Course Duration
The duration is 2 days.

Course Type
This is an instructor led course.

Course Goal
The course goal is to teach students the operator functions in Advant Station 500 OS and how to navigate the system.

Student Profile
This training is targeted to those who need to learn the operator functions in Advant Station 500 OS.

Prerequisites and Recommendations
Basic knowledge in MS Windows.

Course Objectives
Upon completion of this course, students will be able to:
• Explain the relationship between the process and the Advant OCS system
• Read and interpret process information from different displays in the Advant Station 500 OS
• Control process objects.

Main Topics
• Selecting displays from menus and via the keyboard
• Interpret process and system status displays
• Object control (supervision and operation of valves, PID-controllers, motors, etc.).
