Industrial plugs and sockets

A perfect choice

ABB's industrial plugs and sockets are a part of the comprehensive ABB program of high quality low voltages products for industries, buildings and OEM's.

ABB has manufactured industrial plugs and sockets for over 60 years in the factory located in Nyköping, Sweden.

Long experience of developing and manufacturing plugs and sockets within ABB has resulted in a wide product range of high quality and a robust ergonomic design. Covering products up to 125 A and 690 V, all tested and approved for IEC standards.

The design and material used have continuously been improved to meet the customer's requirements, and to take the environmental aspects into consideration.

ABB's industrial plugs and sockets have the solution for products in industrial environments with high demands on safety, durability, reliability and cost saving for the end user.

- Safety - tested and approved by third party testing laboratories.
- Durability - materials used give a high durability in tough conditions and environments.
- Reliability - high quality contacts ensure reliability.
- Cost saving - designed for quick and easy installation.

You will find all you need in ABB's industrial plugs and sockets product range. One supplier for all your needs and worldwide availability.

Perfect performance

ABB's plugs and sockets comply with the high quality standards requested when there is a demand for reliability and safety. Some are made of heavy-duty plastics (PBT), others of metal. Some have advanced features while others have a straight forward functionality. Perfect for demanding customers.

Perfect productivity

The reliability of our plugs and sockets will help you maintain high up-time in operations. No unscheduled or unwanted interruptions, allowing you a high degree of flexibility.

Perfect safety

Safety is also very important. By choosing ABB's plugs and sockets you minimize the risk of short circuits. You also ensure maximum personal safety for anyone nearby or around your equipment.

Perfect for the job

Different applications and environments require different products. To make your choice of products easier, we have categorized our range into three groups. All groups have however one feature in common - Safety!

- Select Critical & Safe products for the highest safety in fixed installations.

- Select Tough & Safe products for best performance in demanding and heavy-duty applications.

- Select Easy & Safe products for adequate functionality and ergonomic design.

The structure of our main catalog is based on these three groups. Look for the three different symbols to make your choice.

ABB's industrial plugs and sockets – a complete offer

- Approved according to IEC 60 309-1, -2, -4
- Range from 16 A up to 125 A.
- IP44 (splashproof) and IP67 (watertight).
- All contacts are self cleaning and calibrated, to maintain the accurate contact pressure, quality and performance over time.
- Plugs and sockets for 63 A and 125 A have pins and sleeves carriers in glass fiber reinforced polyamide.
- For devices in the Critical & Safe and Tough & Safe range, all external screws are made of stainless steel.
- Clear terminal markings inside and at the front of the devices.
- Switched interlocked socket-outlets for vertical or horizontal mounting.

Pilot contact

All male and female plugs and sockets with a rated current of 63 A and all males and interlocked socket outlets with a rated current of 125 A are equipped with a pilot contact. Connectors and panel mounted socket outlets with a rated current of 125 A and with "LP" at the end of the type designation, e.g. 4125C6W LP, are equipped with pilot contacts. In all products with pilot contacts according to IEC 60 309-1 and -2, the pilot pin and sleeve are shorter than the other connecting pins and sleeves. This means that the "pilot circuit" breaks before and connects after the main circuit giving optimum safety. The maximum connection area is 4 mm².

Industrial plugs and sockets

10	□ Not used	■ >50 V >100-300 Hz	□ Not used
11 Mainly for marine installations	□ Not used	■ 440-460 V 60 Hz	■ Not used
12 Supply from isolating transformer	■ Supply from isolating transformer	■ 125/250 V Single phase	□ Not used

Product overview

Critical & Safe

Critical & Safe is the range for applications with high demands on safety, durability and performance. Perfect for applications with frequent connection/disconnection, and to use in public areas.

The housing is made of PBT or aluminum. PBT is a tough plastic material that withstands heavy-duty usage and most chemicals found in industrial environments. The aluminum housing is a mix of aluminium and silicon called silumin, which gives an excellent protection against corrosion while being robust and tough against impact and sunlight.

Features

- IP67 Watertight or IP44 Splashproof
- 16-125 A, 50-690 VAC
- IEC 60 309-2, -4
- All external screws are made of stainless steel

Application examples

- Heavy/chemical industry
- Sawmills
- Airports
- Hospitals

Type: 4125MVS6WH

Product overview

Tough & Safe

Tough & Safe is the range for applications in environments that have high demand of functionality and safety. The robust housing is made of PBT plastic. The range Tough & Safe is available as watertight (IP67, 16-125 A) and splashproof (IP44, 63 A). The devices are equipped with internal and external cable clamps. The 125 A devices are equipped with two screws on each terminal.

Features

- IP67 Watertight or IP44 Splashproof
- 16-125 A, 50-690 VAC
- IEC 60 309-1, -2
- All external screws are made of stainless steel.

Application examples

- Industry/workshops
- Harbours/shipyards
- Mines
- Food & beverage

Product overview

Easy & Safe

Without saving on quality, Easy & Safe is our basic range. The products have an ergonomic design and are full of small practical features. The plugs and connectors have a natural designed grip that makes it easy to work with during connection. The combined cable clamp/cable gland, where the strain relief is created by tightening of the gland nut, has a locking mechanism that will continuously apply pressure to the cable.

The installation is easy done due to the clear terminal marking. After connecting the cables the housing is easily closed by a twist. The plastic material PA is used to provide a device that meets requirements of quality and safety.

For the user, small features are included such as a sealing/locking feature to avoid accidental disconnection of for example a PA system. A suspension function that enables the user to hang the connector/plug that is not used on the wall or connect to a flexible wire in the ceiling (drop feed).

Features

- IP44 Splashproof
- 16-32 A
- PA6 plastic material
- IEC 60 309-1, -2
- Superior grip
- Compact design

Application examples

- Light industry
- Construction sites
- Farms
- General equipment

New series of black plugs, sockets and Modular Combi

With extensive experience of designing and producing industrial plugs, sockets and Modular Combi, ABB can provide products of high quality, functionality, reliability and safety.

Regardless of the situation, safety of people should be of highest priority in electrical installations, always.

ABB is introducing a new series of black plugs, sockets and modular combi which are very well suited for entertainment applications, such as concerts, cinemas, television studios, and open-air events. The black series are perfect for both indoor and outdoor use, they will blend into their dark surroundings.

Pin and sleeve configuration according to IEC standard. Product labels give the information on which voltage range the product is intended for. The black series are at the high quality level that characterizes ABB's industrial plugs and sockets.

Modular Combi in black

Modular Combi is a system consisting of compact units replacing outlets, that traditionally has been scattered around the walls.

Modular Combi is a cost effective system with different types of outlets, RCDs and MCBs in one location. It is very easy to install and, thanks to the solutions and design, it saves time and money.

The plastic version of Modular Combi are now available in black color. All the features are the same as the standard version, for example only one feeding cable is needed to supply all the sockets in a unit. Black Modular Combi are available on request equipped with sockets to meet customer needs. Contact the ABB's industrial plugs and sockets team for quotation.

All black Modular Combi combinations are available on request.

Modular Combi

Modular Combi is a system consisting of compact units replacing outlets, that traditionally has been scattered around the walls. **Modular Combi** is a cost effective system with different types of outlets, RCDs and MCBs in one location. **Modular Combi** is very easy to install and, thanks to the solutions and design, it saves time and money.

The Modular Combi range consists of two lines, one product line in plastic, the other one in metal. Common for them are among other features that you only need one feeding cable, it can be mounted with an already existing 4-wire as well as 5-wire cable and that the modules are easy to modify in the future for additional needs. Modular Combi can easily be customized for special applications.

Modular Combi Plastic

Operating voltage 230/400 V ~

Enclosure: Plastic (PBT)

Dimensions: According to table or customer order

Outlets: Combi Plastic is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A. With or without mechanical interlocked IEC outlets.

Cable entry: 4 knock-outs at the top, suitable for 2xØ 40 mm and 2xØ 25 mm
At the bottom 3xØ 47 mm

Cable area: 2x16 mm² Cu. Designed for looping

Covers: For MCB/RCD, maximum 13 modules, 2 opened and knock-outs for the rest of the modules row. DIN-rail in bottom for terminals and MCB/RCDs. With a distance at the bottom to allow wiring behind the rail. The lid is pad lockable.

For 16 A, IP44 Splashproof

Modular Combi Metal

Operating voltage 230/400 V ~

Enclosure: Aluminium with front plates of galvanised steel.

Dimensions: According to table or customer order

Outlets: Combi Metal is designed for different types of single phase domestic outlets and for IEC outlets up to and including 63 A. With or without mechanical interlocked IEC outlets.

Cable entry: FL21 flange openings at top and bottom

Cable area: 2x16 mm² Cu. Designed for looping

Covers: For MCB/RCD, maximum 12 modules. DIN-rail in bottom for terminals and MCB/RCDs. With a distance at the bottom to allow wiring behind the rail. The lid is pad lockable.

For 16 A, IP44 Splashproof

Extra low voltage

According to IEC 60 309

The plugs and sockets are intended for an operating voltage not exceeding 50 V. Their rated voltage is 24 V and 50 V for 16 A and 32 A and their degree of protection is IP44.

Range

The range includes the following types of equipment:

Plugs	16 A and 32 A, 2- and 3-pole
Connectors	16 A and 32 A, 2- and 3-pole
Socket-outlets, panel and surface mounting	16 A and 32 A, 2-pole
Inlets, surface mounting	16 A and 32 A, 2- and 3-pole

The cable seal is in the form of a reducing nipple that can be adapted to fit the cable area.

Standards

The products are designed according to the following standards: IEC 60 309-1, 60 309-2 and EN 60 309-1, 60 309-2.

Connections

The terminals are in form of sleeve terminals with two clamping screws in each sleeve.

Non-interchangeability

To achieve non-interchangeability, the plugs and sockets have a main key and a secondary key. The position of the secondary key is indicated by a number followed by a letter h (the hour position or o'clock position). The number is determined by the position of the secondary key relative to the main key, the position of which is defined as 6 o'clock. Non hour position is given for 20-25 V, 50-60 Hz, since there is no secondary key on these plugs and sockets.

The width of the key is different for 16 A and 32 A plugs and sockets. In addition, there is a color coding system: The cover or front part is violet on 20-25 V and white on 40-50 V plugs and sockets. Plugs and sockets for direct current are grey.

Connectable conductor area

Rated current A	Poles	Plugs, connectors and appliance inlets (rubber sheath cable), mm ²	Socket-outlets (fixed installation) mm ²
16 and 32	2	4-10	4-10
16 and 32	3	4-10	4-10

Diagram showing the hour position for the various types

Positions and connections of the contact

Table according to IEC 60309-2

Table 3. Plugs and sockets for max. 50 V.

Poles	Rated Voltage V	Frequency Hz	Position of secondary key 1)	Color code
2	20-25	50-60	(none)	Violet
	40-50	50-60	12 h	White
		100-200	4 h	Green
	20-25 and 40-50	300	2 h	Green
		400	3 h	Green
		>400-500	11 h	Green
3	DC		10 h	Grey
	20-25	50-60	(none)	Violet
	40-50	50-60	12 h	White
		100-200	4 h	Green
	20-25 and 40-50	300	2 h	Green
		400	3 h	Green
		>400-500	11 h	Green

¹⁾The position of main key is defined as 6 h (6 o'clock)

Explanation of type codes

Example: 416P6W

= 4 16 P 6 W

Number of poles	2P+E 3P+E 3P+N+E	2 3 4
Ampere	16 A 32 A 63 A 125 A	16 32 63 125

Type	Plugs Connectors Surface socket-outlets Surface socket-outlets for looping Switched interlocked socket-outlets, horizontal vertical of metal with MCB with RCD	P C RS RL MHS MVS MM MPM MPR RPM RPR R RU RAM RAU BS B BU BAU T A FP FV
Socket outlets	with MCB with RCD	
Socket outlets for panel mounting, minimized flange, straight		
	unified flange, straight minimized flange, angled unified flange, angled	
Surface inlets		
Inlets for panel mounting,	minimized flange, straight unified flange, straight unified flange, angled	BS B BU BAU
Three way adaptors		T
Site connection unit		A
Phase sequence testers		FP
Phase sequence changers		FV

(blank)	IP44, Splashproof
W	IP67, Watertight
WH	IP67, Watertight, Heavy Duty

Other types	
CUED	Socket outlets 16 and 32 A for wall socket, splashproof
CIE	Inlets, with flange (FL13) on top
CPEF	Plugs with built-in sequence changer
CLF	Plugblocker
CUIT	Socket outlets for extra low voltage, flush mounting, straight
CUIST	Socket outlets for extra low voltage, flush mounting, angled
CUGT	Socket outlets for extra low voltage, surface mounting
CIGT	Inlets for extra low voltage, surface mounting
CST	Connectors for extra low voltage
CPT	Plugs for extra low voltage
BPC	Building site
UJ	Schuko-outlets, metal
GP	Cover
CUE 416-6+ R/UJP	Socket outlets 4-pole, 16 A, 6h with Schuko 16 A

Standard voltages

Color codes according to IEC60309-1, -2

Position of earthing sleeve according to IEC 60309-2 (clock)	2P+earth			3P+earth			3P+N+earth		
	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)	Optional voltage (not stated below)
1 All operating voltages and/or currents not stated below	■ Optional voltage (not stated below)			■ Optional voltage (not stated below)			■ Optional voltage (not stated below)		
2 Aeronautics/airports, military	■ >50 V >300-500 Hz 16 A, 32 A			■ >50 V >300-500 Hz 16 A, 32 A			■ >50 V >300-500 Hz 16 A, 32 A		
3 3-phase only for cooling containers (standardized by ISO)	■ 50-250 V DC			■ 380 V 50 Hz, 440 V 60 Hz 16 A, 32 A			■ 220/380 V 50 Hz, 250/440 V 60 Hz, 16 A, 32 A		
4 For example in U.K.	■ 100-130 V 50/60 Hz			■ 100-130 V 50/60 Hz			■ 57/100-75/130 V 50/60 Hz		
5 Wind power	■ 277 V 60 Hz			■ 600-690 V 50/60 Hz			■ 647/600-400/690 V 50/60 Hz		
6 Most common voltages in Western Europe	■ 200-250 V 50/60 Hz			■ 380-415 V 50/60 Hz			■ 200/346-240/415 V 50/60 Hz		
7 Paper mills, steel plants, ship building industry	■ 480-500 V 50/60 Hz			■ 480-500 V 50/60 Hz			■ 480-500 V 50/60 Hz		
8	■ >250 V DC			□ Not used			□ Not used		
9 For example in Norway	■ 380-415 V 50/60 Hz			■ 200-250 V 50/60 Hz			■ 200-250 V 50/60 Hz		
10	□ Not used			■ >50 V >100-300 Hz			□ Not used		
11 Mainly for marine installations	□ Not used			■ 440-460 V 60 Hz			■ 440-460 V 60 Hz		
12 Supply from isolating transformer	■ Supply from isolating transformer			■ 125/250 V Single phase			□ Not used		

Material specifications

Polycarbonate	PC
Polyamide	PA
Polyamide, glass fiber reinforced	PA+glass
