

Motor starting and power switching

AF contactors

Secure uptime and optimize stocks with AF latest technology up to 2650 A

Optimize logistics

Cut your storage and administration costs. The total number of product variants are reduced by up to 90%.

Speed up your projects

Access global support and use the same product in all parts of the world.

The 100 - 250 V AC/DC coil covers all standard network voltages.

Continuous operation

Secure your uptime by letting AF contactor overbridge voltage drops and sags.

The AF ensures distinct operation in unstable networks thanks to an electronically controlled coil.
