

DATA SHEET

MC5102

Micro memory card with micro memory card adapter

1 Ordering data

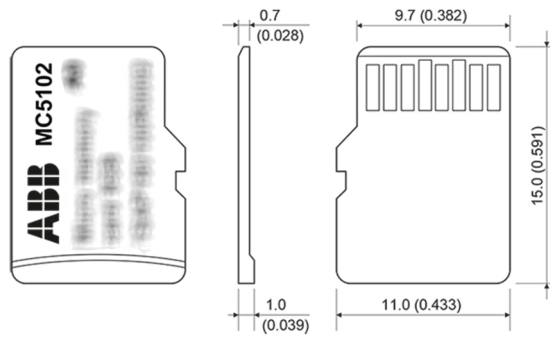

Part no.	Description	Product life cycle phase *)
1SAP 180 100 R0002	MC5102, micro memory card with TA5350-AD micro memory card adapter	Active

**) Modules in lifecycle Classic are available from stock but not recommended for planning and commissioning of new installations.*

2 Dimensions

Micro memory card

The dimensions are in mm and in brackets in inch.

3 Technical data

Parameter	Value
Memory capacity	8 GB
Total bytes written (TBW)	On request
Data retention	
at beginning	10 years at +40 °C
when number of write processes has been 90 % of lifetime of each cell	1 year at +40 °C
Write protect switch	
Micro memory card	No
Micro memory card adapter	Yes
Weight	0.25 g
Dimensions	15 mm x 11 mm x 0.7 mm

It is not possible to use 100 % of a device's memory space. About 10 % of the total available space must remain unused at any time to maintain normal device operation.
