

ABB invites you to Rail Day March 15 | Los Angeles, CA

Dear Rail partner,

I am pleased to invite you to ABB's 2016 Rail Day in LA on March 15. This one-day event will focus on sustainable choices that improve operations while eliminating downtime.

During the day you will hear from ABB rail experts, as well as local industry professionals on the following topics. Find the [detailed program here](#).

- Local energy efficiency initiatives with guest speakers from LA Metro and consultants
- An energy storage solution for any rail application – wayside and on-board storage technologies
- The industry's top transformer technologies and maintenance practices that keep trains running
- Next generation of AC traction equipment
- Electrification of rail networks from high speed to light rail applications
- One synergized approach to low voltage design

For more information and to register for the event visit our [rail day microsite](#).

Questions? Contact [Ashley Kelly](#), Industry Marketing Engineer

Best regards,
Daniel Simounet
Director of Transportation, Americas
