360

Operational since
1988

What we do in New Berlin

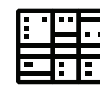

Design, manufacture, repair, and refurbish low and medium voltage drives for domestic and export sale. These drives help to improve manufacturing processes and energy efficiency by providing precise motor control on process and discrete applications in HVAC, water and wastewater, and industrial markets.

Who we serve

ABB drives are installed in a variety of industries, including HVAC, food and beverage, water and wastewater, COG, energy, mining, material handling, plastics, metals, and many more. The majority of the ABB drives installed in North America are manufactured in New Berlin, WI.

ABB in the U.S.

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
