

10/2020

## AP10 now also available in Black color

- 01 AP10, white
- 02 AP10/G, grey
- 03 AP10M, black

The AP10-product range is now updated with a black junction box. The black AP10M box is ideal for indoor and outdoor installations, it blends seamlessly into a dark environment.

The renewed box includes 14 membrane cable entries (Ø 19 mm): 3 on each sides and 2 at the bottom. The lid is reassembled to the box at the factory and it can be removed manually without any tools.

Available in white, grey and black.

Made of halogen-free material (IEC/61249-2-21).

The box is approved for IP65 classification and it is protected against cold environment and suitable for use at the temperature down to -25°C.
