

Service agreements

ABB Measurement Care

Service agreements tailored to your needs

Measurement made easy

—
Maximize your investment – minimize downtime

What is Measurement Care?

Measurement Care is a service agreement that bundles the services you routinely need, and more, into a single contract. ABB provides lifecycle services including spare parts management, performance based services and rapid response packages to get your process moving.

The modular Care agreement is arranged into three categories to help identify the support you need:

- Rapid Response
- Lifecycle Management
- Performance Improvement

Tailor your Care agreement now to get the most from your products and processes.

Why take this service?

As budgets get tighter, companies are looking for cost-effective maintenance solutions. A Care agreement provides the flexibility to support, whatever the need.

ABB have a highly skilled service team available to help extend product lifetime, minimize downtime and enhance performance.

Maximize your investment output and secure long-term performance for your assets, at predictable cost.

Repairs
