

ABB EcoSolutions™ – OT Plus

The ABB OT Plus switch disconnecter range - one giant leap for customers

The all-in-one OT Plus switch disconnecter range offers supreme protection and cutting-edge innovation for distribution and sub-distribution applications from 16 A up to 160 A. Thanks to its unique fourth-pole design, OT Plus offers greater flexibility than before, making it highly adaptable to accommodate a wide range of applications with improved reliability.

Solutions™

End-of-life instructions

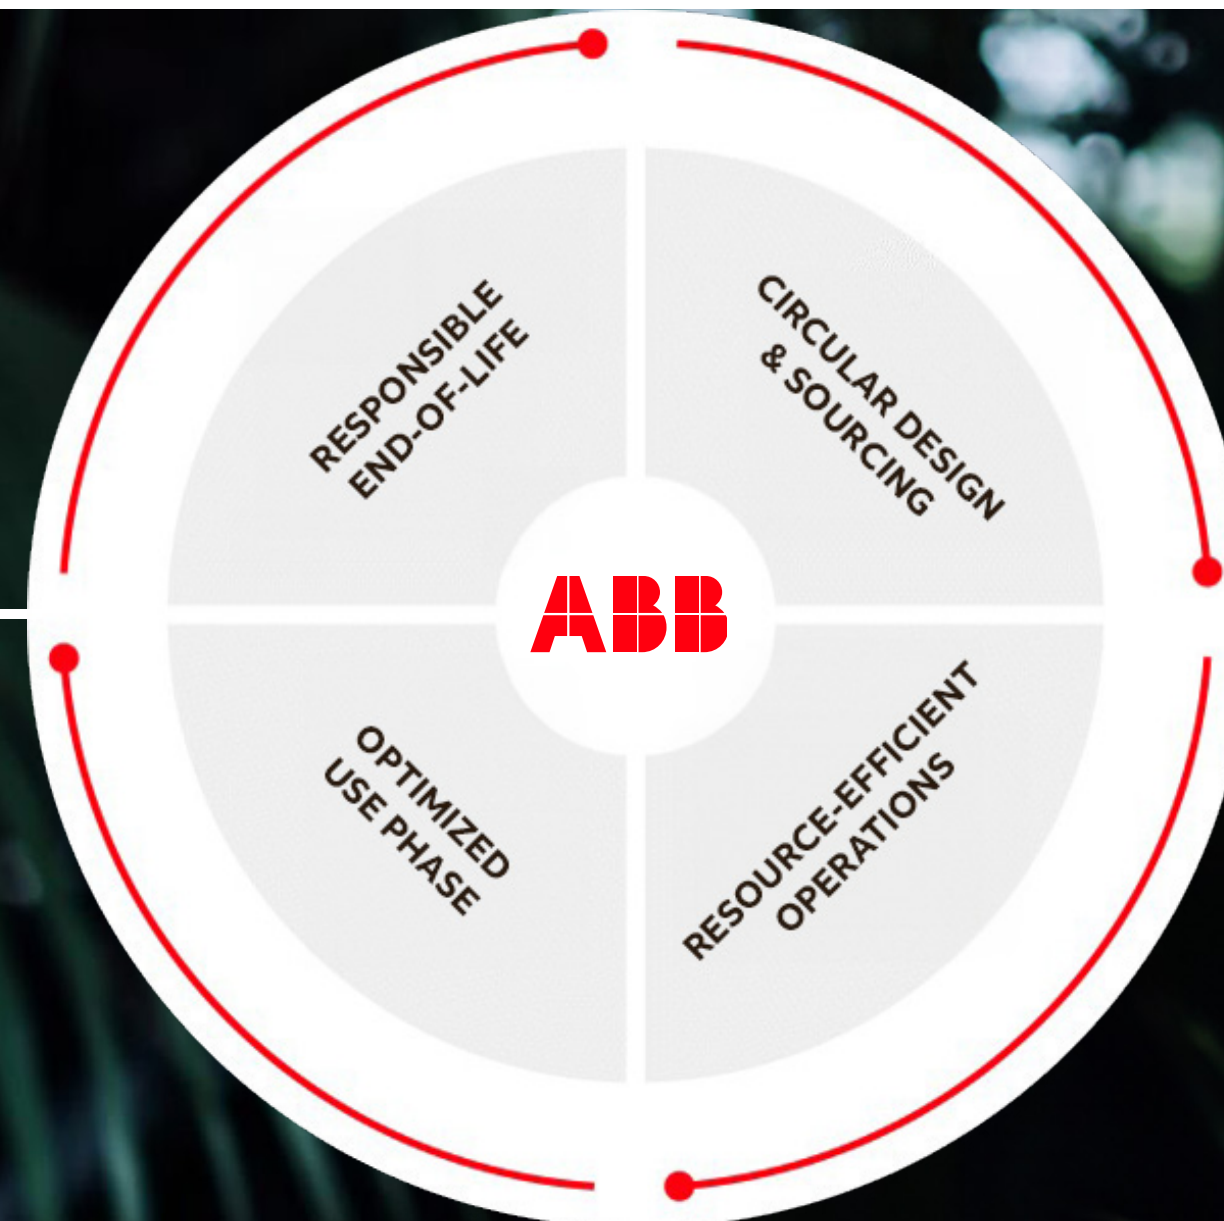

Closing the loop with instructions to maximize the recyclability embedded in circular design.

Extended lifetime

Designed to withstand higher mechanical endurance for an extended lifespan up to ten times longer than the original OT series.

Energy efficient use phase

Reduced power loss up to 67% compared to the original OT series.

Designed for recyclability at end of life

Recyclability rate up to 94% according to EN 45555.

Produced in a Zero Waste to Landfill site

100% diversion from landfill with 35% thermal processing for energy recovery, validated by UL 2799A.

FSC certified packaging material

For individual packaging, and 100% recycled bulk packaging.

Third-party verified Environmental Product Declaration

EPDs compliant with ISO 14025 Type III (externally verified) ensure data accuracy and full transparency on the product's environmental impacts throughout its life cycle.

Low carbon manufacturing

Assembled in an ABB facility powered by renewable energy. A 52% reduction of transportation kilometers achieved per product, due to maximized in-house production.
