

PRODUCT LIFE CYCLE ANNOUNCEMENT

# Drivebase

Mobile application for drive information management.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers

**Active**

**Classic**

**Limited**

**Obsolete**

**Full range of life cycle services and support**

**Limited range of life cycle services and support**

**Replacement and end-of-life services**

**Product type concerned**

**Drivebase**

**Current life cycle status**

Drivebase is in the Active phase according to the ABB life cycle model outlined above.

**Life cycle plan**

The product will be transferred to the **Obsolete** life cycle phase on 30.6.2022

**Product availability in Obsolete phase**

Drivebase is no longer distributed or supported by ABB.

The application will be removed from Google PlayStore and Apple AppStore. The application communication to backend services will be disabled.

**Recommended actions**

Users are requested to remove the application from their phones and install Drivetune. Drivetune supports most of the functionalities of Drivebase.

Users can also use DIB web-based services to manage drives.

Additionally, users are able to register drives with Drive Composer pro or entry.
