COURSE DESCRIPTION

G839 MEGADRIVE-LCI with AC 800PEC
Hands-on and update training

Course goal
Consecutively to the G830 MEGADRIVE-LCI Service and Commissioning course the participants can deepen their knowledge on MEGADRIVE-LCI by completing the G839 MEGADRIVE-LCI hands-on course.

The course goal is to get familiar with handling and commissioning of the drive and application software using demo unit and table models.

Main learning objectives
After completion of this course, the participants will be able to:
— Operate the MEGADRIVE-LCI
— Carry out “cold” commissioning and preventive maintenance works
— Troubleshoot the drive

Course type
This is a face to face classroom training with maximum 6 participants.

Learning methods
— Practical exercises with training equipment

Participant profile
Commissioning and service engineers

Prerequisites
Completion of the G830 MEGADRIVE-LCI Service and Commissioning course

Topics
— Setup of the LCI control system
— Using SW tools (AC 800PEC tool, LCI Control Terminal)
— Software handling and download
— Operation of the MEGADRIVE-LCI
— Running Test programs
— Control characteristic
— Tuning
— Troubleshooting procedures: fault finding and repairing
