Type VOY-60
Outdoor voltage transformer

The VOY-60 outdoor voltage transformer designed for metering and relaying on 5 kV circuits.

**Product features**
- 5 kV, outdoor
- 60 kV BIL, 60 Hertz
- Primary volts: 2400 - 4800
- Thermal rating: 1000 VA @ 30°C ambient
- Electrical clearances:
  - Strike: 8.0” (203 mm); Creep: 15.8” (401 mm)
- Approximate weight: 40 lbs (18 kg)

**Application**
The VOY-60 outdoor voltage transformer is used for outdoor metering and relaying circuits. It is particularly suitable for pole-top cluster bracket mounting due to its compact and lightweight characteristics.

**Construction features**
For insulation and protection, the assembly is cast in hydrophobic cycloaliphatic epoxy (HCEP) using automatic pressure gelation. The HCEP material offers superior arc track, ozone, and ultraviolet-resistant properties while maintaining physical strength. The hydrophobic surface properties of HCEP ensure highly reliable performance in wet, humid, or polluted environments.

**Terminals**
The electro-tin plated copper primary line terminals accommodate #10 to 250 MCM conductors. Clamp-type secondary terminals accommodate #14 through #3 wire. A ground terminal, located below the secondary terminal, is also provided for grounding the secondary circuit at the transformer.

**Junction box**
The junction box has a 1” conduit hub on either end and a knock out for a 1” conduit fitting on the bottom. The box is anchored to the body of the transformer with screws and can be easily detached, simplifying installation and change-out procedures.

**Baseplate**
The base is constructed of corrosion-resistant aluminum and is secured to the encapsulated base support.

**Mounting**
The VOY-60 can be mounted in upright, cantilever, or upside-down positions. Stress relief devices should be used to support cable connections.

**Test reports**
Test reports are stored electronically and can be e-mailed in various formats at the time of shipment.

**Standards**
This unit meets or exceeds all requirements of IEEE C57.13-2016 and can be tested to other standards as requested.
