IEC 61850 enabled UniGear
True IEC 61850 support with Relion® IEDs

Scalability - Peer-to-peer communication using GOOSE over a substation-wide switched Ethernet LAN
Save time in - Engineering, commissioning and startup
Connectivity - Quick and easy connection to the SCADA system

Reliability - Constant supervision of GOOSE communication
Performance - New, high-performance application possibilities
Future proof concept - Easy modification and expansions after commissioning, without the need for additional wiring
