

LCM ANNOUNCEMENT

EPPC - Lamp Blocks

Obsolescence notice

ABB's products are designed for continuous evolution. It is ABB's goal to protect our customer's investment beyond the life-cycles of the underlying platform products.

Lamp block obsolescence announcement

In accordance with the ABB global strategy, the transformer blocks for pilot lights, transformer blocks for illuminated operators, lamp blocks, filament bulbs, and contact block/lamp block combinations will enter the obsolete phase of their life cycle on January 1st, 2019.

Inventory

Inventory levels will be actively managed to reduce and eliminate the stocking levels and stocked materials. Other Inventory (OI) requests will not be accepted moving forward.

Pricing

SPA's will no longer be valid/offered for these products after March 1st, 2019

Product replacement

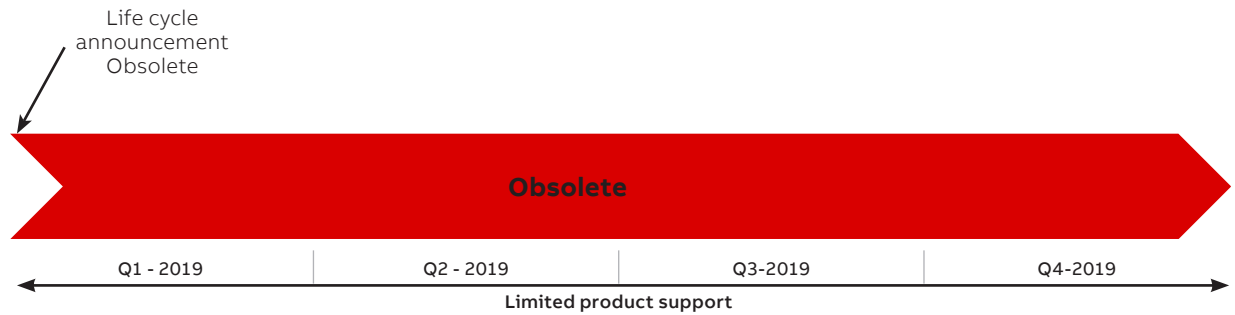

These products are replaced directly with the ABB integrated LED blocks. Any modular assembled pilot device offerings with any of the combinations listed above will need to be transitioned to the new integrated LED version MLBL Sseries.

Cross reference available on request from EP Support team

Support availability in obsolete phase

- Full obsolescence January 1st, 2019
- Limited manufacturing of the product
- All items coded as OBS; any remaining stock will be available for sale
