

Overhead

In overhead distribution, quality and continuity of service are the keys to success. We provide the connectors and apparatus you need to keep the power on — and to restore service rapidly when faults occur.

1 Blackburn® full- and semi-tension compression splices

2 Blackburn parallel groove clamp

3 Fisher Pierce® clamp-type faulted circuit indicator

4 Blackburn compression pin terminal

5 Blackburn ATD-CB clevis bracket

6 Fisher Pierce faulted circuit indicator

7 Hi-Tech® current-limiting fuse

8 Blackburn Storm-Safe® service entrance disconnect

9 Blackburn overhead transformer eyebolt connector

10 Blackburn service entrance splice

11 Blackburn H-tap connector

12 Blackburn ATS Autoseal® automatic splice

13 Blackburn PowerTap™ stirrup

14 Blackburn HLC hot-line clamp

15 Elastimold® vacuum reclosers

16 Joslin Hi-Voltage™ VSV capacitor switches

17 Fisher Pierce 5400 series capacitor controller
