

PRODUCT LIFE CYCLE ANNOUNCEMENT

# ACS850-04

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Active

Classic

Limited

Obsolete

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

#### Current life cycle status

ACS850-04 product types are in the Classic life cycle phase according to the ABB life cycle model outlined above.

#### Life cycle plan

ACS850-04 product types will be transferred to the Limited life cycle phase 1.1.2022 and further to the Obsolete phase 1.1.2023.

#### Product availability in Limited and Obsolete phase

The product is no longer available.

#### Recommended actions

Only a limited range of services and support are available in the Limited phase. In the Obsolete phase all support will cease, leaving only replacement and end-of-life services available.

It is recommended to replace the ACS850-04.

Contact your local ABB for migration to latest generation equivalent products: ACS380, ACS580 or ACS880.
