upskill.

Please see the latest training schedule updates and more information about the courses in Motion Upskill webpage. Click on each course on the last page of this document to get more details.

Confirmation and course program

Approximately four weeks in advance you will receive a course confirmation from ABB India Training team, including time and other details about the program. Normally training days start at 10:00 a.m. and end by 5:00 p.m. Coffee and lunch are included in the fee. Please remember to mention any requirements for vegetarian or other special diets. A course may be cancelled due to low enrollment, i.e. less than 4 participants. For any other cancellation reason ABB India Training Center will inform well in advance.

E-learning

Many courses have a self-study prerequisite of theory-based e-learning. The price for e-learning will be added to the classroom course price.

Please note, that e-learning materials are not covered during classroom courses. For successful participation in the hands-on exercises, it is recommended to complete the related e-learning.

Cancellation

Please inform your cancellation as soon as possible to enable other students to sign up for the course. Your enrollment can be transferred to another person in your organization. However, please note the pre-requisites.

You may cancel the course until:

Time of cancellation	Charge
More than 4 weeks before the course start	At no charge
Until 2 weeks before the course start	Half of the course price will be charged
Less than 2 weeks before the course start	Full course price will be charged
No show	Full price

A minimum number of 4 participants is required to arrange the training. If there is a need to arrange a course with less than 4 participants, availability and price will be checked case-by-case. All training requests for groups are handled by local ABB. e-Learning have a separate charge per course.

On-request courses

On-request courses can be arranged to a specific group either in Training Center or on-site. On-request courses are always offered separately, and the price depend e.g. on the level of tailoring required.

Reservations

We reserve the right to change course schedules, programs and contents. Scheduled courses can be cancelled due to low enrollment (less than 4 participants) or other conditions. Also, a maximum number of participants is defined for each training course, in order to meet safety and quality standards. Depending on the course, the maximum number of participants varies between 12-14 persons.

Operation & Maintenance Training

Sr No	Description	Duration
1	ACS1000 Air cooled Operation & Maintenance	3 days
2	ACS2000 Operation & Maintenance	3 days
3	ACS5000 Air cooled Operation & Maintenance	3 days
4	ACS6000 Operation & Maintenance	3 days
5	ACS580MV Operation & Maintenance	3 days
6	ACS800 Single drive Operation & Maintenance	3 days
7	ACS800 Multidrive Operation & Maintenance	4 days
8	ACS880 Single Drive Operation & Maintenance	3 days
9	ACS880 Multidrive Operation & Maintenance	4 days
10	DCS800 Operation & Maintenance	3 days
11	DCS880 Operation & Maintenance	3 days
12	ACS580 Operation & Maintenance	2 days

Register here!

- Minimum participants per course is 4.
- If less than 4 participants are enrolled for the course, then charges will change accordingly.
- For more details on Course fees and trainings on Motors, please reach out to our team below.
