

ABB DRIVE SERVICES

# Retrofit

## Bringing drive technology up to date

Our Retrofit service is a fast and efficient way to modernize installed drives, bringing immediate performance improvements to your plant or process.

### Reduced wastage and investments

By re-using the existing drive's cabinet, cables and motors, the Retrofit service helps keep waste to a minimum.

### Reduced planned downtime

The Retrofit service can be carried out in line with your own production schedules.

### Rapid deployment

ABB-certified engineers are trained to carry out retrofits rapidly.

### Step-by-step installation

If you have a large drives installed base, the Retrofit service can be implemented in phases to avoid lengthy shutdowns.

**Check the service availability for your drive types with your local ABB representative.**

# Retrofit

## Service delivery

### Check drive type

ACS600 drives are at the end of Classic life cycle phase; now is the time to consider a retrofit service. Retrofit is also available for ACV700 and SAMI STAR drives, which have reached Obsolete-phase of their life cycle.

### Assess existing system with ABB

Assessing the existing installation allows ABB specialist to identify all needed elements in order to determine Retrofit options as well as schedule and plan the installation.

### Configure the solution with ABB

Retrofit service is configured to match the current system demands, often without updating external components. In case configured solution doesn't match your requirements, ABB can provide also engineering to fulfill specific demands.

### Schedule installation

Retrofit is convenient and easy to integrate into your maintenance schedules. It can be done gradually.

### Installation and commissioning with ABB

The retrofit service is designed to save installation time. ABB-certified service engineers install and commission the Retrofit.

### Continue efficient operation

The drive system is restored into the active life cycle phase with full support, including spare parts and technical advice. The retrofit is supplied with a one-year warranty.
