

## Course description

# G352e

## FlashDrop and DrivePM

# Operation and Programming, Internet course

### Course Duration

The course duration is approximately 0.5 day depending on personal background knowledge and study pace.

### Course type

Internet course

### Course Goal

The goal of this course is to teach students to use the DrivePM software and FlashDrop tool to create parameters sets, upload / download them from / to a drive.

### Student Profile

This course is intended for electricians, technicians, and engineers, who commission, install, operate and service ACS150, ACS350, ACS550 and ACH550 drive systems.

### Prerequisites

Either course G165, G166, G350, G351 (or equivalent knowledge). For course names and durations, please refer to the accompanying figures of learning paths.

### Description

This course belongs to a learning path that may utilize blended learning. Please see the accompanying figure for possible learning paths.

### Course Objectives

Upon completion of this course, students will be able to:

- Recognise the FlashDrop user benefits
- Present the product and its highlights
- Use the DrivePM software and FlashDrop tool with a drive.
- Install the DrivePM software
- Update the DrivePM and the FlashDrop with the latest templates

### Main Topics

- Technical overview
- DrivePM and FlashDrop Quick Guide
- Hands-on exercises.  
These exercises are meant to be used in an instructor led hands-on session

### Low voltage drives training
