		Zone Module, 4-fold, SM The MG/A Zone Module is used to expand the zones of the GM/A 8.10 KNX Security Panel. The modules each have 4 zones for connection of security detectors. In addition, configurable status information can be displayed via 3 switchable outputs. The zone module meets the VdS guidelines for class A, B, and C, as well as DIN EN 50 131 Grades 1-3 and ISO/IEC 62 642 Grades 1-3. **Applications:** - Connection via the Security Bus (S-Bus 1) - Freely configurable entry functions for connection of security detectors (door/window contacts, magnetic contacts, glass break detector, locking detector, technical detector, hold up detector, tamper detector) - Freely selectable detector monitoring (N/C and N/O contacts with/without 2.7 kOhm EOL resistor, setting line with tamper detection, N/C contacts with alarm and tamper detection) - Freely configurable transistor outputs for status information Protection type: IP 30 to DIN EN 60 529 Surface-mounted device Dimensions (H x W x D): 90 x 63 x 25 mm Manufacturer: ABB STOTZ-KONTAKT **Type:** **MG/A 4.4.1** Material:.....
