

ABB Ability Axis Procure-to-Pay Automation

Delivering efficiencies and automation to the supply chain through the cloud

ABB Ability™ Axis Procure-to-Pay Automation replaces paper-based processes with an electronic collaboration platform. The solution covers all core P2P processes, including request for quote, purchasing, shipment, invoicing, discrepancy and remittance, with options for all supplier types.

Electronic messaging – direct B2B system-to-system integration for high volume suppliers

Web portals – browser-based application for small to medium volume suppliers

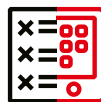

Fax/email gateway – for low volume, occasional or very low capability suppliers

Procurement challenges

The typical supply chain **The supply chain opportunity**

Paper-based processes – slow and error-prone

Electronic delivery of all purchasing transactions = a more efficient supply chain

Buyers have no visibility of order status or availability

Companies can often realize **80% savings** through e-invoice

Transaction processing is inefficient and ineffective

Potential savings of **\$5-\$10 per invoice¹**

¹ In terms of accounts payable processing time

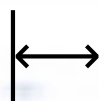

The right solution, right now

Cloud-based solution, fully supported & managed by ABB – reduces total cost of ownership and increases speed to deploy

SaaS offering – no on-premises hardware or software required

No charge to trading partners to connect to the Axis network – removes a common barrier to entry

Native integration with ABB Ability™ Ellipse and ABB Ability™ Asset Suite; easily integrated to other ERP/EAM software (Oracle®, SAP®, etc.)

Increases the efficiency, accuracy and governance of purchase-to-pay transactions
