Enabling smarter system protection
Cyber Security Care

Cyber Security made simple
3 step approach

Assess
Our cyber security assessment aims to help you understand how to improve system security.

Implement
ABB provides recommended actions for you to implement based on the cyber security assessment.

Sustain
By implementing our recommendations, customers can achieve more stability, productivity and efficient operations.

Six layers of protection
Defense-in-depth

Staying protected

$400 Billion
Annual cost to the global economy from cybercrime*

$3.2 million
Average cost to U.S companies for a single data breach**

We are your cyber security partner
Helping to defend your grid automation systems.

All around the globe
