

More power, more speed and more functionality
in a controller?

Absolutely.

Following years of experience in automation and control products, ABB is proud to introduce its latest Freelance controller – the AC 900F. This controller truly extends the hardware portfolio of Freelance distributed control system.

The AC 900F modular controller offers expanded flexibility via a pluggable SD card, more Ethernet ports, redundancy options for high availability and power for around 1,500 I/Os. The new AC 900F controller is ABB's answer to the ever-increasing demands for performance and reliability in a control solution.
