Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

Current life cycle status
The mentioned product subtype of ACS5000 drive is in Classic phase according to the ABB life cycle model outlined above.

Life cycle plan
It is planned to transfer the mentioned product subtype to Limited life cycle phase on 01.01.2033.

Product availability in Classic phase
This product subtype is not available for sale. It represents drive's installations where the recommended Life cycle upgrade service (upgrade to AMC34 Level) was applied.

Recommended actions
Maintenance recommendations are presented in the ACS5000 air-cooled preventive maintenance schedule document.

Besides the regular maintenance it is recommended to check the possibility for Option Upgrade service in order to comply with needs and/or changed process requirements.
Service availability in Classic phase

Motion OneCare Agreements
Installation and commissioning
Trainings (e-learnings, classroom, on-site, virtual)
Spare parts
Preventive Maintenance
Inspection and Diagnostics
On-site repair
