

TERMINAL KIT PROMOTION

# Experience the Sta-Kon<sup>®</sup> terminal advantage

The original Sta-Kon Terminal kit is an opportunity for you to get a broad sampling of one of the best terminals lines in the marketplace!

# Sta-Kon® terminal kit promotion

- Long barrel design — 20 to 50% longer than competitors — eliminates missed crimps, increases conductivity, and insulator stays on barrel
- Vinyl-insulated terminals have a brazed seam — 2½ times stronger than butted seams, allowing you to crimp anywhere on the terminal
- Selective annealing — leaves barrel soft for crimping while tongue remains strong
- Chamfered barrel — eliminates wire hang up
- Deep internal serrations—larger contact area lowers resistance and increases pullout strength
- Easy identification — stud and wire sizes are marked on the terminal
- High-conductivity copper, plated for corrosion resistance
