**Current life cycle status**

ACS800-14 modules, regenerative ACS800-17 and low harmonic ACS800-37/-38 drives are in the Classic phase since 1.4.2019, according to the ABB life cycle model outlined above.

**Life cycle plan**

It is planned to keep ACS800-14/-17/-37/-38 (R7i, nxR8i) product types in Classic phase at least until 31.12.2034, after which they will be transferred to the Limited phase.

**Product availability in Classic phase**

During the Classic phase new modules are available as spare parts for the following product types, until further notice:

- ACS800-104 Inverter modules
- ACS800-104 IGBT supply modules

Contact your local ABB representative for availability and factory-installed optional devices.

**Recommended actions**

It is recommended to follow the preventive maintenance program.

Full range of life cycle services and support are available during the Classic phase.
Service availability in Classic phase
