The following applied standards are used in relation to which conformity is declared:

Notes: When installing motors for converter supply applications, additional requirements must be respected regarding the motor as well as the installation, as described in installation manual delivered with converters.

The conformity of the end product according to the Directive 2006/42/EC has to be established by the commissioning party when the motor is fitted to the machinery.

Motors of the series M3BC, M3AL, M3AR, M3BL, M3BN, M3RP and M3*J are not included in scope of IE efficiency classification within the Community.
