Headquarters

What we do in Cary

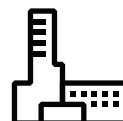

ABB's Corporate Headquarters for the Americas region is based in Cary, North Carolina. The site leads corporate functions for ABB in the region, including Human Resources, Finance, Information Systems, Legal, and Communications. ABB is a pioneering technology leader in power grids, industrial automation and robotics, electrification products and motion. With a history of innovation spanning more than 130 years, ABB today is writing the future of industrial digitalization with two clear value propositions: bringing electricity from any power plant to any plug and automating industries from natural resources to finished products.

Who we serve

ABB operates in more than 100 countries to support customers in utilities, industry, transport, and infrastructure. As title partner in ABB Formula E, the fully electric international FIA motorsport class, ABB is also pushing the boundaries of electric mobility to contribute to a sustainable future.

ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
