Current life cycle status
The mentioned product subtype of CYCLOCONVERTER is in the Classic life cycle phase according to the ABB life cycle management model outlined above.

Life cycle plan
With the scheduled sales stop of CYCLOCONVERTER Control Upgrade (AMC34), the end of Classic life cycle phase is determined on the 31.12.2034. This schedule allows at least 10 years of Classic life cycle phase for all drives where the Control Upgrade (AMC34) service is applied.

Starting from 1.1.2035 the 3 years Limited life cycle phase will start.

Recommended actions
Besides the regular maintenance action no further actions are required. Complete life cycle services are available for LV CYCLOCONVERTER (Analog and PSR) after Control Upgrade (AMC34).

Product availability in Classic life cycle phase
This product subtype is not available for sale. It represents drive's installations where the recommended Life cycle upgrade services were applied.

Service availability in Classic life cycle phase
