

Supplement to Certificate of Compliance

Certificate: 70192802

Master Contract: 180848

The products listed, including the latest revision described below, are eligible to be marked in accordance with the referenced Certificate.

Product Certification History

Project	Date	Description
80127673	March 29, 2023	Update to Report 70192802 is to add PXP100 Series in an existing pressure transmitter assembly with different process connections or couplings
80083589	March 31, 2022	Updates to Report 70192802 are to add an alternate Cover's O-ring; add Model PXD100 & PXF100 (Diaphragm Seal and F&B versions respectively); and to reflect in the report the different pressure codes, breather, cable gland adapter, IP Ratings, manifold and process temperature. The modifications made from original construction do not affect the electrical or thermal characteristics of the equipment.
70192802	September 06, 2019	Evaluating of PGS100 / PAS100 to the requirement of Standard 61010 for CSA CAN and US.
