
COURSE DESCRIPTION

CHV186 – Digital Transformation – Writing the digital future together

Course goal

Digitalization will take all parts of the ABB value chain to the next level and will significantly influence the way we work together in the future.

Furthermore, digitalization represents one of strategic focal points of ABB and will influence all fields of activity within ABB. That's why it is important that all ABB employees know the ideas and concepts behind the key word „Digitalization“ and understand what they can contribute to the successful transformation of ABB.

Main learning objectives

Upon completion of the course, participants will be able to

- describe relevant ideas and concepts behind the key word „Digitalization“
- recognize the inherent chances digitalization offers individuals, teams and the organization and how to implement them in their own work area
- name and explain running projects and products of ABB
- use digitalization for their work area and support others during the implementation.

- New forms and possibilities for collaboration in the digital age
- Digitalization and ABB – Where are we today, where will the journey take us?
- Changes in communication and working environment due to digitalization

Participant profile

Employees from all ABB business areas who want to know more about digitalization and address their questions to internal and external experts.

Course type

This is a face-to-face class room training with min. 12 and max. 25 participants.
