

Underground

We offer a complete package of underground cable accessories — everything you need to connect, ground, splice, terminate and protect underground cable from 5kV to 138kV — along with solid dielectric switchgear in compact, modular designs that fit easily into tight vaults.

- 1 Fisher Pierce® test point faulted circuit indicator and voltage indicator
- 2 Elastimold PCJ power cable joint
- 3 Hi-Tech® backup current-limiting fuse
- 4 Elastimold SFJ Shrink-Fit™ joint
- 5 Elastimold 200 A loadbreak bushing and insert
- 6 Elastimold 200 A and 600 A surge arresters
- 7 Elastimold 600 A deadbreak spiking tee and grounding aid device
- 8 Elastimold advanced connection system - 600 A deadbreak elbow separable connectors and Combo™
- 9 Elastimold 200 A grounding elbow
- 10 Elastimold Tru-Break™ switchgear module
- 11 Elastimold pad-mount switchgear
- 12 Elastimold small vault switchgear
- 13 Elastimold 200 A loadbreak and deadbreak elbows
- 14 Homac® transformer connectors
- 15 Homac Flood-Seal® splices
- 16 Homac Flood-Seal breakaway street light kit
