

ABB Ability™ Electrical Distribution Control System Secures your plant data.

abb.com/lowvoltage

Thanks to ABB, Microsoft and an expert partner on IT security,
ABB Ability™ EDCS can guarantee state-of-the-art cybersecurity as it is:

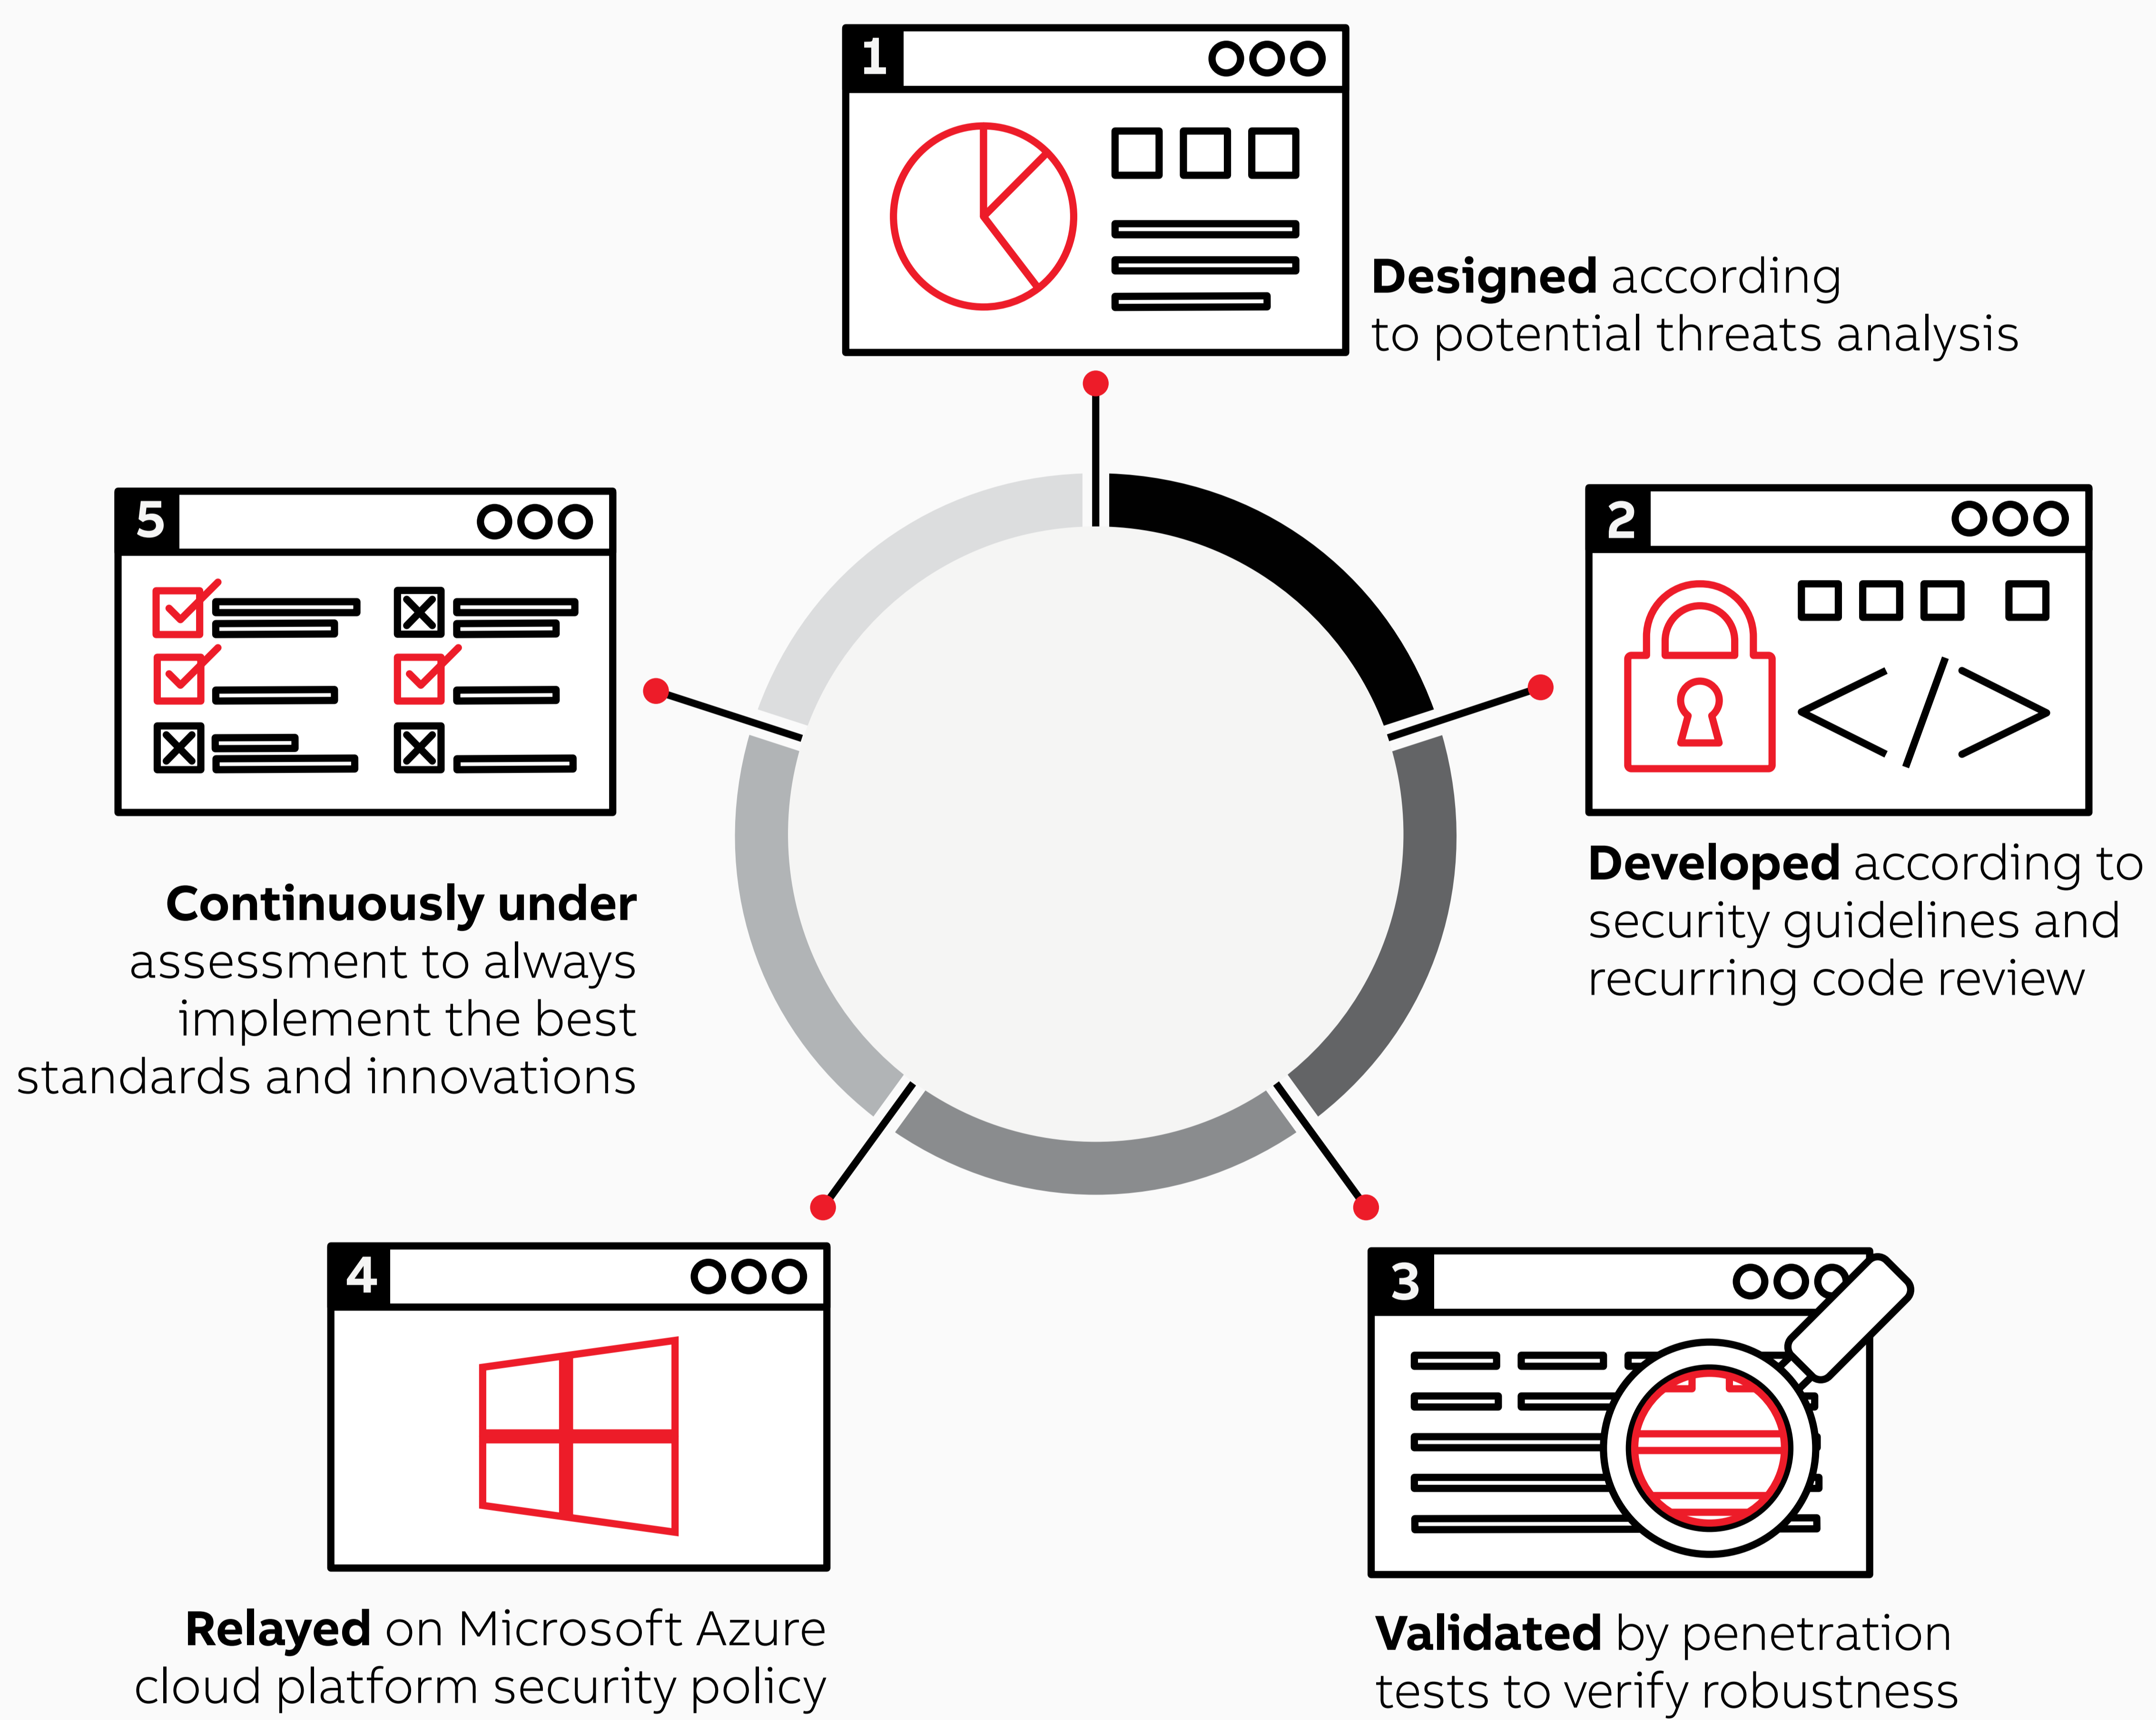

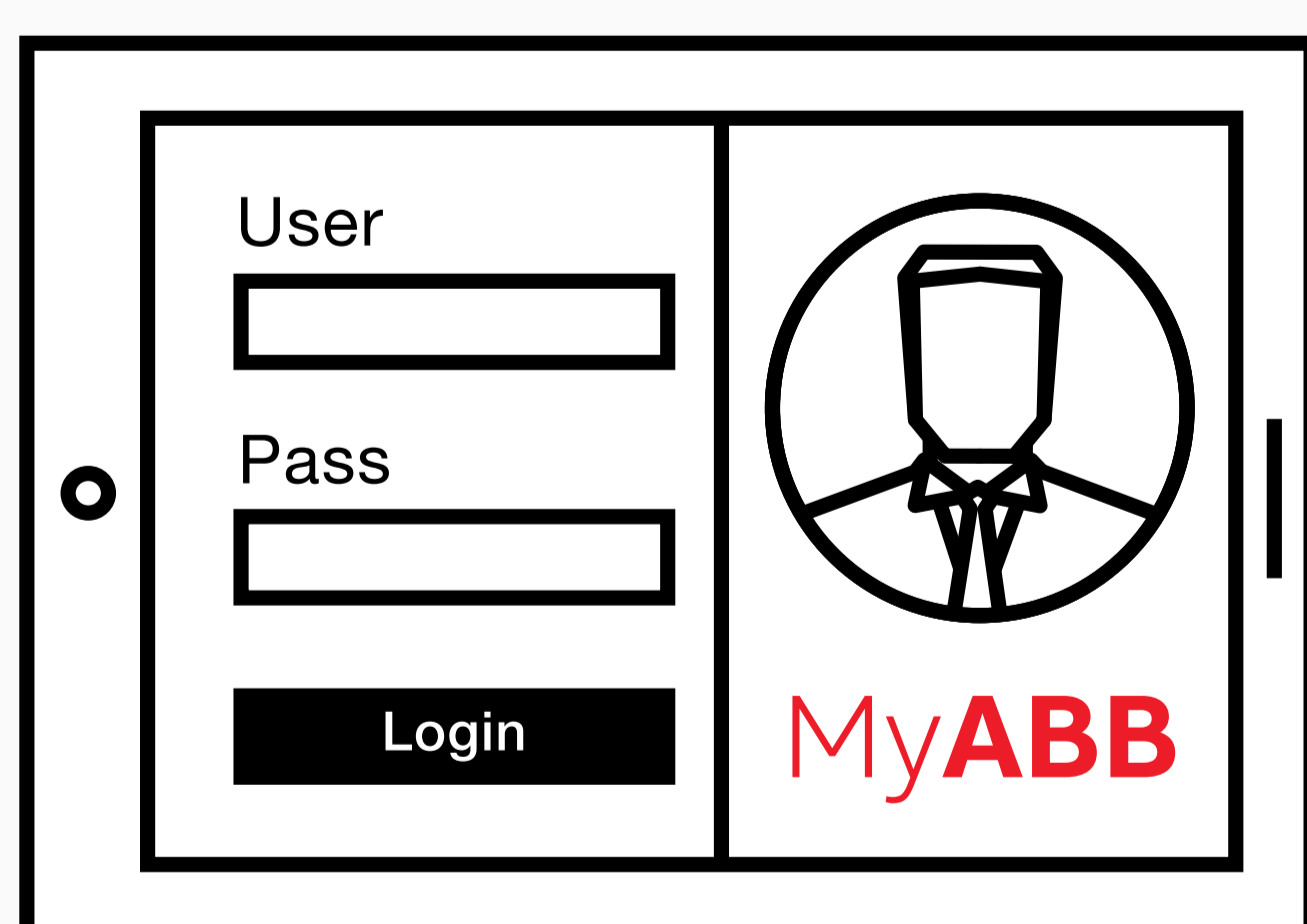

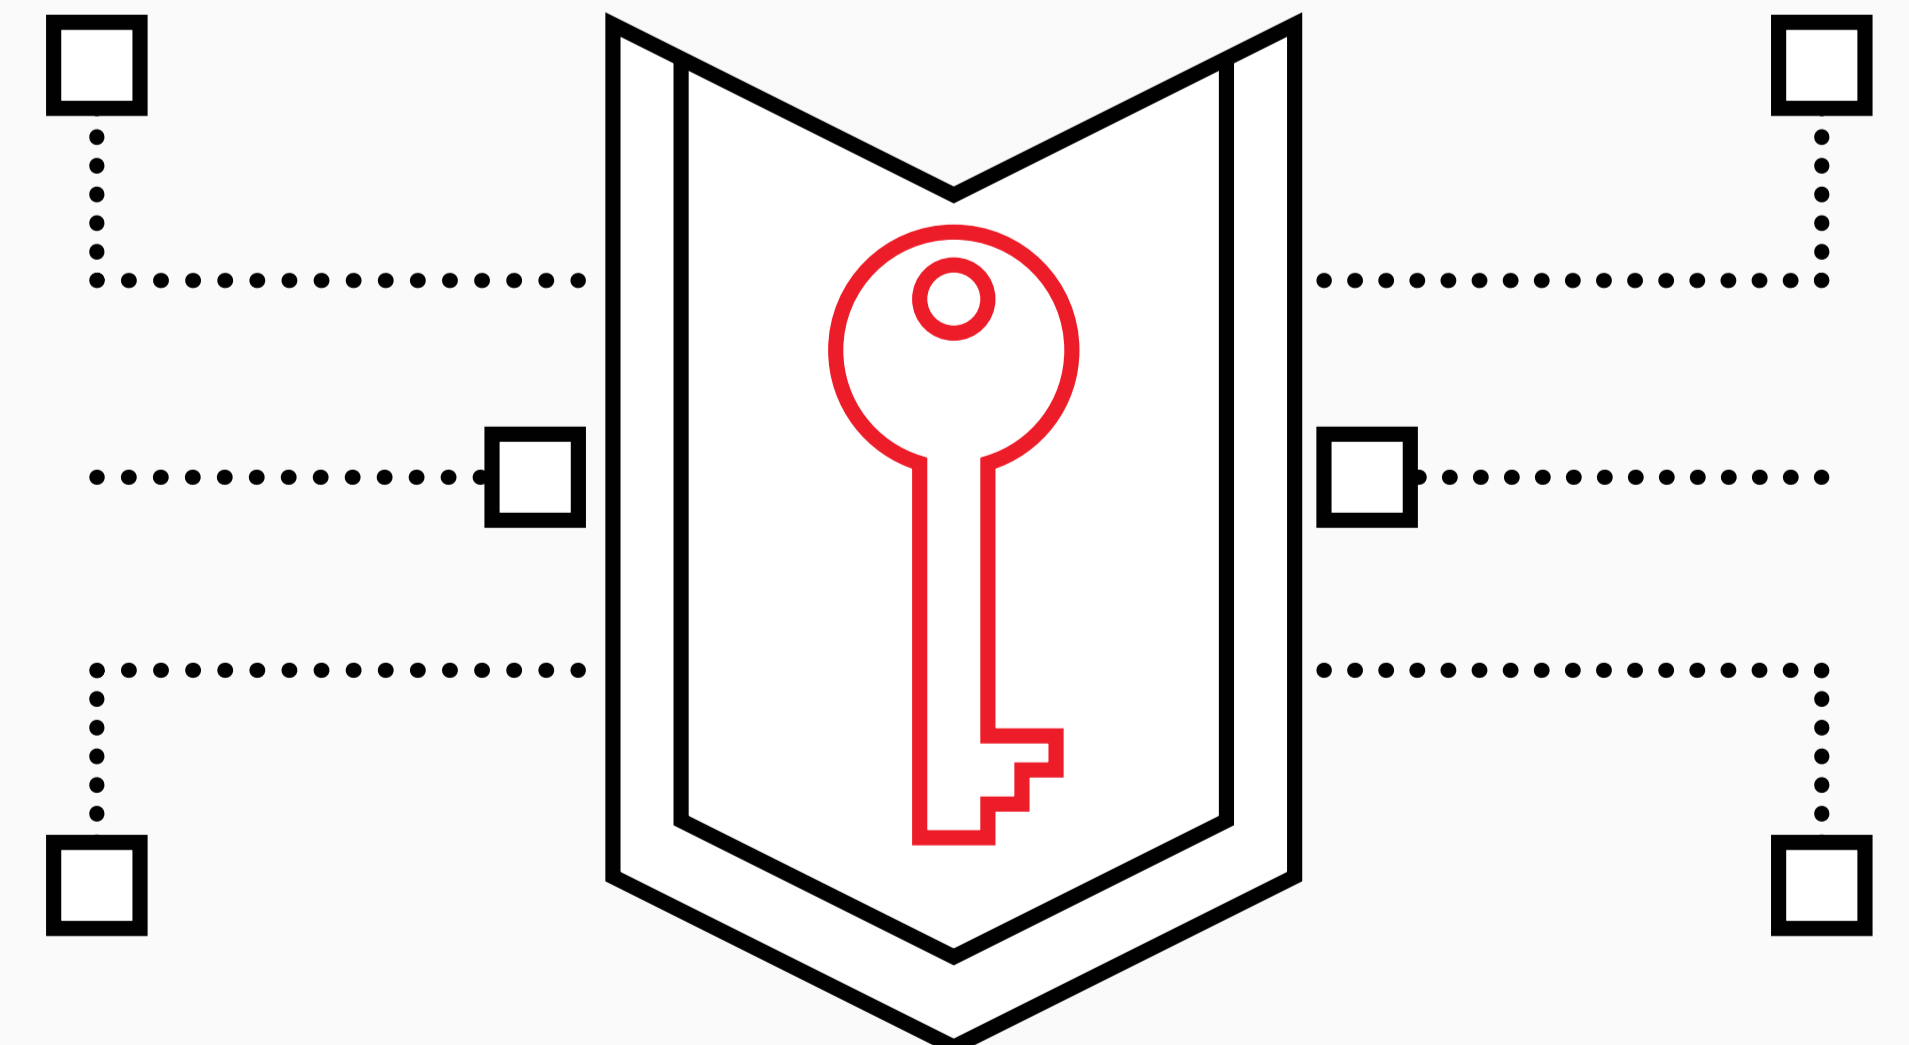

ABB Ability™ EDCS main pillars for cybersecurity

Identity

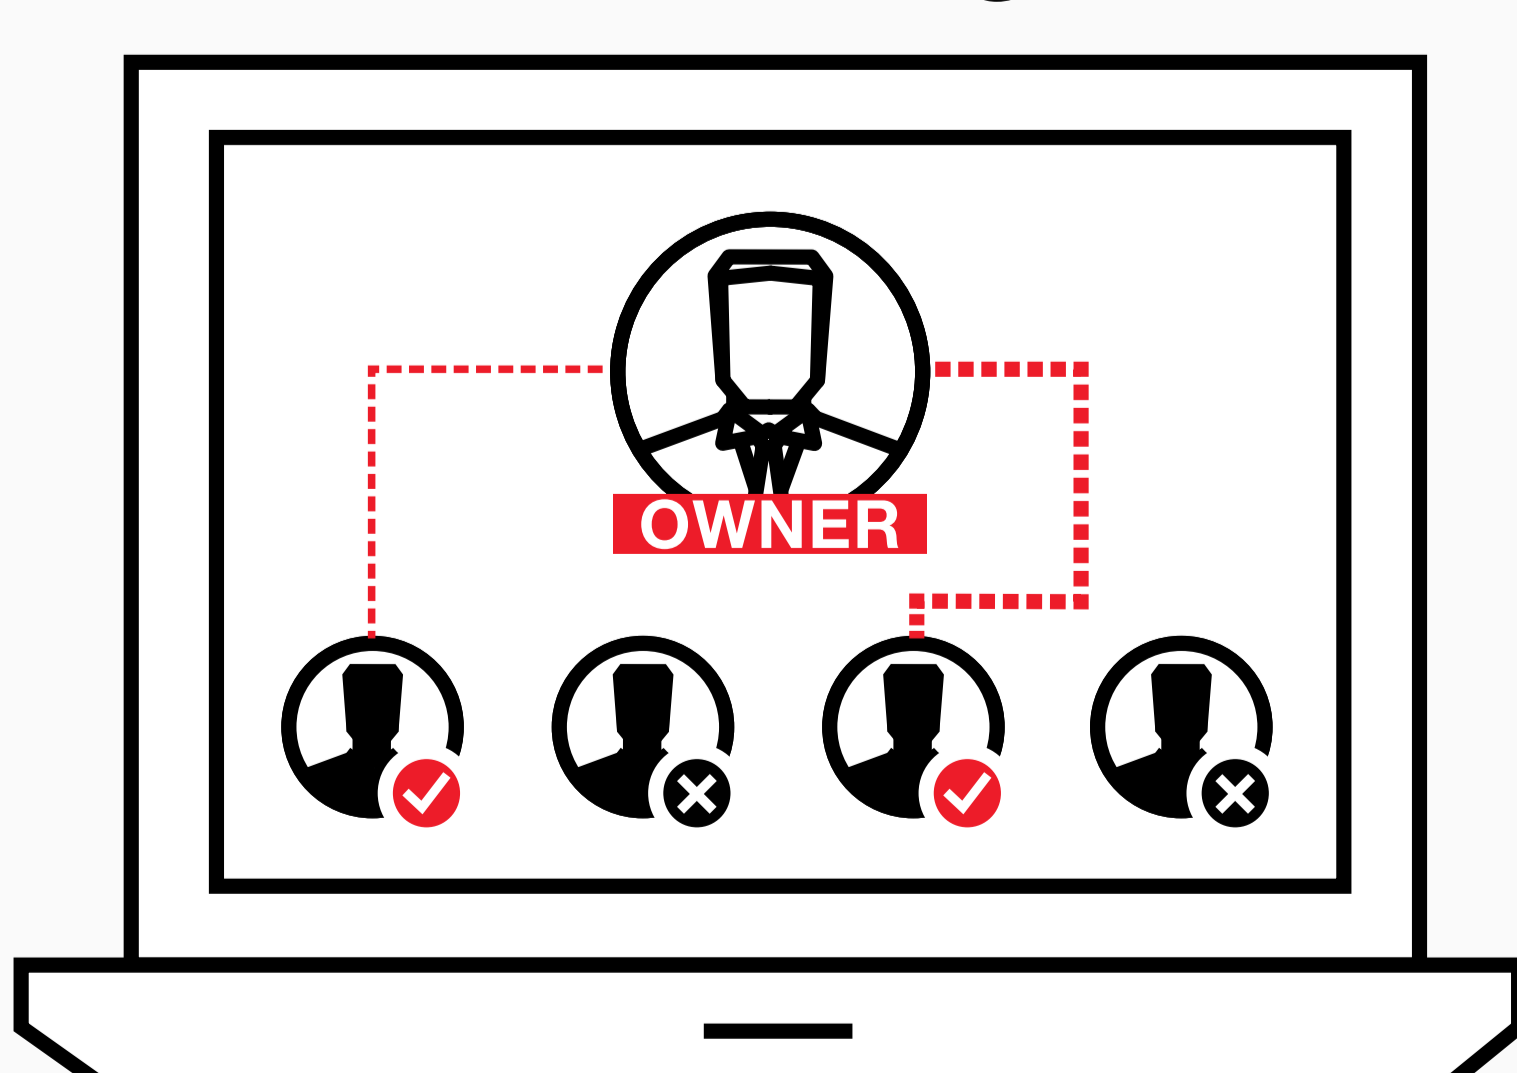

Authentication via unique **MyABB account**

Security

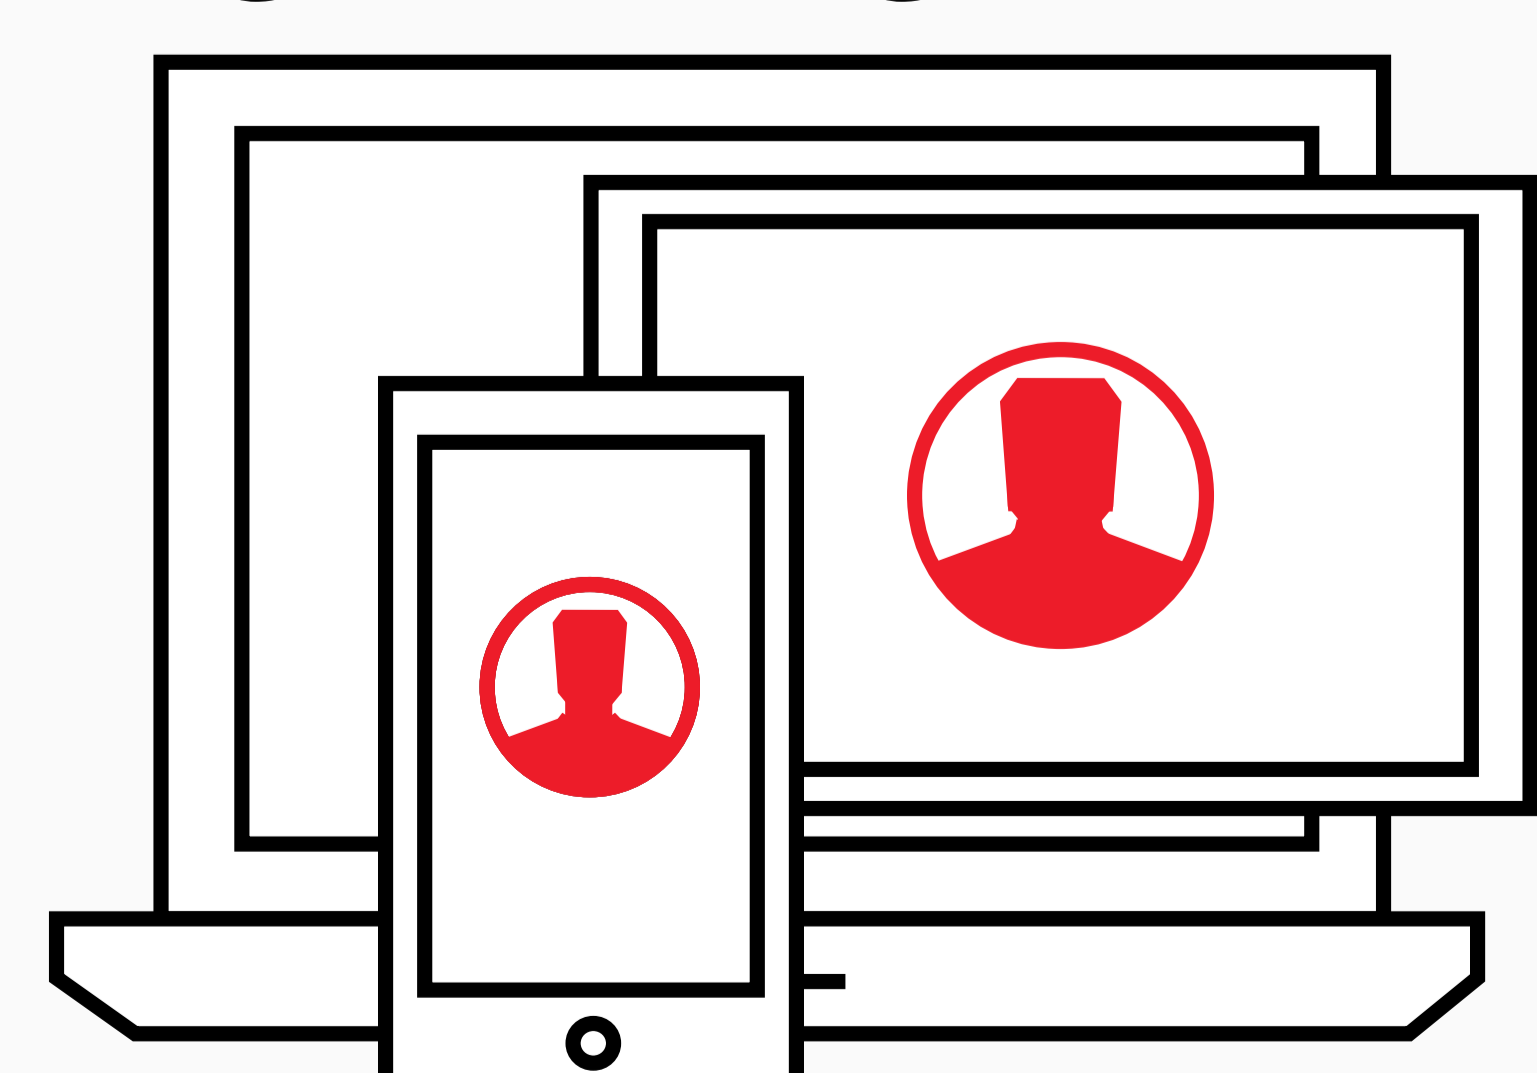

Encrypted communication channel, using the same protocol as banking and other important applications

Privacy

Only the **OWNER** has initial access to data and can profile other users' role

Digital Signature

Each connected device is **uniquely identified**
