ABB is helping Ecuador’s state oil company to gain 1 more week of productivity a year.

Emax 2 is the only circuit breaker in the world to support seven communication protocols for easy integration.

Emax 2 embedded functions to:
- control the power for higher efficiency
- protect the diesel generator and electrical equipment

ABB is helping Ecuador’s state oil company to gain 1 more week* of productivity a year.

* A broken drill needs 5 days to be exchanged.
