## COURSE DESCRIPTION

# MV ACS Drives Expert Days

## Classroom training in Turgi, Switzerland

### Learning objectives

- Advanced system and application know-how
- Analysis of field cases and improvement of troubleshooting skills
- Exchange of experience within global service community and site feedback collection
- Strengthen the network between field service engineers and the MVD Center of Excellence (technical support, product managers, quality team, R&D, etc.)

### Learning content for the following products:

MV ACS Drives with AMC & BCON/UCON control platform divided in two courses:

General Purpose MV ACS Drives Expert Days:  
ACS1000, ACS2000, ACS8080

Special Purpose MV ACS Drives Expert Days:  
ACS5000, ACS6000 and ACS6080

For the certification of a specific product, it is necessary to attend the whole course, either the General Purpose Drives Expert Days, Special Purpose Drives Expert days or the combination of both.

### Methods

High focus on hands-on exercises, case study workshops, interactive expert talks, Q&A sessions, etc.

### Participant profile

Field service engineers and other technical personnel working with MV ACS Drives.

### Pre-conditions

- Expert certificate of the corresponding product(s) or Basic certified personnel who want to achieve the corresponding Expert level
- Completed MV Drives Expert Session within the last 6 months

### (Re-)Certification concept

To keep the Expert certification, it is required to attend the face-to-face Expert Days every 3 years. In addition, the yearly attendance of the Expert Session is required.

### Location

ABB Switzerland Ltd.  
Learning Center MV Drives  
Austrasse  
CH-5300 Turgi / Switzerland

**Please bring your service laptop with the installed drive tools.**
