

Course description

G360e

ACS880 system modules offering Internet course

Course type

Internet course

Course Duration

The course duration is approximately 15 minutes.

Course Goal

The goal of this course is to familiarize students in the product offering of the ACS880 system modules.

Student Profile

This course is intended for electricians, technicians, salespersons and customers.

Prerequisites

- Basic knowledge of mechanics
- An Internet connection. The recommended browser is Microsoft Internet Explorer version 5.0 or later.

Course Objectives

Upon completion of this course, students will be able to:

- Have an overview of how the ACS880 system modules are part of the common ACS880 architecture
- Understand the effect of compact module size on power density and increased packing density
- Have an idea of the wide range of engineering support for cabinet builders

Main Topics

- Overview of various inverter modules
- Module ratings
- Engineering support

Low voltage drives training
