Good quality will always stand out!
We innovate - not imitate

ESSAILEC® by ABB France,
The original & superior product by far

ESSAILEC® test blocks are specifically designed and built for the demands of Electricity Utilities to ensure safe and reliable testing. ESSAILEC® allows testing of meters and protective relays installed in current transformers and voltage transformers secondary circuits, without circuit break.

ESSAILEC® is approved by all major Utilities and has been successfully implemented for years in worldwide electricity transmission and distribution networks.

For Iran enquiries, please contact:

Essailec® is an original researched and developed product brand, fully and globally owned by ABB and may not be used by any other company or entity.

Power and productivity for a better world™
