Offering
Gearboxes

What we do in Belton

Manufactures gearboxes that transfer energy from one device, often a motor or engine, to another while changing the speed and torque. Our Dodge® enclosed gearing are built for the toughest industrial applications. We also produce “Tigear” right angle worm gearboxes, which earned the new product of the year award from Plant Engineering magazine. ABB’s gearboxes and custom-engineered designs are built for longevity and easy installation, while providing our customers efficiency and reliability. Our Belton facility is a showcase of ABB’s focus on safety, having been recognized by the state of South Carolina for its safety record.

Who we serve

Enclosed gearing products made in Belton are used in industrial and specialty applications for a variety of industries such as general manufacturing, food and beverage, and distribution centers. Within these industries, gearbox applications include unit and bulk material handling, bottling, conveying and packaging.

ABB in the U.S.
