What’s New Painting PowerPac 5.12

New Functionality in Painting PowerPac 5.12

LOCAL robtargets
Local robtargets are now supported in RobotStudio 5.12, hence also supported in Painting PowerPac 5.12.

Robtargets will be created as LOCAL only when creating them from the Painting PowerPac. When using the Synchronize to Station functionality, LOCAL robtargets will only get synchronized if the Painting PowerPac is active.
