**Thomas & Betts is now ABB  
Installation Products, but our long  
legacy of quality products and  
innovation remains the same. From  
connectors that wire buildings on  
Earth to cable ties that help put  
machines in space, we continue to  
work every day to make, market,  
design and sell products that  
provide a smarter, safer and more  
reliable flow of electricity, from  
source to socket.**

# Floor boxes

The aesthetic and technical needs of today's buildings are as diverse as the equipment that fills them. Small wonder, then, that floor boxes can continue to solve the needs of today and the future as they did in the early 1900s when they were invented. They are still a contemporary, capable and cost-effective wire management system. Steel City®, a pioneer in both the design and applications of floor boxes since 1904, invites you to discover or rediscover the possibilities.

Visit <https://productconfigurator.tnb.com/spr/Configuration/create/category/1> to use our online floor box selection tool to quickly and easily identify an appropriate in-floor solution for your needs.

# A breakthrough in floor box innovation

## New covers with Cerakote® coating for Steel City® floor boxes

Keep that new-look finish with up to 5x the wear resistance!

Cerakote-coated covers for Steel City® floor boxes — a breakthrough in floor box innovation — offer superior durability in airports, hotels, schools, retail centers and other high-traffic areas. Providing up to five times the wear resistance of standard powder-coated floor box covers, they improve aesthetics while helping reduce maintenance and replacement costs.

Cerakote coating has been used for years in challenging applications involving high temperatures and abrasion. Now ABB Installation Products is the first floor box manufacturer to

bring the advantages of Cerakote coating to its Steel City floor box covers. You can count on these covers to maintain their appearance even in high-traffic areas, thanks to the superior wear resistance of this rugged coating.

### Features and benefits

- Solid aluminum covers with Cerakote coating
- Up to 5 times the wear life of standard powder-coat paint
- Ideal for use in high foot-traffic areas
- Lower VOC than standard powder-coat paint
- UL listed

## Now available in matte black for the following Steel City floor boxes

664 series floor box — See page 16

665 series floor box — See page 19

68-HP series round floor box — See pages 49 and 51

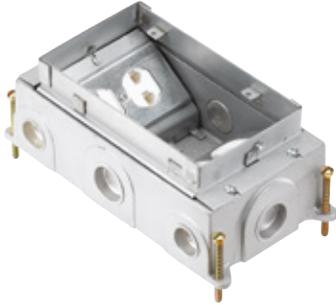

RPT6 series recessed poke-through — See page 89

## Concrete application – On grade floors

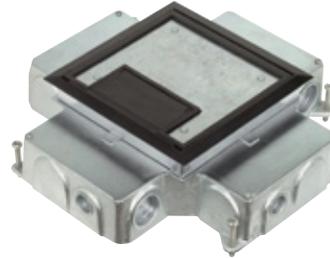

### Recessed service

- Material: Cast iron
- Covers: MopTite® 664-CST Series

664-CI (2-gang) - See page 15

- Material: Stamped steel/cast iron
- Covers: MopTite® 665-CST Series

665-CI (2-gang) - See page 18

## Concrete application – On grade floors

### Flush service

- Material: Cast iron
- Covers: MopTite® P60 Series

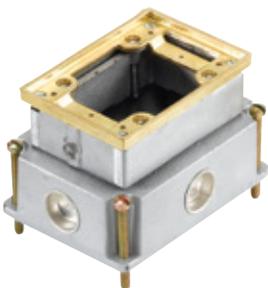

600 Series - See page 23

- Material: Cast iron
- Covers: MopTite® P90 Series

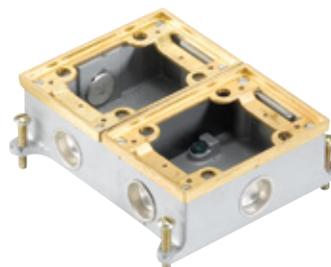

78 Series - See page 26

- Material: Cast iron
- Covers: MopTite® P64 Series

640 Series (1-, 2-, 3- & 4-Gang) - See page 30

- Material: Cast iron
- Covers: MopTite® P64 Series

840 Series (1-, 2- & 3-Gang) - See page 30

**Concrete application – On or above grade floors**

Flush service

- Material: Non-metallic
- Covers: MopTite® P60 & P68 Series

**68-P Series** - See page 44

- Material: Non-metallic
- Covers: 68-HP Series

**68-HP Series** - See page 48

**Concrete application – Above grade floors**

Recessed service

- Material: Stamped steel
- Covers: P62 and P60 Series

**663-SC (2-gang)** - See page 56

- Material: Stamped steel
- Covers: MopTite® 664-CST SW Series

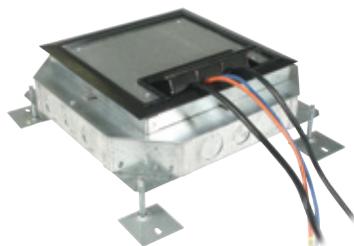

**664-SC/664-S (2-gang)** - See page 58

- Material: Stamped steel/cast iron
- Covers: MopTite® 665-CST-SW Series

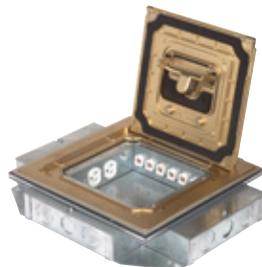

**665-SC/665-AV2 (4-gang)** - See page 61

- Material: Stamped steel
- Covers: MopTite® 667-CST-SW Series

**667-SC (8-gang)** - See page 65

- Material: Stamped steel
- Covers: MopTite® 668-CST

**668-S (4-gang)** - See page 67

## Concrete application – Above grade floors

### Flush service

- Material: Stamped steel
- Covers: MopTite® P60 Series

68 Series - See page 71

- Material: Stamped steel
- Covers: 640P Series activations with MopTite® P64 Series covers

740 Series (1-, 2- & 3-Gang) - See page 75

- Material: Stamped steel
- Covers: MopTite® P90 Series

88 Series - See page 78

## Concrete application – On or above grade floors

### Poke-through and furniture feed

Flush service - See page 82

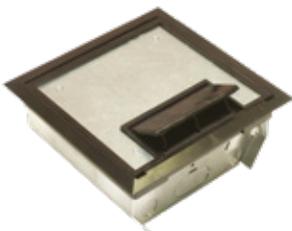

Recessed service - See page 89

Furniture feed - See page 89

## Access floor module application

- Material: Stamped steel
- Covers: MopTite® covers, assembled

Access floor modules - See page 98

## Standard specification

### Flush floor boxes

#### Cast iron formed steel

Considerations when writing specifications:

Floor boxes are manufactured in various sizes, configurations and materials. The specifier should determine the most suitable product for his application. Refer to the ABB floor box catalog and select the appropriate paragraphs listed below. Plans should supply wiring capacity, conduit sizes, adjustability and floor finish. Construction Specifications Institute (CSI) references sections: 16132 Floor Boxes; 16141 Wiring Devices; Part 2-206 Floor Mounted Service Fittings; and 16741 Telephone Raceway Systems, Part 2-201 G Floor Boxes. Section 16132 Floor Boxes is preferable.

#### Part 2: Products

##### 2.01 Acceptable manufacturers – Floor boxes

A. Shall be as manufactured by ABB, Memphis, TN

##### 2.02 Materials – Floor boxes

###### 2.02.1

A. Shall be cast iron, painted inside and out with weatherproof paint intended for use on metal as indicated on the plans.

###### 2.02.1

B. Shall be formed steel with a zinc plating at least .0005 in. thick on the outside and .00015 in. thick on the inside as indicated on the plans.

###### 2.02.2

A. Construction shall be as required by UL 514A.

###### 2.02.2

B. Carpet or tile frame shall be (brass, aluminum, polycarbonate, nylon).

###### 2.02.2

C. Cover assembly shall protect against the ingress of water or foreign material with a gasket and shall be UL Listed as moptight.

##### 2.03 General design – Floor boxes

A. Shall deliver electric power from receptacles installed at the surface of the floor or from service fittings (Reference 16141 as shown on the plans).

B. 640/840 Series shall deliver power and telephone/data cable without interference from electric power delivery (see Section 16741).

C. Cubic inch capacity shall be as shown on the plans.

D. Boxes shall accept conduit sizes as required on the plans.

E. Shall be listed by Underwriters Laboratories.

#### Part 3: Execution

##### 3.01 General

A. Locate position for floor boxes and runs of conduit as shown on the plans.

##### 3.02 Installation

A. Position floor boxes and conduit runs.

B. After concrete pour, pull wires and install devices according to manufacturers recommendations.

C. Activate in accordance with the National Electrical Code®.

D. Coordinate with floor covering contractor to complete installation.

## Standard specification

### Concealed service

#### Service floor outlet multiple service, power and communications

Considerations when writing specifications:

The 664 Concealed Service Floor Box provides both electric power and telephone (data) services from the same device for economy of space and cost, as well as affording a flush delivery (no above floor service fitting). For these reasons, your specification may reference this product in three sections: Floor Boxes, Wiring Devices and Telephone Raceway Systems. Construction Specifications Institute (CSI) references them in: 16132 Floor Boxes; 16141 Wiring Devices; Part 2 – 2.06 Floor Mounted Service Fittings; and 16741 Telephone Raceway Systems, Part 2 – 2.01 G Floor Boxes. Section 16132 Floor Boxes is preferable. For clarification include a reference in 16141, Part 2, 2.06 Floor Mounted Service Fittings as follows: Surface type service fittings are not acceptable.

#### Part 2: Products

##### 2.01 Acceptable manufacturers – Floor boxes, multiple service

A. Shall be series 664 concealed service floor box as manufactured by ABB.

##### 2.02 Materials – Floor boxes, multiple service

A. Shall be electrogalvanized, 14 gauge sheet steel. (Alternate A shall be cast iron).

B. Construction shall be as required by UL 514A.

C. Carpet frame shall be nylon UL Recognized Component QMFZ2.

D. Hinged outer cover shall be reinforced with a 5/32" steel plate.

##### 2.03 General design – Floor boxes, multiple service

A. Shall deliver electric power from one or two duplex receptacles installed below the surface of the floor.

B. Shall deliver telephone or data cable without interference from the electric power delivery.

C. Shall protect delivery of both services by a hinged cover with a retractable opening and foam plastomer dust seal.

D. Hinged cover shall accept carpet or tile to match floor covering and be 180 degrees reversible.

E. Shall have 90 cubic inch total capacity with 24 cubic inch power chambers.

F. Shall accept conduit sizes up to 1¼ inches.

G. Shall afford 18 square inches of access with cover open.

H. Box shall be listed by Underwriters Laboratories.

I. When hinged cover is closed and no services in place, device shall have no obstructions above surface of floor.

#### Part 3: Execution

##### 3.01 General

A. Locate position for floor boxes and runs of conduit as shown on the plans.

##### 3.02 Installation

A. Position floor boxes and conduit runs.

B. After concrete pour, pull wires and install devices according to manufacturers recommendations.

C. Activate in accordance with the National Electrical Code®.

D. Coordinate with floor covering contractor to complete installation.

## Standard specification

### Above-floor service

#### Service floor outlet multiple service, power and communications

Considerations when writing specifications:

The 664 Concealed Service Floor Box provides both electric power and telephone (data) services from the same device for economy of space and cost, as well as affording a flush delivery (no above floor service fitting). For these reasons, your specification may reference this product in three sections: Floor Boxes, Wiring Devices and Telephone Raceway Systems. Construction Specifications Institute (CSI) references them in: 16132 Floor Boxes; 16141 Wiring Devices; Part 2 — 2.06 Floor Mounted Service Fittings; and 16741 Telephone Raceway Systems, Part 2 — 2.01 G Floor Boxes. Section 16132 Floor Boxes is preferable. For clarification include a reference in 16141, Part 2, 2.06 Floor Mounted Service Fittings as follows: Surface type service fittings are not acceptable.

#### Part 2: Products

##### 2.01 Acceptable manufacturers – Floor boxes, multiple service

A. Shall be series 664 concealed service floor box as manufactured by ABB.

##### 2.02 Materials – Floor boxes, multiple service

- A. Shall be electrogalvanized, 14 gauge sheet steel. (Alternate A shall be cast iron).
- B. Construction shall be as required by UL 514A.
- C. Carpet frame shall be nylon UL Recognized Component QMFZ2.
- D. Hinged outer cover shall be reinforced with a  $\frac{5}{32}$ " steel plate.

##### 2.03 General design – Floor boxes, multiple service

- A. Shall deliver electric power from one or two duplex receptacles installed below the surface of the floor.
- B. Shall deliver telephone or data cable without interference from the electric power delivery.
- C. Shall protect delivery of both services by a hinged cover with a retractable opening and foam plastomer dust seal.
- D. Hinged cover shall accept carpet or tile to match floor covering and be 180 degrees reversible.
- E. Shall have 90 cubic inch total capacity with 24 cubic inch power chambers.
- F. Shall accept conduit sizes up to  $1\frac{1}{4}$  inches.
- G. Shall afford 18 square inches of access with cover open.
- H. Box shall be listed by Underwriters Laboratories.
- I. When hinged cover is closed and no services in place, device shall have no obstructions above surface of floor.

#### Part 3: Execution

##### 3.01 General

A. Locate position for floor boxes and runs of conduit as shown on the plans.

##### 3.02 Installation

- A. Position floor boxes and conduit runs.
- B. After concrete pour, pull wires and install devices according to manufacturers recommendations.
- C. Activate in accordance with the National Electrical Code®.
- D. Coordinate with floor covering contractor to complete installation.

CONCRETE APPLICATIONS

On grade floors  
recessed service

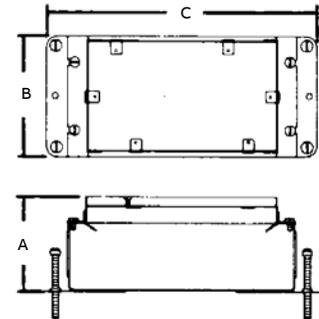

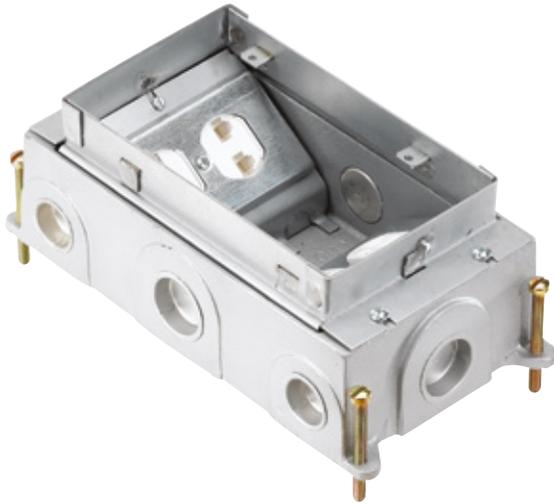

## Cast iron for slab-on-grade applications

### 664 Series

Multiple-service floor boxes deliver power, communications and data from standard conduit with no exposed service fittings. Result: Open office planning flexibility. Ideal for the modern office with workstations that have power, communications and data equipment. Power receptacles and low-voltage connections can be enclosed underfloor in either steel or cast-iron bodies. Galvanized 14-gauge steel boxes are provided with knockouts from 3/4" to 1 1/4" (see engineering data). Cast-iron bodies have threaded openings for 3/4" and 1" conduit.

**Features and benefits:**

- Two-compartment box is available in three configurations: stamped steel (664-SC), shallow (664-S) (see page 58) and cast iron (664-CI)
- Durable non-metallic covers include a steel reinforcement plate for added strength
- Metallic covers in solid brass, aluminum and aluminum black powder-coated provide aesthetics and durability
- Cover flange self-levels with the finished floor for easy installation

Cat. no.	Description	Std. ctn.
664-CI	Cast-iron box which accepts two plates, with one duplex 664-RP provided	1

Note: When ordering a 664 Series box, the cover must be ordered separately. See page 16. For communications accessories, see page 129.

## Wire tunnel

### 664 Series

664-WT

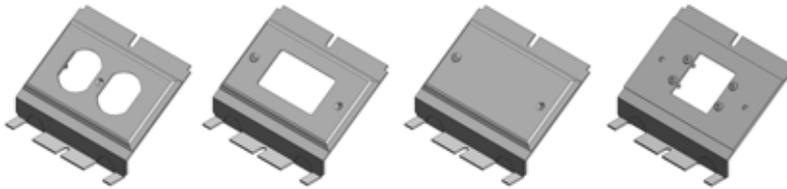

- Wire tunnel for protecting electrical connections between the two receptacles when the box is used for power/power application

Cat. no.	Description	Std. ctn.
664-WT	For use with 664 and 664-CI floor boxes	4

## Device plates

### 664-SC & 664-CI

664-RP

664-GP

664-BP

664-2-MAAP

- Receptacle face plate for 664 Series floor box for additional power service
- Does not include receptacle. Can be placed at either end of floor box

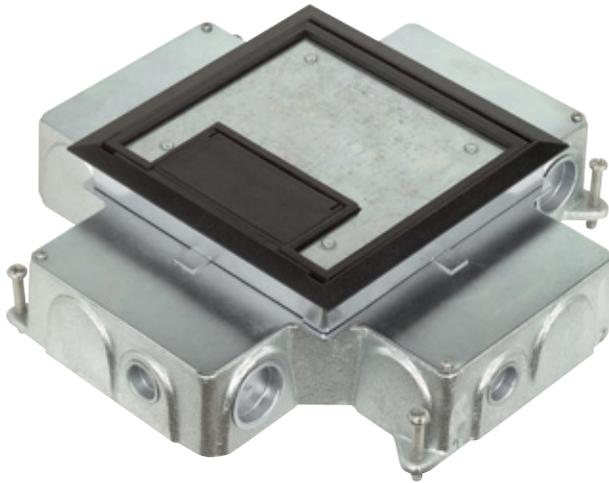

Cat. no.	Description	Std. ctn.
664-RP	For use with 664 and 664-CI floor boxes	4
664-BP	Blank plate for use with 664 & 664-CI floor boxes	4
664-GP	GFCI receptacle plate	4
664-2-MAAP	Device panel, accepts 2 Extron MAAP plates	4

CAUTION: When using the center side KOs, all 664 plates must be assembled to the box prior to installing the conduit.

## Cast iron for slab-on-grade applications

### 665 Series - 665-CI

The Steel City® 665 cast iron floor box provides a high-capacity power and data solution for ground-floor installations. This 4-gang recessed service floor box is ideal for slab-on-grade applications. Removable voltage dividers enable users to customize wiring configurations by feeding two or more adjacent compartments with a single conduit. Aesthetic covers feature a recess to accept floor covering to match the surrounding floor.

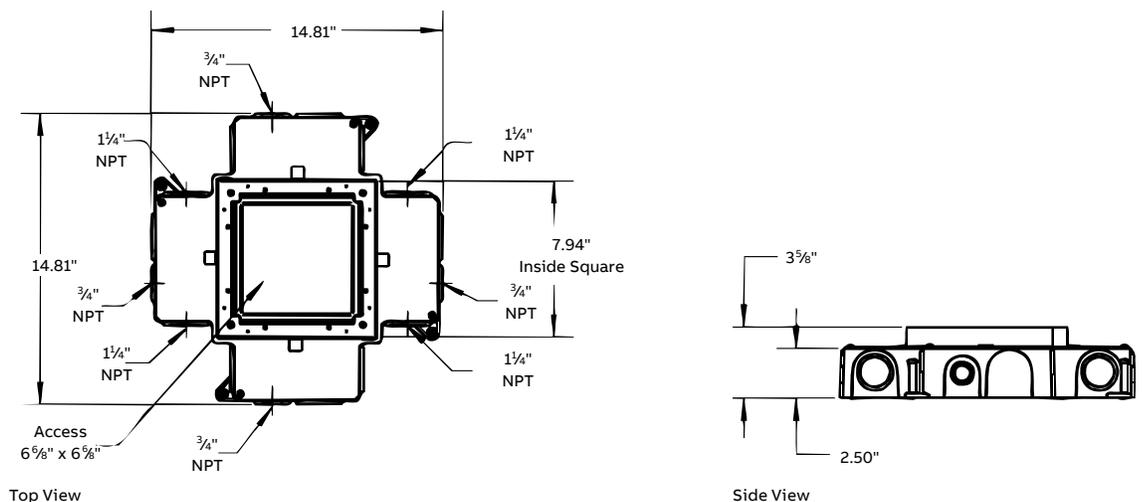

#### Features and benefits:

- 4-gang, recessed service for a high-capacity aesthetic floor-box solution
- Removable voltage dividers between compartments enable a single conduit to feed two or more adjacent compartments heavy duty, non-metallic covers with steel reinforcement plates are available in a wide variety of colors to match any decor (black, gray, brown and beige)
- Metallic covers
- Separate cord door in the cover latches firmly in the open position to prevent damage to cables
- MopTite® covers meet UL/CSA scrubwater exclusion requirements for carpet, tile and wood
- Largest cubic-inch capacity of any cast iron recessed 4-gang floor box
- Inline 1¼" hubs allow high-capacity straight runs for communicator wiring
- Custom device panels and hub sizes are available. Contact technical service about these offerings

Cat. no.	Description	Device compartments (in.)						Std. ctn.
		Length	Width	Height	Area	Device Access Area		
665-CI	Cast iron box	5¾	3½	2¼	45 cu. in.	126 cu. in.	1	

665-CI floor box does not include device plates or cover. Order separately. (See pages 19 and 20)  
For communications accessories, see page 129.

P-67-F	Brass edge ring for concrete	4
478-G-12	15-Amp, 125-Volt NEMA grounding receptacle	4

## Multiple-gang floor boxes for power and communications

### 640 and 840SC Series

640 and 840 Series floor boxes provide flush service for power, communications and data. Multiple-gang boxes enable the user to place high- and low-voltage in a single floor box.

Floor boxes up to four-gangs are available.

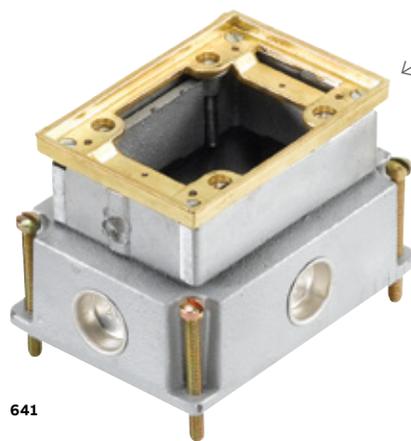

640 and 840 Series boxes can be used for either carpet or tile applications.

#### 640 Series – features and benefits:

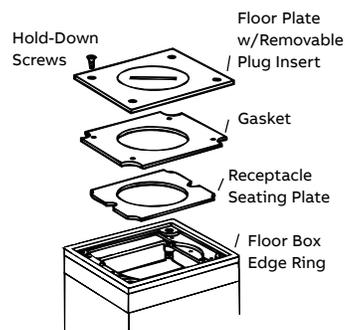

- Cast iron, watertight body, fully adjustable
- Painted silver enamel inside and out for additional corrosion resistance
- Interior and exterior leveling screws permit adjustment to finished floor
- Removable partitions for large capacity requirements on 2-, 3- and 4-gang
- Shipped complete with expendable cap to prevent ingress of concrete during pour
- $\frac{3}{4}$ " threaded conduit openings are standard
- Uses P64 Series MopTite® covers (one cover per gang)

#### 840SC Series – features and benefits

- Cast iron, watertight body, semi-adjustable
- Painted silver enamel inside and out for additional corrosion resistance
- Exterior leveling screws for adjustment to finished floor
- Removable partitions for large capacity requirements on 2- and 3-gang
- Shipped complete with expendable cap to prevent ingress of concrete during pour
- $\frac{3}{4}$ " threaded conduit openings are standard
- Uses P64 Series MopTite® covers (one cover per gang)

Trim ring SP-641-FL is the replacement part number (1 brass trim ring is included).

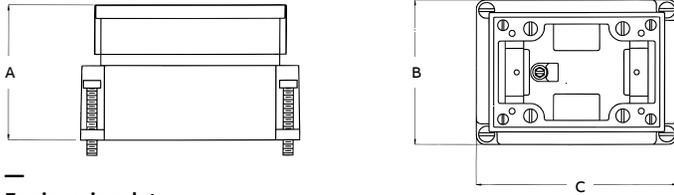

#### Features and benefits:

- Polished brass finish
- Furnished complete with sealing gasket and 8-32 x 1" screws
- 3" x 4½" outside dimension
- All covers meet MopTite® requirements

# 1-, 2- and 3-Gang

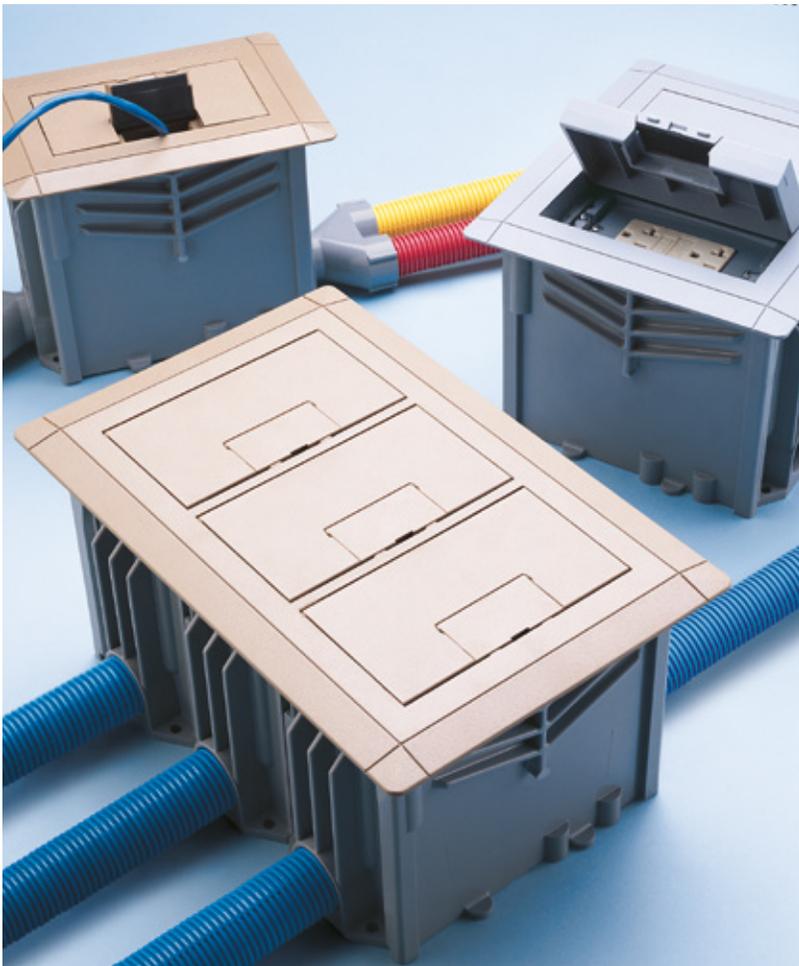

## Rectangular floor box

Carlton® rectangular floor box systems – three-way power, data and communications plus easy double- or triple-gang, too.

Compared to metal boxes, Carlton® rectangular floor boxes cost less and install faster to save you money on every job. Three-in-one power, data and communications capability cuts installation time and cost even more, while simple two- and three-gang modularity gives you the flexibility, installation ease and cost-savings no other non-metallic boxes can match. The covers attach without the use of fasteners, providing a professional, clean installation as well as preserving the aesthetic life of the product. Take a closer look at all that our rectangular floor box systems offer you.

### Features and benefits:

- Covers require no adjusting collar – two screws ensure a flush, secure installation
- Non-metallic PVC construction, watertight gasket and corrosion-resistant hardware ensure long life and reliable performance, even in harsh and/or corrosive environments
- One consistent box depth simplifies ordering time and reduces inventory
- Saves time and money on installations with simple saw cut to floor level
- Concrete tight and suitable for any on-grade/below-grade application; concrete or wood subfloor construction approved
- Convenient cubic inch capacity markings on inside enable easy inspection
- PVC-molded ports and reducer plugs included
- Accepts ½", ¾" and 1" conduit, tubing or raceway
- Rectangular sides are drillable
- Suitable for tile and carpet applications
- Cover options include solid brass, stainless steel and non-metallic (brown, slate and caramel)
- UL/CSA scrubwater tested, approved for all types of finish flooring

## Gangable rectangular Floor box

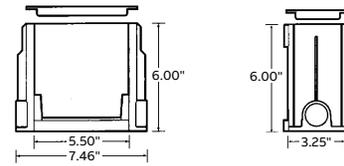

**Features and benefits:**

With our rectangular boxes, one SKU is all you ever need. Simply remove appropriate sides and slide boxes together to create two- or three-gang boxes for unique on-the-job flexibility.

**For wood floor applications, box must be supported from below.**

Cat. no.	Material	Size	Internal volume (cu. in.)	Min. concrete depth	Hubs (In.)	Reducer plugs (In.)	Std. ctn.	Std. Wt. (lbs.)
E976RFB	PVC	1-Gang	97.4 (16.8 per inch of depth)	3½	(2) 1	(2) 1 x ¾ (2) ¾ x ½	3	6.92

## Activation Kit

Activation kit provides components to accommodate all standard power, data and communications devices, plus a divider to separate power from data and communications – all in a single SKU. Device yokes can be adjusted to store excess cord in the box.

Requires one kit per gang.

Cat. no.	Material	Std. ctn.	Std. Wt. (lbs.)
E976AK2	PVC	3	2.47

## 1-, 2- and 3-gang non-metallic

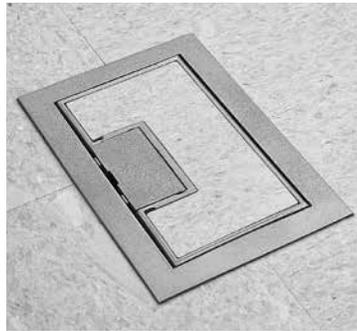

### Floor box covers

On-the-job flexibility extends to our rectangular box covers. Each one-, two- or three-gang cover is suitable for any wiring application and can be used with any floor surface. Non-metallic covers are even field-reversible for tile or carpet. Double-door feature enables easy access to the device and helps keep stray cords organized.

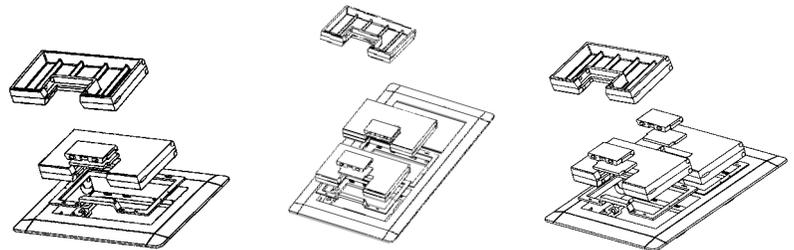

Carlon® Rectangular Floor Box Covers do not require a separate carpet flange. The carpet flange is part of the cover and may be removed for tile application.

#### Features and benefits:

- High-impact resistant thermoplastic
- Field reversible for tile or carpet
- Gasketed for a watertight seal
- Double-door design
- For tile and carpet applications
- UL/CSA scrubwater tested

Cat. no.	Size	Color	Carpet flange	Dimensions (w x L) (In.)	Std. ctn.	Std. Wt. (lbs.)

E9763S	Three-Gang	Slate	Included	7.13 x 11.50	6	7.5

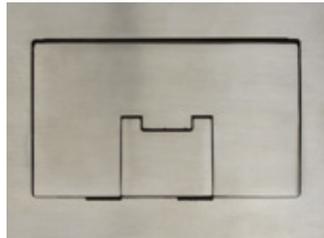

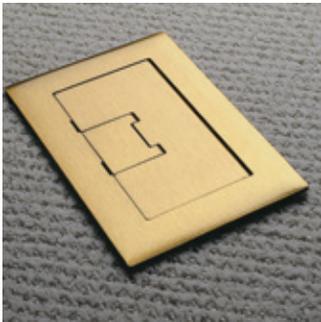

## 1-, 2- and 3-gang solid brass and Stainless steel floor box covers

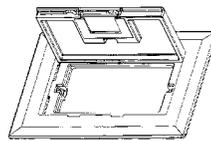

Carlton® brass and stainless steel rectangular floor box covers add a classic touch to all floor box installations, and are particularly suited for use in high-traffic areas because of the resistance to wear. The gasket gives a watertight seal, and the light lacquer finish provides extra protection.

**Features and benefits:**

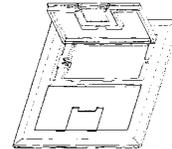

- Rugged construction
- Coated with a light lacquer finish for extra protection
- Covers include a cord door
- Gasketed for watertight applications
- Accepts single, duplex, GFCI and low-voltage receptacles
- For tile and carpet applications
- UL/CSA scrubwater tested

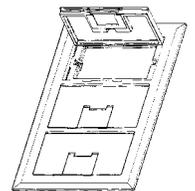

Cat. no.	Size	Color	Dimensions (in.)	Std. ctn.	Std. Wt. (lbs.)
E9761BR	One-gang	Brass	7.13 x 5	3	6.8

# Recessed service box

## 68R Series for use with 68-P floor box

— 01 Use a Steel City® round PVC floor box, catalog number 68-P (purchased separately) See page 44

— 02 Concrete applications

— 03 Lid closes flush with the floor, even with cords plugged in

— 04 Power and communications wood sub-floor/raised floor applications

Plug in power and communication cords, and then close the lid to hide unsightly plugs and receptacles below the floor.

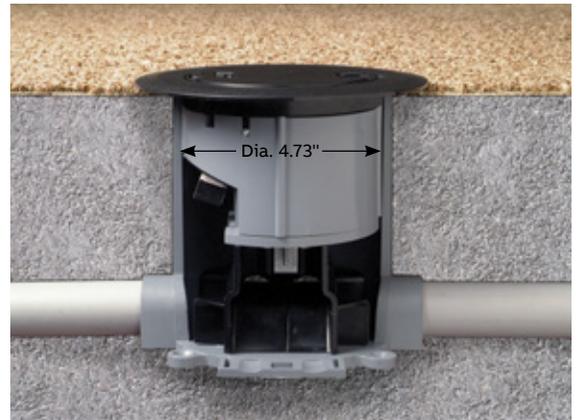

### Features and benefits:

- Unique cover provides aesthetic recessed service with cost-effective box options for concrete, wood sub-floor and raised-floor applications
- Lid can be rotated to expose a small opening for cords, enabling the lid to close flush with the floor while in use

- Cover accepts one duplex or GFCI receptacle – no special device plates required (receptacle purchased separately)
- Cover accepts up to two communications jacks – includes one 2-port keystone data plate and one blank data plate for custom cut-outs or power-only applications (communications jacks purchased separately)
- Non-metallic covers are available in black, gray, beige and brown. Black covers are available with an optional brass or aluminum flange
- Two set screws lock the cover in place – no gluing required

01

02

03

04

**Recessed covers**  
68R Series

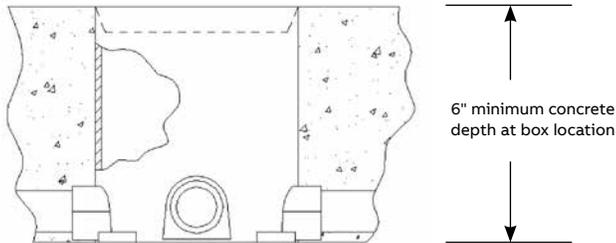

**Features and benefits:**

- Cover assembly
- Receptacle mounting plate
- Duplex receptacle insert
- 2-port keystone data plate
- Blank data plate
- Voltage divider

Device not included. Cover is 6<sup>3</sup>/<sub>4</sub> in. dia.

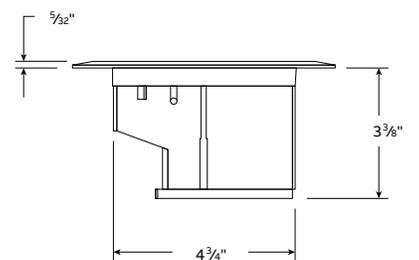

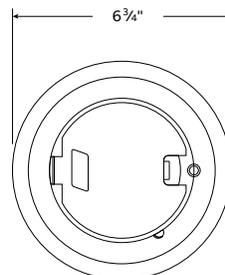

**Important application note:**

When using the 68R recessed cover with the 68-P floor box for concrete applications, the entire box depth (6") is required. Prior to concrete pour, level the top of the box with the screed line of the concrete.

## Carlton® round floor box systems

Three-way versatility for power, data and communications

Carlton® round floor boxes give you the same cost-saving advantages over metal boxes as our rectangular boxes. By combining power, data and communications in the same box, you can dramatically reduce your installation time and cost compared to other non-metallic boxes. In addition, multi-use covers mean fewer SKUs to deal with and greater jobsite flexibility to increase your savings further. Take a closer look at all their advantages.

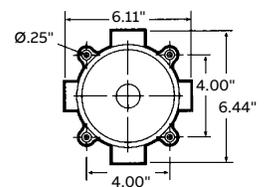

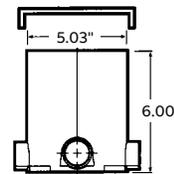

### Features and benefits:

- Non-metallic PVC construction, watertight gasket and corrosion-resistant hardware ensure long life and reliable performance, even in harsh and/or corrosive environments
- Covers are available for a variety of applications
- The same box depth simplifies ordering and reduces inventory
- Suitable for tile and carpet applications
- Cover options include: brass, stainless steel and non-metallic (ivory, caramel, taupe, slate and brown)
- Concrete tight and suitable for any on-grade/ below-grade application; concrete or wood floor construction approved
- Y-connector (E972Y) enables you to feed parallel runs of 3/4" conduit or to feed in/out from the same side for increased wiring flexibility and faster installation
- PVC-molded ports and reducer plugs included
- Accepts 1/2", 3/4" and 1" conduit, tubing or raceway
- UL/CSA scrubwater tested, approved for all types of finish flooring

**Round floor box** - Carlton® round floor boxes enable various thicknesses of concrete pours. Trim out is easy – just use a handsaw to cut off box at desired height to accommodate carpet, tile or other flooring. Carlton® leveling ring guarantees a level top every time, even if the box is tipped slightly during the pouring process.

Cat. no.	Internal volume (cu. in.)	Min. concrete depth (in.)	Hubs (in.)	Reducer plugs (in.)	Std. ctn.	Std. Wt. (lbs.)
E971FB	90.0 (15.5 per inch of depth)	3 1/2	(2) 1 and (2) 3/4	(2) 1 x 3/4 and (2) 3/4 x 1/2	10	15.6

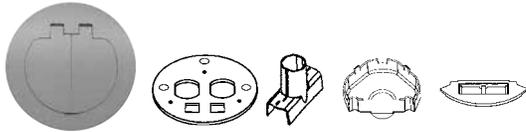

## Brass and stainless steel covers

For round floor boxes

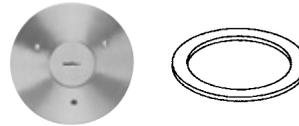

### Features and benefits:

- Screws concealed under doors
- Rugged construction
- Coated with a light lacquer finish for extra protection
- Resistance to wear – suited for high-traffic areas
- Gasketed for watertight applications
- Available in four styles – single door, two door, NPS opening and two-door dual service
- For tile and carpet applications
- UL/CSA scrubwater tested
- Cover diameter: 5½"

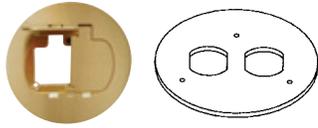

### Two-door dual service (divider kit included)

## Round non-metallic floor box

### 68-P Series

The 68-P floor box provides flush service for power or communications and data. The non-metallic floor box is used in concrete floors and is suitable for carpet, tile or wood applications.

#### Features and benefits:

- High-strength rigid PVC construction, non-corrosive
- Easy installation with no leveling required – just cut the box level with the concrete after the pour
- Compatible with standard-schedule PVC conduit  
Pre-packaged with concrete cap and six hub plugs
- Includes four (4)  $\frac{3}{4}$  to  $\frac{1}{2}$ " reducing bushings
- Includes four (2) 1 to  $\frac{3}{4}$ " reducing bushings

Cat. no.	Dimensions (in.)			After pour adj.	Maximum capacity (cu. in.)	Standard conduit tapping	Covers and carpet plates	Wiring device	Std. Ctn.
	A	B	C						
68-P	5 $\frac{5}{32}$	6	6 $\frac{3}{8}$	None	100	(4) $\frac{3}{4}$ " (2) 1"	P60 P68 series	Single duplex or data/voice	8

Minimum pour 3 inches. Cubic in. capacity is 17 cubic inches per inch of box height. **Note:** Must use 68-PAR to attach cover plates to 68-P floor box.

## Adjusting ring

### for 68-P floor box

#### Features and benefits:

- Non-metallic adjusting ring includes pigtail and clips

Cat. no.	Description	Std. ctn.
68-PAR	Non-Metallic Adjusting Ring	8

Required to mount P60 and P68 Series covers to 68P floor box (not needed for dual-voltage kits).

## Metallic tile trims

### for 68-P floor box

#### Features and benefits:

- Tile trim rings are available in brass or aluminum for flush installation of metallic plates in linoleum, tile, wood or carpeted floors. Must be used to mount P60 series plates. (Not required for P-68 covers, P60-CACP or P60-3/4-2-CACP)

Cat. no.	Description	Std. ctn.
68P-FL	Tile trim ring, brass	4
68P-FL-AL	Tile trim ring, aluminum	4

Required to attach P60 Series cover plates to 68-P floor box.

## Dual-voltage kits

### 68-P Series

#### Features and benefits:

- Voltage divider has easy-cut score lines to accommodate concrete depths of 3 to 6 inches
- Faceplate has removable data plates and can accommodate GFCI or standard duplex receptacles
- Kit comes equipped with 4 standard keystone-size openings in the data plates. Other styles available include openings sized for Ortronics, Avaya, Panduit and Hubbell
- MopTite® cover uses a “snap-lock” to close the lid. No screws to turn... just push down the lid and it snaps in place. The cover uses a factory-installed gasket and exceeds all UL/CSA scrubwater exclusion requirements for carpet, wood and tile floors
- MopTite® cover available in solid brass, black powder paint aluminum or aluminum
- Includes everything required for a standard installation (68P floor box, data jacks and receptacles not included)

Cat. no.	Description	Std. ctn.
68P-DV-KIT-BRS	Dual-voltage divider kit with MopTite® brass cover	1
68P-DV-KIT-AL	Dual-voltage divider kit with MopTite® aluminum cover	1
68P-DV-KIT-BLK	Dual-voltage divider kit with MopTite® black cover	1
68P-DV-DP-ORT	Ortronics data plate to accommodate 2 jacks	10
68P-DV-DP	Standard data plate to accommodate 4 keystone jacks	10

\*Keystone data plates come standard with the kit. Other style data plates are available from ABB and can be ordered separately.

## MopTite® metallic carpet plates

### 68-P Series

P60-CACP

P60-3/4-2-CACP

P60-CACP-GFCI

P60-CP

#### Features and benefits:

- Polished brass or brushed aluminum finish
- Furnished complete with 8-32 x 1" brass screws

Cat. no.	Description	Finish	Std. ctn.
P60-CACP	One-piece duplex cover and carpet flange	Brass	4
P60-CACP-AL	One-piece duplex cover and carpet flange	Aluminum	4
P60-3/4-2-CACP	One-piece cover and carpet flange with 3/4" and 2" plugs	Brass	4
P60-3/4-2-CACP-AL	One-piece cover and carpet flange with 3/4" and 2" plugs	Aluminum	4
P60-CACP-GFCI*	One-piece GFCI cover and carpet flange	Brass	4
P60-CACP-GFCI-AL*	One-piece GFCI cover and carpet flange	Aluminum	4
P60-CP*	Carpet flange	Brass	4
P60-CP-AL*	Carpet flange	Aluminum	4

\*Requires 68-PAR and 68P-FL or 68P-FL-AL to attach cover to 68-P floor box. MopTite® Covers exceed UL/CSA watertight requirements.

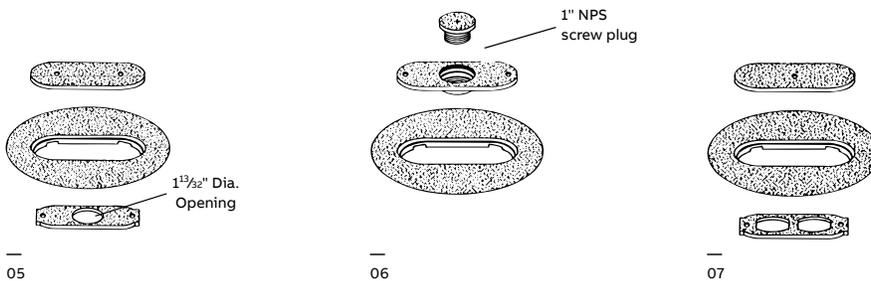

## MopTite® non-metallic carpet plates

### 68-P Series

05 Non-metallic, single receptacle plate (SRC) with matching carpet plate and cover. 6" O.D.

06 Non-metallic floor service cover (FSC) with 1" NPS screw plug accommodates most above-floor service fittings with matching carpet plate. 6" O.D.

07 Non-metallic, duplex/voice data receptacle plates (DRC) with matching carpet plate and cover. 6" O.D.

Cat. no.	Color	Description	Std. ctn.
P-68-SRC-GRY	Gray	Non-metallic carpet plate and cover for single receptacle	4

# Round floor boxes for power and communications

## 68-HP Series

Innovative 3-Gang round floor box for power, data and AV

### Unmatched flexibility to configure any combination of power and communications devices

- Accepts standard devices from any manufacturer, including duplex, GFCI, locking, hospital grade or isolated ground receptacles
- Accommodates a wide variety of multi-media devices through the use of rectangular adapters

### Combines the capacity of a 3-gang box with the affordability of a round non-metallic floor box

- 6" diameter round non-metallic floor box – the largest in the industry
- Large inline hubs for power and data wiring: 1" for power, 1½" for data

### No leveling, gluing or aligning for an easy installation

- No wasted time leveling the box before the concrete is poured – simply cut the box at the appropriate height after the pour
- No gluing – stainless steel retention bars secure the mounting frame to the box
- Round design – no need to align the box with walls during installation

### Easy-to-use covers made of durable solid brass and aluminum

- Stands up to heavy carts, cleaning equipment, and general floor traffic
- Convenient slide latch provides tool-less access to devices
- Lid lies flat while in use to minimize obstructions above floor level

Stainless steel bars

Slide latch for tool-less access

Lid lies flat against the floor while in use

1" Hub for Power, 1½" Hub for Data

### Furniture-feed and cast iron options for a comprehensive floor box solution

- Dual-voltage furniture-feed covers transition power and communications wiring from the floor into modular furniture
- Cast iron box with a non-metallic collar for slab-on-grade or metallic conduit applications

## Round floor boxes for power and communications

### 68-HP Series

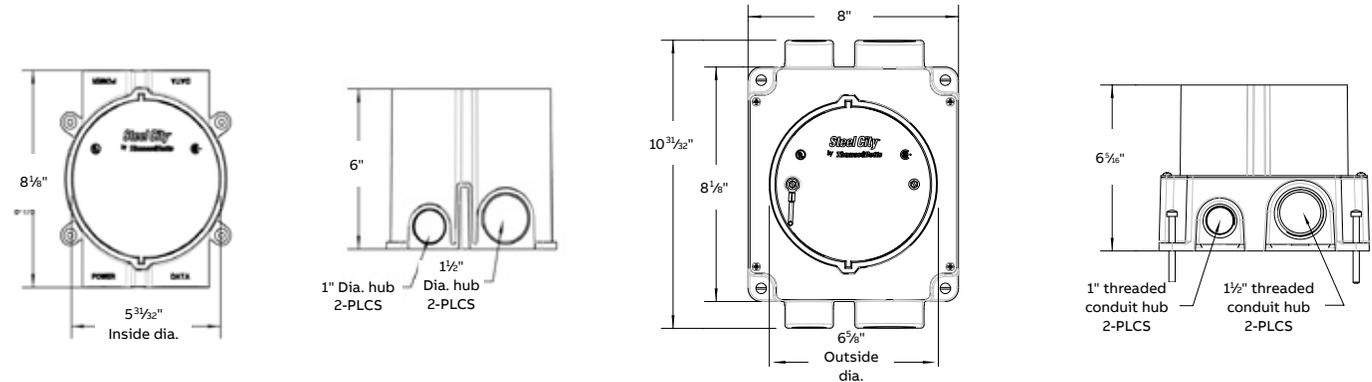

68-HP

68-HP-CI

These include two 1 1/2 to 1" reducing bushings. It also comes with two 1 to 3/4" reducing bushings

## Flush mounting kit and accessories

### 68-HP Series

#### Features and benefits:

- Flush mounting kit required in order to mount devices and covers to the 68-HP Series floor box
- Stainless steel barbs – no gluing required
- Includes (3) compartments for standard devices
- Voltage dividers allow any combination of power and communications devices
- Each compartment includes (1) knockout for power and (1) knockout for data for access to either power or communications wiring

#### Kit Includes:

- Mounting frame
- Voltage divider
- (3) Device plates
  - (1) Center plate: GFCI/rectangular
  - (2) side plates: Rectangular
- (3) Duplex inserts

CONCRETE APPLICATIONS

# Above grade floors recessed service

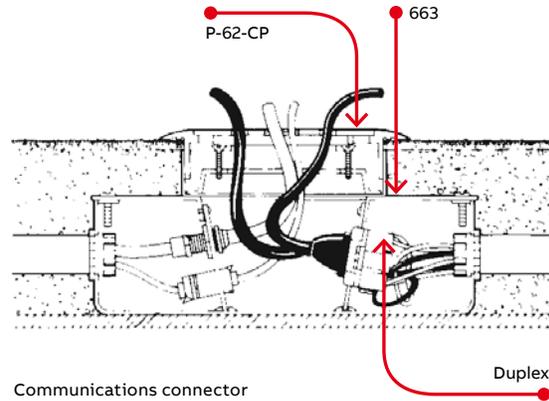

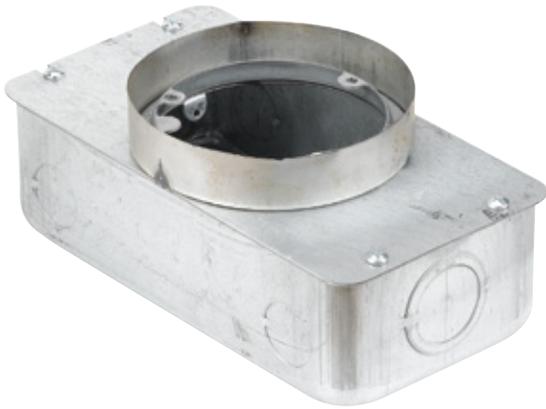

# Floor box

## 663-SC Series

**Features and benefits:**

- Multiple service floor box that delivers power, communications and data from standard conduit with no exposed service fittings
- Result: open office planning flexibility
- Ideal for workstations that require power, communications and data service
- Stamped steel, concrete-tight, semi-adjustable
- Galvanized body and hardware
- Shipped complete with expendable cap to prevent ingress of concrete
- Blank- and duplex-face plates can be mounted at either end of the box
- **Does not include duplex faceplate**
- Uses P-62 and P-60 Series covers\*

**Engineering data for 663 Series floor box**

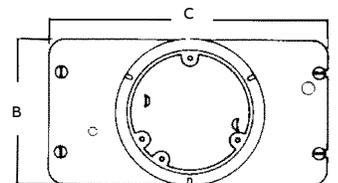

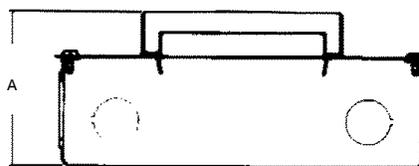

Cat. no.	Dimensions (In.)			Before Pour Adj.	After Pour Adj.	Maximum Capacity (cu. in.)	Conduit KOs

Cat. no.	Covers and carpet plates	Wiring device	Std. ctn.
663-SC	P-62 Series P-60* Series	Duplex and/or data/voice	4

\*P-62-TAR is required when using P-60 series covers.  
Caution: To abandon 663 you must use a P-60 series brass cover plate.

## Covers, carpet plates and adjusting rings

### 663 Series

#### P-60-3B

- Polished brass finish with non-metallic bronze insert
- Plastic insert has one 7/8" cutout and two 1/2" cutouts
- Furnished complete with sealing gasket, 8-32 x 1/2" brass screws and one P-60-Q device plate
- Split cover sections have access notch for screw-driver lift

#### P-62-CP

- High-strength polycarbonate
- Furnished with one 7/8" cutout and two 1/2" cutouts and P-60-Q device plate
- 5 5/8" outside diameter

#### P-62-TAR

- Gives 3/4" adjustment when mounted on 663 floor box
- Accepts P-60-3B, P-60-CP and all P-60 Series cover plates (see page 47)

#### P-60-CP

- Polished-brass finish
- P-62-TAR is required when used on 663 floor box
- 5 11/16" outside diameter

Cat. no.	Description	Std. ctn.
P-60-3B*	Brass cover plate — Includes 1 P60Q	4
P-62-CP-AS* <sup>2</sup>	Polycarbonate cover and carpet plate (charcoal) — Includes 1 P60Q	4
P-62-CP-BRN* <sup>2</sup>	Polycarbonate cover and carpet plate (brown) — Includes 1 P60Q	4
P-62-CP-G* <sup>2</sup>	Polycarbonate cover and carpet plate (gold) — Includes 1 P60Q	4

P-62-TAR	Flange and adjusting ring for 663 Box (brass)	4
P-62-TAR-AL	Flange and adjusting ring for 663 Box (aluminum)	4
P-60-Q	Duplex receptacle plate for 663 floor box	4
P-60-QB	Blank plate for 663 floor box	4
P-60-Q-GFCI	GFCI plate for 663 floor box	4

\* For use as cover only when box is in service.

<sup>2</sup> When not in use, the P-62-CP Series Cover should be replaced by P-60-CP, P-60 and P-62 TAR Series Covers.

Caution: These covers are not to be used in high traffic areas.  
For communications accessories, see page 129.

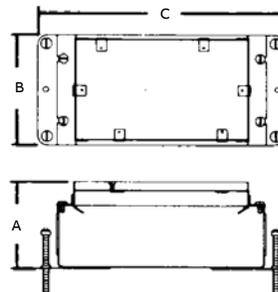

## Multiple-service floor boxes for power, communications and data:

### 664 Series

#### Features and benefits:

Multiple-service floor boxes deliver power, communications and data from standard conduit with no exposed service fittings. Result: Open office planning flexibility. Ideal for the modern office with workstations that have power, communications and data equipment. Power receptacles and low-voltage connections can be enclosed underfloor in either steel or cast-iron bodies. Galvanized 14-gauge steel boxes are provided with knockouts from  $\frac{3}{4}$ " to  $1\frac{1}{4}$ " (see engineering data). Cast-iron bodies have threaded openings for  $\frac{3}{4}$ " and 1" conduit.

- Two-compartment box is available in three configurations: stamped steel (664-SC), shallow (664-S) and cast iron (664-CI)
- Durable non-metallic covers include a steel reinforcement plate for added strength
- Metallic covers in solid brass, aluminum and aluminum black powder-coated provide aesthetics and durability
- Cover flange self-levels with the finished floor for easy installation

	Cat. no.	Description	Std. ctn.
	664-SC	Stamped-steel box which accepts two plates, with one duplex 664-RP provided	4
	664-S	Shallow stamped-steel box which accepts two plates, with one duplex 664-S-RP provided	4

Note: When ordering a 664 Series box, the cover must be ordered separately. See page 16.  
For communications accessories, see page 129.

#### Engineering data for 664 Series

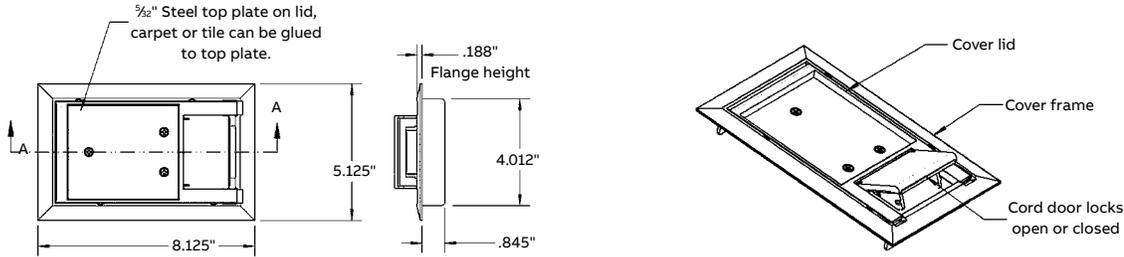

Cat. no.	Dimensions (in.)			Before Pour Adj. (in.)	After Pour Adj. (in.)	Maximum capacity (cu. in.)	Conduit Hubs	Conduit KOs		
	A	B	C					Sides	Bottom	Covers
664-SC	3 $\frac{3}{4}$	4 $\frac{1}{16}$	10 $\frac{1}{4}$	2 $\frac{1}{2}$	$\frac{3}{4}$	24 per gang, 90 total	—	(4) 1"–1 $\frac{1}{4}$ " (4) $\frac{3}{4}$ "	None	664-CST Series
664-S	2 $\frac{7}{8}$	4 $\frac{1}{16}$	10 $\frac{1}{4}$	1 $\frac{1}{2}$	$\frac{3}{4}$	16.5 per gang, 70 total	—	(6) $\frac{3}{4}$ "	None	664-CST Series

CAUTION: When using the center side KOs, Cat. no. 664-RP must be assembled to the box prior to installing the conduit.

## Non-metallic covers

### 664 Series

#### Covers for all boxes

664-CST-SW

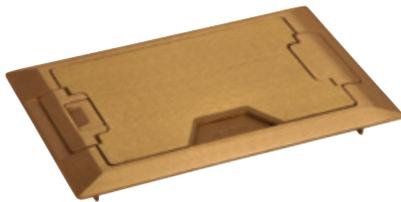

Cat. no.	Description	Load Rating (lbs.)	Std. ctn.

664-WT

664-S-WT

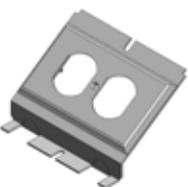

- Wire tunnel for protecting electrical connections between the two receptacles when the box is used for power/power application

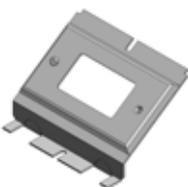

Cat. no.	Description	Std. ctn.
664-WT	For use with 664 and 664-CI floor boxes	4
664-S-WT	For use with 664-S floor box	4

## Device plates

### 664-SC & 664-CI Series

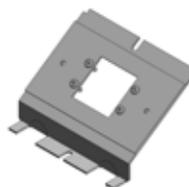

664-RP

664-GP

664-BP

664-2-MAAP

- Receptacle face plate for 664 Series floor box for additional power service
- Does not include receptacle. Can be placed at either end of floor box

Cat. no.	Description	Std. ctn.
664-RP	For use with 664 and 664-CI floor boxes	4
664-BP	Blank plate for use with 664 & 664-CI floor boxes	4
664-GP	GFCI receptacle plate	4
664-2-MAAP	Device panel, accepts 2 Extron MAAP plates	4

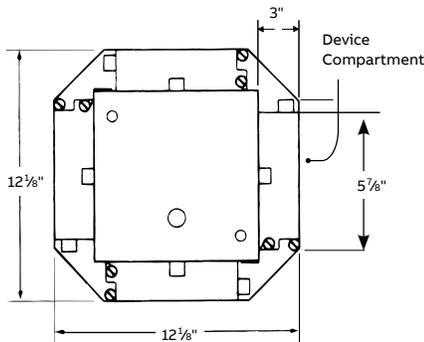

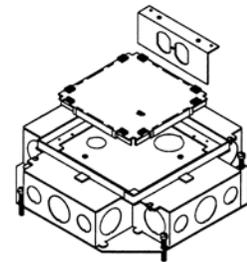

CAUTION: When using the center side KO's, all 664 plates must be assembled to the box prior to installing the conduit.

## Stamped steel above grade applications

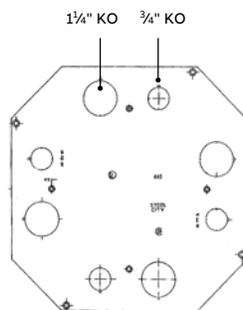

### 665-SC Series

**Features and benefits:**

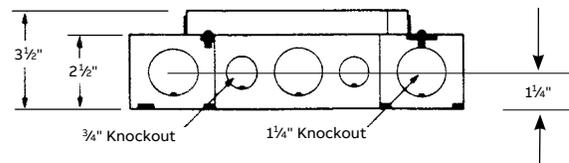

- Four (4) device compartments can accommodate any combination of devices.  
For example: (3) duplex power devices and (1) duplex telephone device, or (2) voice and data connectors and (1) GFCI device and (1) blank, etc.
- Overall height of 3½" allows for shallow pours when needed
- High-strength polycarbonate cover with a 5/32" steel plate assures structural integrity
- Metallic Covers also available in solid brass and aluminum and black
- Four-side feed-through allows installer to feed through power or data/comm service from any orientation
- Non-metallic wire tunnels aesthetically clean. Full-width tunnel provides maximum feed-through capacity; non-metallic material prevents conductor damage
- Total access area of 126 cu. in. allows for friendly installation of workstation cables
- Contains 28 knockouts (16–1¼" and 12¾" KOs) that provide increased flexibility when installed
- The 665 line is an extension of the 664 Series; our concealed service line now allows the customer to install up to four device panels in one box
- Through the use of a unique non-metallic wire tunnel, the installer can easily partition the power, voice/data requirements
- This UL/CSA Listed, stamped steel floor box can be installed with ABB voice and data connector products
- Four 2½" leveling screws provided with all boxes
- **Device plate and box cover must be ordered separately**

				Height	Area		
665-SC	Stamped steel box	5¾	2¾	2½	40 cu. in.	126 cu. in.	1

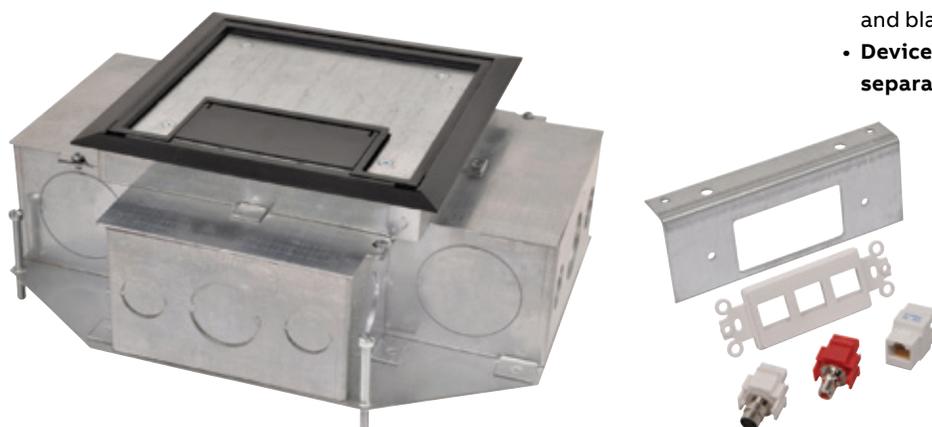

Material: Pre-galvanized steel.  
For communication accessories, see page 129.

## 2" KOs for audio visual applications

665 Series - 665-AV2

**Features and benefits:**

- 2" KOs enable pre-terminated AV cables and connectors to be pulled directly through the conduit
- Accepts standard 665 Series covers and device plates for power, voice, data and audio visual connections
- Rectangular adapters allow voice, data and AV connectors to be mounted in a standard GFCI device plate
- Keystone style voice, data and AV connectors meet a wide range of low-voltage applications.
- All connectors are recessed for flush mounting in floor box applications
- Device plates are available that accept Extron®
- MAAP plates to accommodate any AV requirements (Extron® MAAP plates purchased from an authorized Extron distributor)
- Metallic covers provide a durable, aesthetic installation, including solid brass covers, aluminum and black powder painted aluminum
- **Device plate and box cover must be ordered separately**

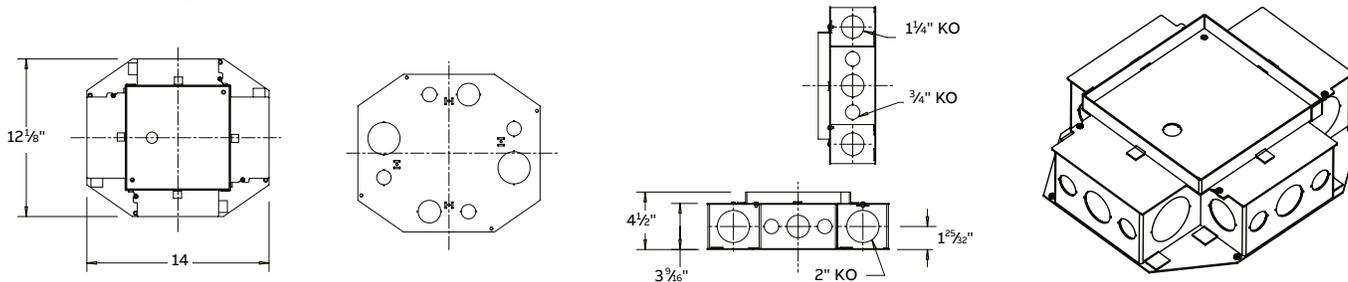

Rectangular adapters and Keystone Inserts for GFCI Device Plates (see page 130)

## Metallic covers

### 665 Series

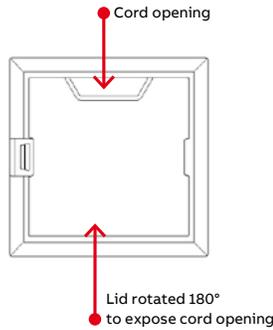

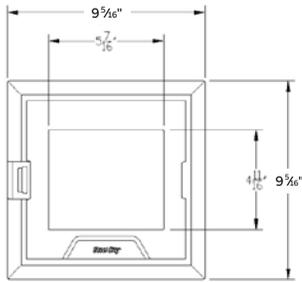

**665-CST-M-BRS**  
Solid brass

**665-CST-M-ALM**  
Solid aluminum

**665-CST-M-BLK**  
Solid aluminum, black powder coated

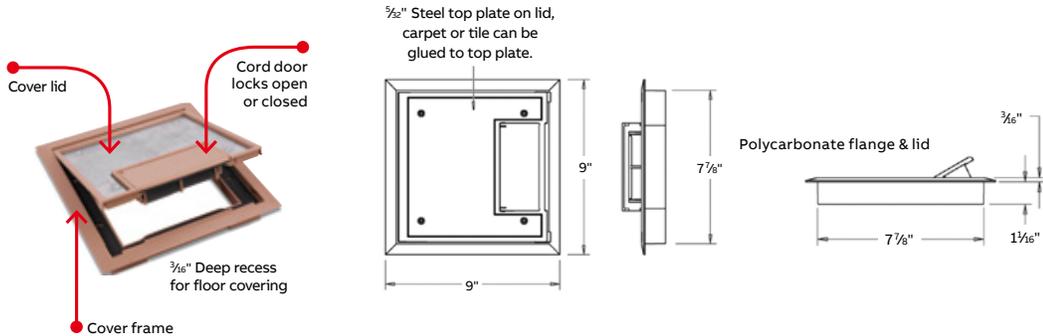

Cat. no.	Description	Load Rating (lbs.)	Std. ctn.
665-CST-M-BRS	Solid brass cover for 665 Series floor boxes	1,500	1
665-CST-M-ALM	Solid aluminum cover for 665 Series floor boxes	1,500	1
665-CST-M-BLK	Solid aluminum cover, black powder coated for 665 Series floor boxes	1,500	1

## Non-metallic covers

### 665 Series

**665-CST-SW-BLK**  
Black non-metallic cover

Cat. no.	Description	Load Rating (lbs.)	Std. ctn.
665-CST-SW-BLK	Non-metallic cover for 665 Series floor boxes, black	750	1
665-CST-SW-GRY	Non-metallic cover for 665 Series floor boxes, gray	750	1
665-CST-SW-BGE	Non-metallic cover for 665 Series floor boxes, beige	750	1
665-CST-SW-BRN	Non-metallic cover for 665 Series floor boxes, brown	750	1

Furnished with (4) #8-32 x 3/8" mounting screws.  
Contact ABB Technical Service for Color Chip samples.

## Device plates and accessories

### 665 Series

**665-RP**  
Duplex plate

**665-GP**  
GFCI plate

**665-BP**  
Blank plate

**665-6RJ**  
Data plate for 6 keystone jacks

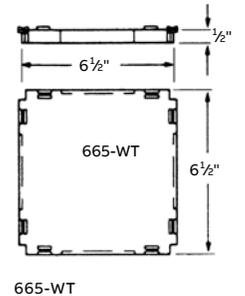

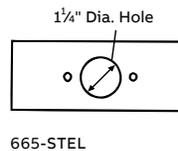

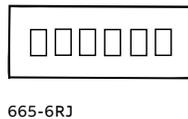

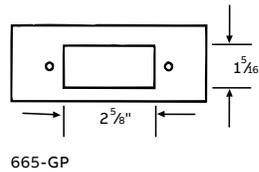

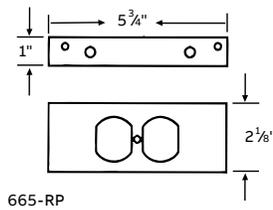

**665-WT**  
Wire tunnel feeds multiple compartments from a single conduit (one included with each 665-AV2 and 665-SC)

Cat. no.	Description	Std. ctn.
665-RP	Duplex plate for 665 Series floor boxes	4
665-GP	GFCI plate for 665 Series floor boxes	4
665-BP	Blank plate for 665 Series floor boxes	4
665-6RJ	Data plate for 665 Series floor boxes, accepts 6 keystone jacks	4
665-STEL	Telephone data plate for 665 Series floor boxes	4
665-WT	Replacement wire tunnel for 665-SC, 665-CI & 665-AV2 floor boxes	4

Each box requires (4) device plates. Material: Pre-galvanized steel.

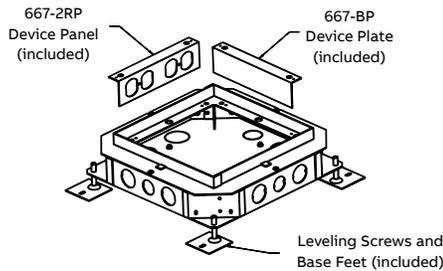

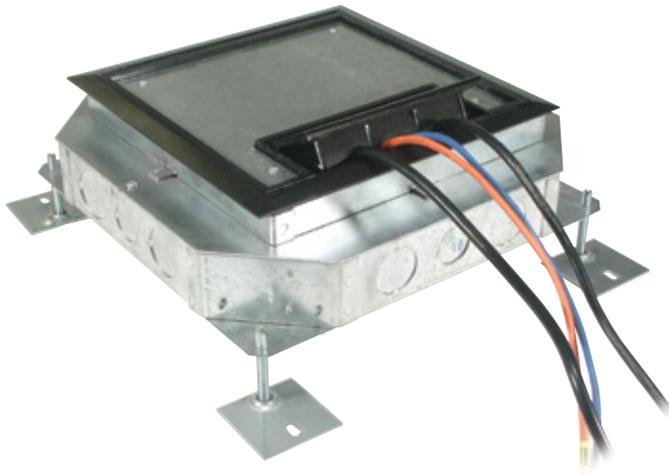

## Floor box

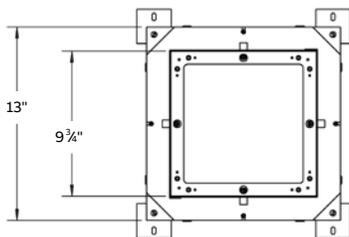

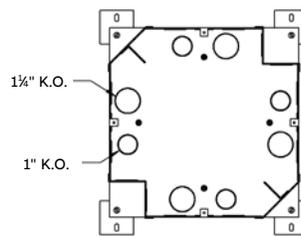

### 667-SC Series

**Features and benefits:**

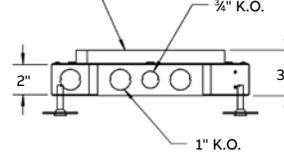

- Large capacity concealed-service floor box
  - Four “double-gangs” allow for two receptacles per gang, for a total of eight receptacles per box
  - Each gang has 40 cu. in. of capacity
  - Box interior has 128 cu. in. of capacity
- Standard box configuration is for up to eight power and/or low-voltage devices
  - Box design allows for feed-through cabling for power and low-voltage conductors
- Shallow design
  - 3" overall height is ideal for renovations and upper level floor installations
- Full line of low-profile covers
  - Utilizes same quality cover as AFM-8 Access Floor Module
  - High-strength polycarbonate
  - Steel reinforced for added durability
  - Two retractable cable exit ports
  - 64 sq. in. opening provides easy access to device panels
  - 1/4" recess for carpet/tile insert
  - Available in gray, black, brown and beige
- Box is manufactured with (1) 3/4", (3) 1" and (1) 1 1/4" KOs per gang
  - This includes a 1" and 1 1/4" KO located in the bottom
- Full complement of device panels
  - Device panels available with one or two duplex openings, one or two GFI openings, six standard “keystone” with Omni 110 bezels and blanks
- Provided with leveling legs and base feet
  - Base feet can be attached to form, preventing box movement during concrete pour
  - Leveling legs provide up to 1 1/2" pre-pour adjustment
- Manufactured from 14-gauge pre-galvanized steel
  - Quality construction provides added durability and rust protection
  - MopTite® covers meet UL/CSA scrubwater exclusion requirements for carpet, tile and wood

Floor Box Bottom

Floor Box Top

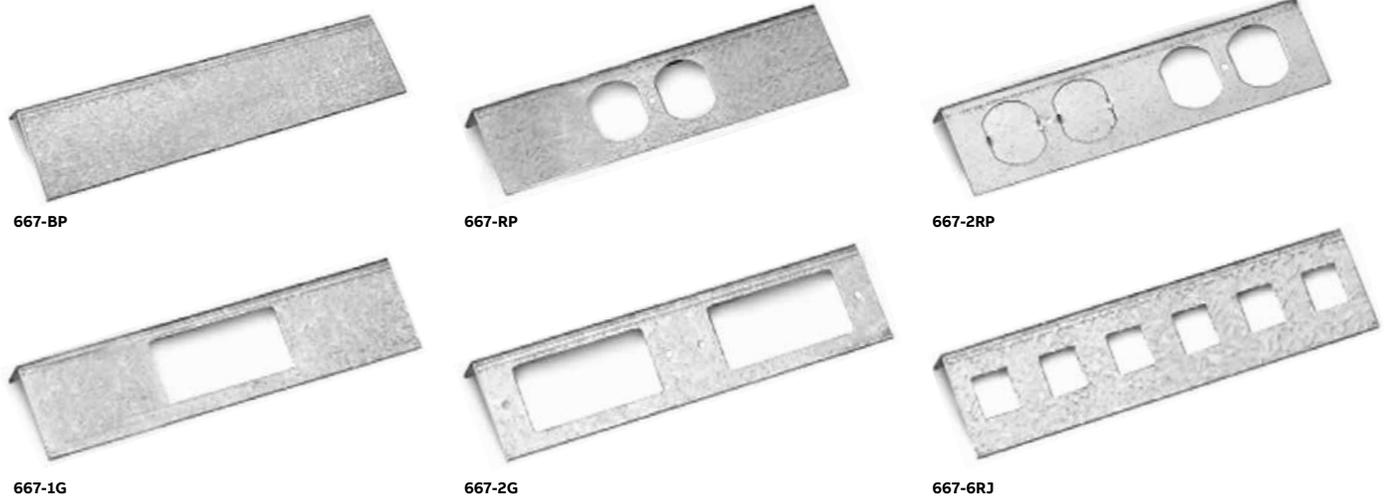

Cat. no.	Description	Std. ctn.
667-SC	Four-gang recessed floor box	1

Supplied with (1) 667-2RP for 2 duplex receptacles and (1) 667-BP blank plate. For covers and other device plates, see page 66. For communications accessories, see page 129.

## Covers and device plates

### 667-SC Series

For brass and aluminum covers, use 668 series

#### Device plates

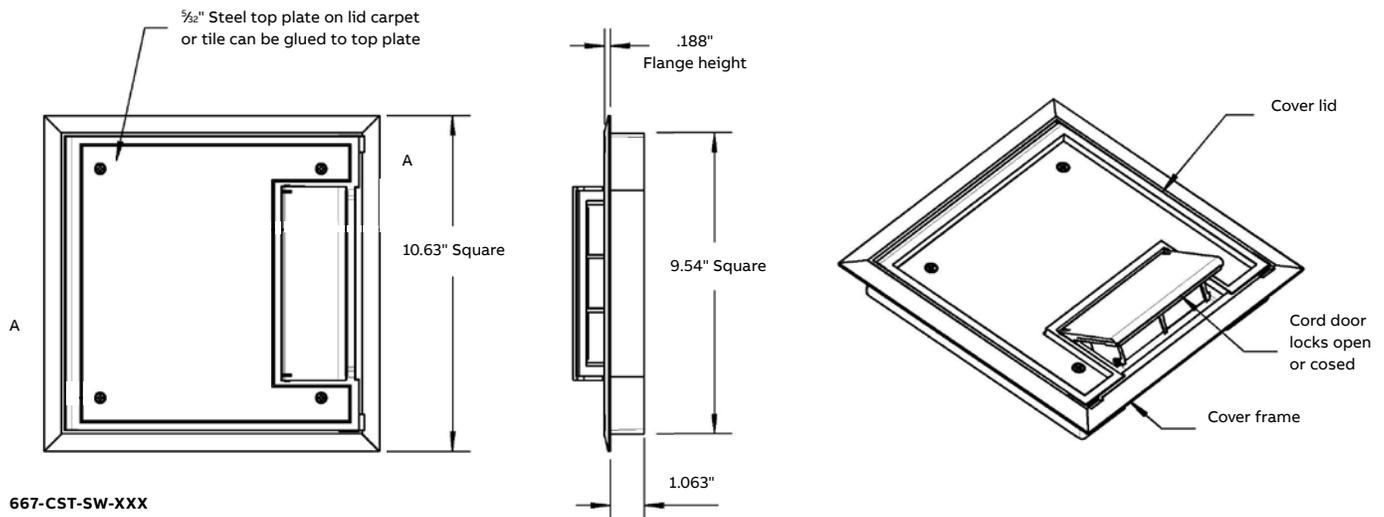

Cat. no.	Description	Std. ctn.

667-RP	Single duplex receptacle Plate	4
667-2RP	Device panel for 2 duplex receptacles with duplex KOs	4
667-1G	Device panel for 1 GFCI receptacle	4
667-2G	Device panel for 2 GFCI receptacles	4
667-6RJ*	Device panel for 6 Keystone data jacks	4

#### Covers

Cat. no.	Description	Std. ctn.
667-CST-SW-GRY	Cover and flange – gray	4
667-CST-SW-BLK	Cover and flange – black	4
667-CST-SW-BRN	Cover and flange – brown	4
667-CST-SW-BGE	Cover and flange – beige	4

\*For data connectors and adapters, see page 129.  
MopTite® Covers exceed UL/CSA scrubwater exclusion requirements.

667-CST-SW-XXX

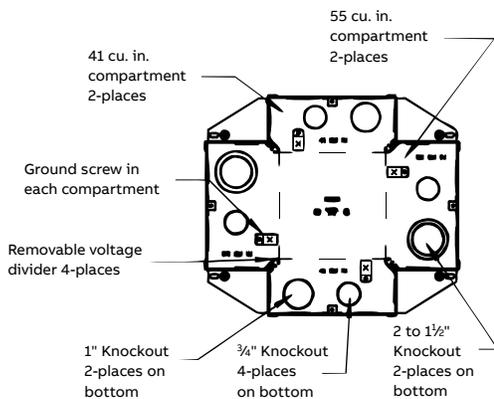

## Ultra-shallow box

### 668-S Series

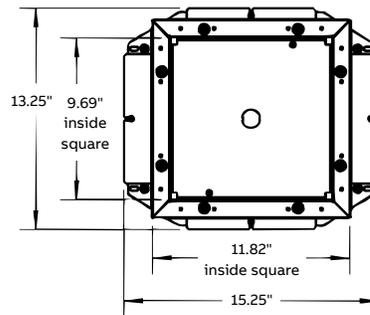

The 668-S ultra-shallow floor box from ABB provides a high-capacity power and data solution for shallow concrete floors. The low-profile 4-gang box is constructed of galvanized stamped steel. Removable voltage dividers enable users to customize wiring configurations by feeding two or more adjacent compartments with a single conduit. Metallic covers with durable powder-coat finish are designed to match any decor, while optional trim rings enable covers to be mounted completely flush with the floor in tile or wood floor applications.

#### Features and benefits:

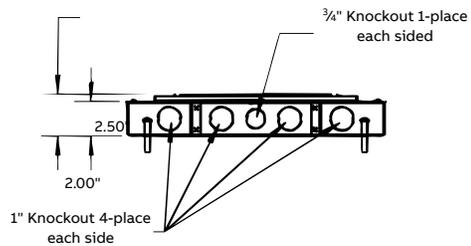

- Low profile (2½" height) for shallow concrete pours
- 4-gang, recessed service for a high-capacity, aesthetic floor box solution
- Stamped-steel box construction
- Removable voltage dividers between compartments enable a single conduit to feed two or more adjacent compartments
- Metallic covers feature durable powder-coat paint to match any decor (black, gray, brown and beige)
- Heavy-duty cord door in the cover latches firmly in the open position to prevent damage to cables
- Optional tile trim enables flush mounting for tile and wood floor applications
- MopTite® covers meet UL/CSA scrubwater exclusion requirements for carpet, tile and wood
- Largest cubic-inch capacity of any shallow, recessed 4-gang floor box
- Additional KOs (up to 2") on the bottom of the box enable installation flexibility
- Custom device panels are available – contact technical service about these offerings

68P-FL or 68P-FL-AL required to attach cover plates to 68-P floor box.  
MopTite® Covers exceed UL/CSA watertight requirements for 514A, 514C.

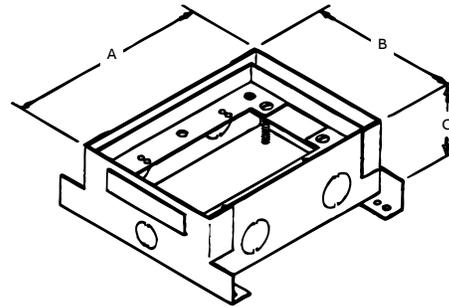

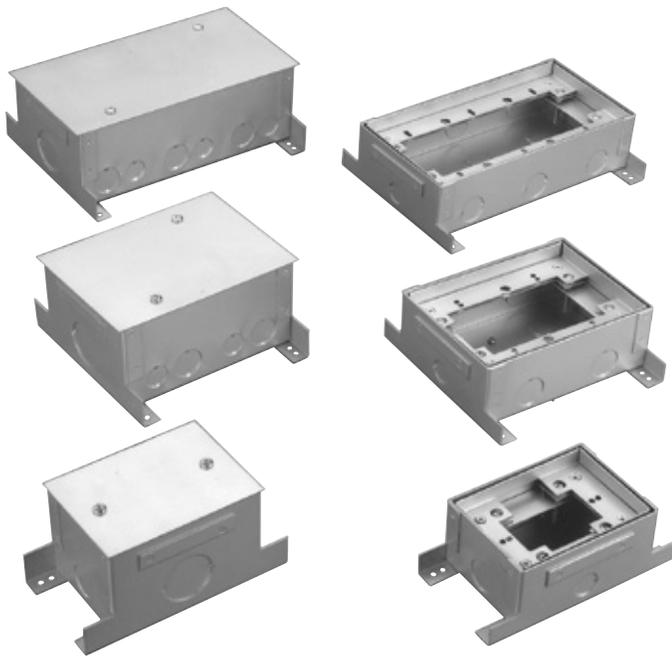

## Multiple-gang floor boxes for power and communications

### 740 Series

The 740 Series line of stamped-steel floor boxes are an extension of ABB's 640 and 840 series cast-iron floor boxes. The boxes provide flush service for power, communications and data. Multiple-gang boxes allow the user to place high- and low-voltage in a single floor box. The 740 series can be used for carpet or tile applications.

#### Features and benefits:

- Available in shallow ( $2\frac{5}{8}$ "") and deep ( $3\frac{5}{8}$ "") versions
- Available in one-, two- and three-gang versions
- **Two- and three-gang boxes are supplied with customer-installed dividers**
- 16 ga. pre-galvanized steel construction
- Adjustable with four exterior leveling legs capable of 2" pre-pour adjustment and an interior leveling ring capable of  $1\frac{1}{4}$ " after-pour adjustment
- Made with a variety of KOs ranging from  $\frac{1}{2}$ " to  $1\frac{1}{4}$ "
- Boxes utilize the 640P series metallic and non-metallic floor box accessories with the unique one-step installation method
- Shipped with expendable steel cap to prevent ingress of concrete at installation

Cat. no.	Description	Std. ctn.
741-S	Shallow one-gang steel floor box for concrete construction	4

## Floor boxes for single short-strap receptacles or communications

### 88 Series

#### Service fitting application

88 Series Floor Boxes provide flush service for power or communications and data. They can be used for either carpet or tile applications.

88 Series

#### 88 Series – features and benefits

- Stamped steel, concrete-tight, semi-adjustable
- Electro-galvanized body and hardware
- Exterior leveling screws and threaded vertical adjusting ring permit adjustment to meet finished floor
- Shipped complete with expandable cap to prevent ingress of concrete during pour
- ½" and ¾" knockouts – all bottom knockouts accessible
- Uses P90 Series MopTite® covers

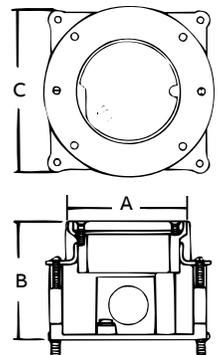

Cat. no.	Description	Std. ctn.
88-S	Shallow version stamped steel	4

CONCRETE APPLICATIONS

# Fire rated poke-through

# Fire-Rated poke-through systems

Capacity, durability, flexibility – everything you’ve been looking for in a Poke-through

**FPT3 Series**

- Accommodates 1 duplex receptacle and 2 data jacks

**FFPT3 Series**

- Concentric 2" and 1 1/4" hub for power or communications
- Core drill size: 3"

**FPT Flush Series**

- Accepts 1 duplex receptacle
- Core drill size: 3"

**FPT furniture feed Series**

- 3 conduit hubs: (2) 1/2" and (1) 3/4" for power and communications
- Core drill size: 3"

**Flush power & communications**

**FPT4 Series**

- Maximum capacity and flexibility for flush-mounted power and communications devices, including the popular "4 x 4" configuration (4 power outlets, 4 communications devices)
- Core drill size: 4"

**Furniture feed**

**FFPT4 Series**

- 2 Conduit hubs: 3/4" for power and 1 1/4" for communications
- Core drill size: 4"

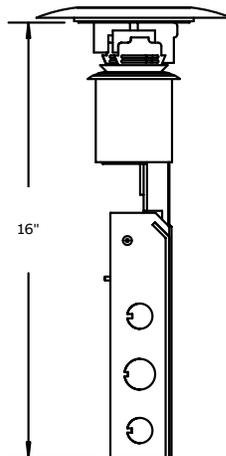

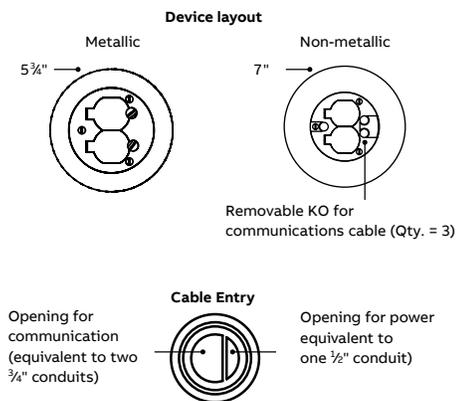

**Above floor pedestals**

**FPT Above-floor pedestals**

- Available in 2 compartment and 4 compartment for power and communications
- Core drill size: 3"

## FPT Flush Series

The Steel City® FPT Poke-through Series provides an economical solution for installing a duplex receptacle in an existing floor – right where you need it.

### Features and benefits:

- Capacity: 1 duplex receptacle
- Core drill size: 3"
- Brushed brass and aluminum covers provide superior aesthetics and durability
- Non-metallic covers are available in black, gray, beige and brown
- Non-metallic covers include openings for 3 communications cables
- Integral junction box features (5) 1/2" and (5) 3/4" knockouts (27 cubic inch capacity)
- Assembled units include (1) 20A duplex receptacle, pre-wired with pigtail ends in junction box
- **For use on carpet floors only**

### Poke-through: 2 power

Cat. no.	Description	Std. ctn.
FPT-449	FPT Flush Poke-through assembly: base unit with solid-brass cover	1
FPT-450	FPT Flush Poke-through assembly: base unit with solid-aluminum cover	1
FPT-445-SW-BLK	FPT Flush Poke-through assembly: base unit with black non-metallic cover	1
FPT-445-SW-GRY	FPT Flush Poke-through assembly: base unit with gray non-metallic cover	1
FPT-445-SW-BRN	FPT Flush Poke-through assembly: base unit with brown non-metallic cover	1
FPT-445-SW-BRS	FPT Flush Poke-through assembly: base unit with non-metallic brass cover	1
FPT-400B	FPT Poke-through base unit only (no duplex): cover purchased separately	1

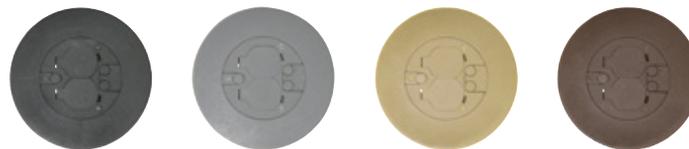

- Non-metallic covers feature 3 openings for communications cables

### Brushed metal finishes

FPT-CACP      FPT-CACP-AL

### Non-metallic colors and finishes

FPT-441-SW-BLK      FPT-441-SW-GRY      FPT-441-SW-BRS      FPT-441-SW-BRN

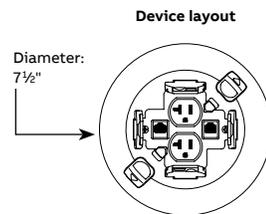

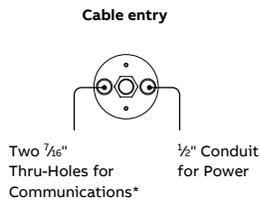

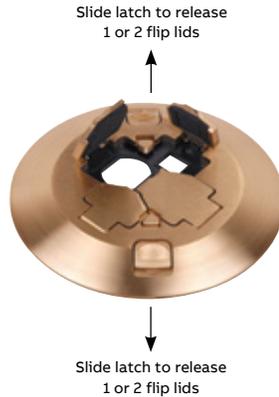

### Poke-through covers

Cat. no.	Description	Std. ctn.

FPT-CACP-AL	Solid aluminum, brushed finish, 5 3/4" diameter	10
FPT-441-SW-BLK	Black, non-metallic, 7" diameter	10
FPT-441-SW-GRY	Gray, non-metallic, 7" diameter	10
FPT-441-SW-BRS	Brass, non-metallic, 7" diameter	10
FPT-441-SW-BRN	Brown, non-metallic, 7" diameter	10

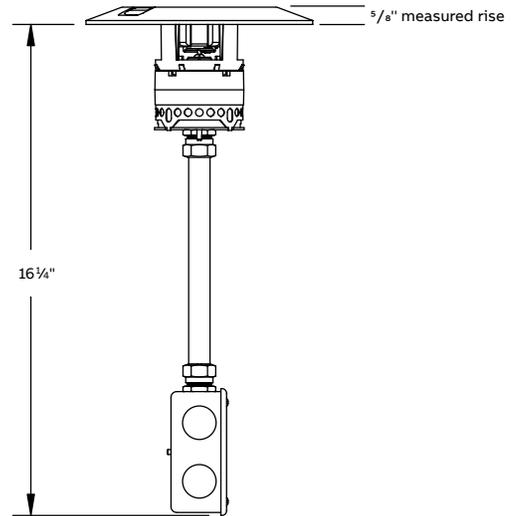

# FPT3 Series

This aesthetic, easy-to-use Poke-through provides an ideal power and data solution – great for new construction or upgrading existing 3" core installations.

### Features and benefits:

- Capacity: 1 duplex receptacle and 2 data jacks (included)
- Core drill size: 3"
- Durable solid brass or aluminum covers protect devices from damage and debris when not in use – no exposed plastic components
- Powder-coated aluminum covers are available in black, gray, brown and beige to match any décor
- Brushed brass and aluminum finishes provide superior aesthetics
- Slide latches enable tool-less access to individual receptacles – eliminates the need for hard-to-use locking screws
- Accepts Keystone, Leviton® or Hubbell® data jacks
- Junction box features (3) 1/2" and (4) 3/4" knockouts (13 cubic inch capacity)
- Includes (1) 20A duplex receptacle, pre-wired, pigtail ends in junction box
- Includes (2) Leviton® CAT5e data jacks

### Poke-through: 2 power and 2 communications

Cat. no.	Description	Std. ctn.

FPT3-2P-2C	FPT3 Series Poke-through base unit only: cover purchased separately (see below)	1

See page 82 to view typical brushed metal and powder coat finishes.

### Poke-through covers

Cat. no.	Description	Std. ctn.
FPT3-CVR-BRS	Cover, FPT3 Series Poke-through – solid brass, brushed finish	4
FPT3-CVR-ALM	Cover, FPT3 Series Poke-through – solid aluminum, brushed finish	4
FPT3-CVR-BLK	Cover, FPT3 Series Poke-through – aluminum with black powder-coat finish	4
FPT3-CVR-GRY	Cover, FPT3 Series Poke-through – aluminum with gray powder-coat finish	4
FPT3-CVR-BGE	Cover, FPT3 Series Poke-through – aluminum with beige powder-coat finish	4
FPT3-CVR-BRN	Cover, FPT3 Series Poke-through – aluminum with brown powder-coat finish	4

## FPT4 Series

The FPT4 Series provides everything you look for in a flush Poke-through – capacity, durability, flexibility, accessibility and aesthetics.

### Capacity:

- Four standard configurations:
  - 4 power receptacles + 4 communications devices (4 x 4)
  - 2 power receptacles + 6 communications devices
  - 8 communications devices
  - 1 locking receptacle + 2 communications devices
- Core drill size: 4"

### Durability:

- Solid brass or aluminum covers protect devices from damage and debris when not in use – no exposed plastic components
- Unique latching lid eliminates easily damaged, hard-to-use locking screws

### Accessibility:

- Full access to communications compartment through the cover without exposing power compartments – even after it's installed in the floor
- "Straight-through" wiring of communications cabling for easy installation and changes

### Flexibility:

- Configurable design to meet any project requirements:
  - 4 standard configurations for power and communications devices
  - 20A receptacles can be wired as isolated ground (orange labels provided)
  - Communications plates available to accommodate data jacks from many manufacturers
  - Accepts Extron MAAP plates for A/V components
- Threaded conduit hubs enable all communications cabling to be enclosed in a single conduit
  - Integral 1" hub on the 4 x 4 – no extra parts needed
  - Optional hubs available for other configurations
- Junction box features (5) 1/2" and (5) 3/4" knockouts (27 cubic inch capacity)

### Aesthetics:

- The only 4" core Poke-through for power and communications with the entire cover made of solid brass – features an aesthetic brushed finish
- Solid aluminum covers also available with brushed finish or powder-coated finishes in black, gray, brown and beige to match any décor

\* Keystone plates also accept Leviton<sup>®</sup> and Hubbell<sup>®</sup> devices.  
 \*\* Requires CMNZABL-X adapter from Panduit<sup>®</sup> to mount Panduit<sup>®</sup> MiniCom jacks.  
 \*\*\* For use with FPT4-2P-6C and FPT4-8C Series only; replaces one compartment A plate and one compartment B plate.

**Features and benefits:**

- For use with FPT4-4P-4C and FPT4-2P-6C Series Poke-through Systems

Replacement power insert – 2 receptacles

Cat. no.	Description	Std. ctn.
FPT4-2P-RPL	Replacement power insert with 18" wire whip – two 20A receptacles	4

## Recessed Poke-through boxes

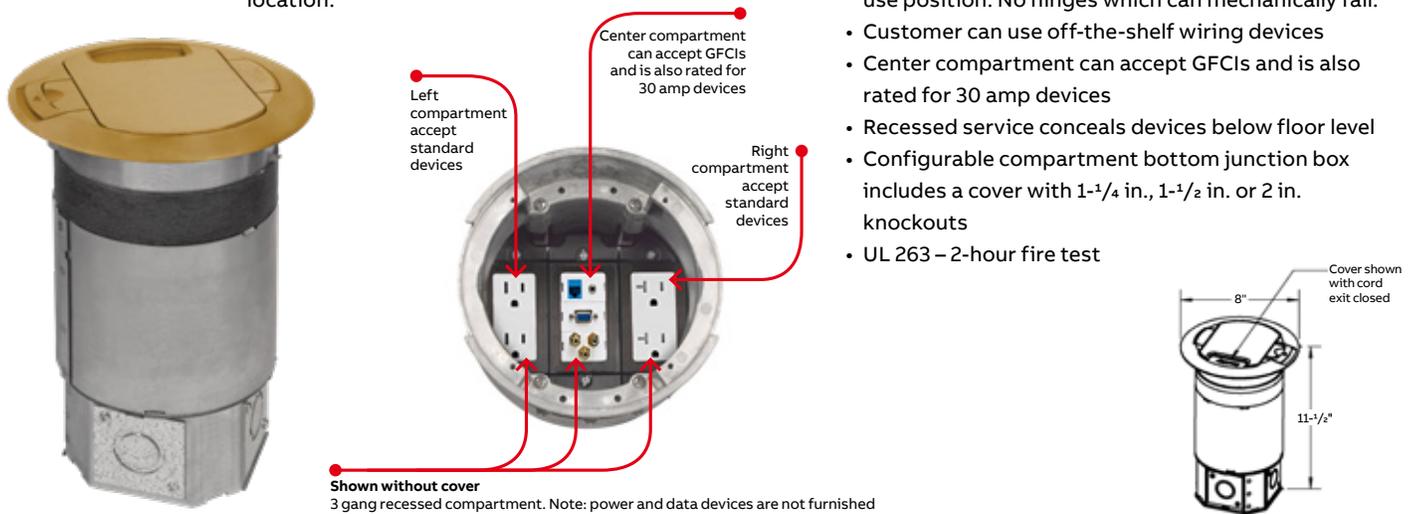

### RPT6 Series

Given the limitations on the number of holes that can be drilled in a floor, it is important to maximize the capacity of each location.

The RPT6 series offers a configurable solution that provides high capacity for both power wiring and communications cabling in a single-core drill location.

#### Features and benefits:

- Greater capacity than typical 3 in. and 4 in. core poke-throughs
- Core drill size: 6 in.
- Solid brass, black and brushed aluminum finishes provide superior aesthetics and durability
- Toolless cover entry. Cover rotates 180° to while-in-use position. No hinges which can mechanically fail.
- Customer can use off-the-shelf wiring devices
- Center compartment can accept GFCIs and is also rated for 30 amp devices
- Recessed service conceals devices below floor level
- Configurable compartment bottom junction box includes a cover with 1-1/4 in., 1-1/2 in. or 2 in. knockouts
- UL 263 – 2-hour fire test

#### RPT6 Series – Recessed Poke-through

Cat. no.	Description	Std. ctn.
RPT6-3G-BRS	RPT6 series Poke-through Assembly: Base unit with solid brass cover	1
RPT6-3G-BLK	RPT6 series Poke-through Assembly: Base unit with black powder-coat cover	1

\* CSA and UL not applicable

## Recessed Poke-through boxes

### RPT8 Series

5-gang Poke-through designed to fit in 8" holes in the second floor and above in commercial buildings.

The RPT8 Series offers a configurable solution that provides high capacity for both power wiring and communications cabling – in a single-core drill location.

#### Features and benefits:

- Floor box, cover, abandonment cover, kit for device adapters, and supplemental junction box
- Core drill size: 8"
- Greater capacity than typical 3", 4" and 6" core poke-throughs adapter included with every unit
- 20, 30, & 50 amp rated center compartment Solid brass, black, brushed aluminum and NEW satin nickel finishes provide superior aesthetics and durability
- Temporary abandonment cover included
- Customer can use off-the-shelf wiring devices
- Recessed service conceals devices below floor level
- Bottom compartment can be configured for separate emergency power
- Configurable compartment bottom junction box includes a cover with 1-1/4", 1-1/2", or 2 in. knockouts
- UL 263–2-hour Fire Test and UL 514A /CSA C22.2 No. 18.1 Scrub Water compliant

#### RPT8 Series – Recessed Poke-through

RPT8-SDP-MAAP	Side device plate for Extron® MAAP	5
RPT8-INSERT-WHITE	White duplex insert	5
RPT8-INSERT-BLANK	Blank insert	5

**Pedestal**  
FPT Series

By mounting all outlets above floor level and at a 90° angle to the floor, the FPT Pedestal Series protects power receptacles and communications devices from dirt and debris. An overhanging housing provides additional protection for the outlets.

**Features and benefits:**

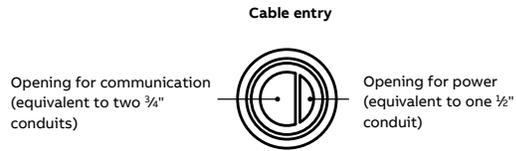

- Pedestals available in 2 compartment and 4 compartment for power and communications applications
- Core drill size: 3"
- Housings and device plates feature a brushed-aluminum finish
- Integral junction box features (5) 1/2" and (5) 3/4" knockouts (27 cubic inch capacity)

CONCRETE APPLICATIONS

# Fire rated poke-through furniture feed

## Furniture feed

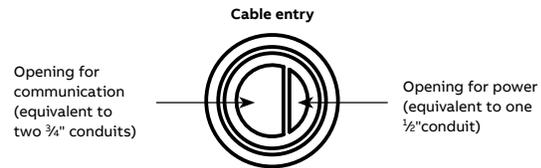

### FPT Series

With three conduit hubs for power and communications and an integral junction box, the FPT Series provides a flexible, cost-effective furniture feed solution.

#### Features and benefits:

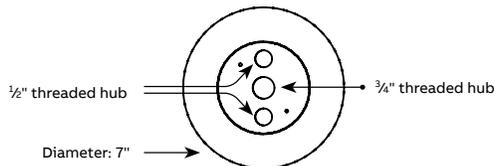

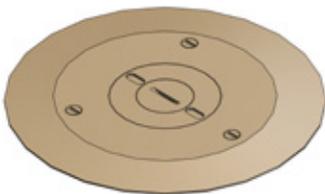

- Capacity: (2) 1/2" hubs and (1) 3/4" hub for power and data (plugs included)
- Core drill size: 3"
- Non-metallic covers are available in black, gray, beige and brown
- Provided with Steel City® die cast fittings for flexible metal conduit: (2) 1/2" and (1) 3/4"
- Integral junction box features (5) 1/2" and (5) 3/4" knockouts (27 cubic inch capacity)

#### Poke-through

Cat. no.	Description	Std. ctn.

See page 82 to view typical non-metallic cover colors and finishes.

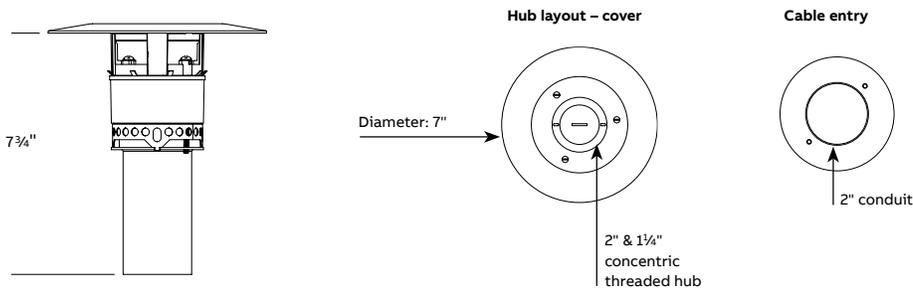

**FFPT3**  
Series

When feeding large bundles of communications cables through a fire-rated floor, the FFPT3 Series provides a high-capacity, straight-through wiring solution. It can also be used for power wiring.

**Features and benefits:**

- Capacity: Concentric 1 1/4" and 2" hub for power or communications wiring (plugs included)
- Core drill size: 3"
- Solid brass and aluminum finishes provide superior aesthetics and durability
- Powder-coated aluminum covers are available in black, gray, brown and beige to match any décor – the most colors in the industry
- Junction box not included

See page 82 to view typical brushed metal and powder coat colors and finishes.

**FFPT6**  
Series

Given the limitations on the number of holes that can be drilled in a floor, it is important to maximize the capacity of each location.

The FFPT6 series provides high capacity for both power wiring and communications cabling when feeding modular furniture in a single-core drill location.

**Features and benefits:**

- Power and/or communication connections: 3/4 in., 1-1/4 in. or 2 in. threaded hubs
- Core drill size: 6 in.
- Solid brass, black and brushed aluminum cover finishes provide superior aesthetics and durability
- Integral junction box features five 1/2 in and five 3/4 in. knockouts, with 27 in.<sup>3</sup> capacity (443 cm<sup>3</sup>)
- UL 263 – 2-hour fire test

**FFPT6 Series – Furniture Feed Poke-through**

# Access floor modules

Steel City® access floor modules from ABB eliminate the clutter of power, voice and data lines by keeping everything out of sight but conveniently close at hand. Our easy-to-install access floor modules are designed to blend with any decor, while providing the durability and versatility you need to meet the growing demands of today's high-tech offices.

You can use our access floor modules with virtually any type of raised floor. Our system is designed to provide a simple, strong and adaptable solution to even the most demanding wire-management needs.

### **Range of box sizes designed to meet the needs of any application. Now and later.**

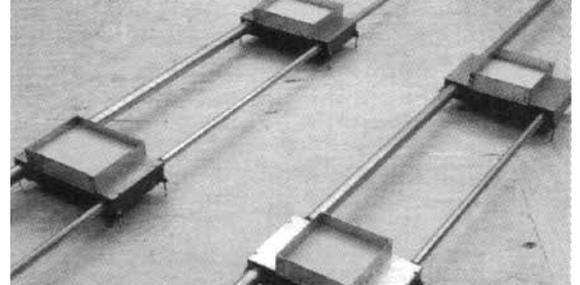

With five sizes to choose from, our access floor modules handle a broad range of wiring needs, from single power lines to complex data and voice systems. In fact, our largest unit offers 325 cu. in. of space. And, because our modules are easy to install and relocate, you can easily change box sizes or reposition modules as office configurations change.

### **New, low-profile box fits right in with shallower raised floors.**

For installations where shallower raised floors are needed, ABB has developed a low-profile access floor modules to provide the same accessibility and convenience where space is at a premium. Just 2½-inches deep, it can still accommodate a variety of power, voice and data connections.

### **Wide variety of interchangeable power and data panels adapt to changing demands.**

Our extensive line of panels and connection devices maximizes the versatility of our access floor modules. All our panels are designed to be easy to connect, disconnect and rearrange to reduce on-site installation time. And ABB is continually developing new configurations to meet the requirements of virtually any installation, especially for the fast-growing needs of voice and data communication.

### **Durable, solid steel covers support heavy loads to protect important connections.**

We've reinforced the resilient nylon covers of our modules with a ½" steel plate to prevent buckling under heavy furniture and equipment. The beveled sides enable quick and unobstructed installation in the raised floor.

In addition, our retractable exit not only helps prevent tripping, but protects cable connections by sealing out dust and debris. And, as with all ABB products, our access floor modules are constructed to meet your high standards for durability, safety and reliability.

### **Steel City® access floor modules provide outstanding performance without standing out.**

The hinged service top on our modules sits flush with the floor and provides complete access to the connections within. The nylon frame comes in gray, brown, beige and black.

Our access floor modules keep wire connections close at hand but not under foot. The wide variety of box sizes, panels and devices provides exceptional versatility for changing office needs.

Look below the surface and see how Steel City® Access floor modules can manage all your power, voice and data connections – today and tomorrow.

Wood floor applications  
recessed service

# Recessed service box

## 68R Series

—  
01 Use an appropriate Steel City® 3" x 2" metal switch box with mounting ears (purchased separately).

—  
02 Wood sub-floor/raised floor applications

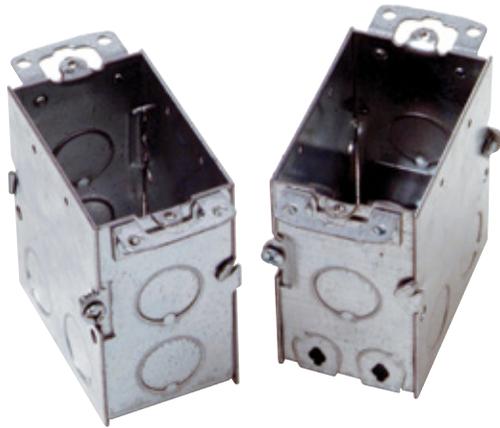

—  
03 Lid closes flush with the floor, even with cords plugged in

—  
04 Power and communications wood sub-floor/raised floor applications

Plug in power and communication cords, and then close the lid to hide unsightly plugs and receptacles below the floor.

### Features and benefits:

- Unique cover provides aesthetic recessed service with cost-effective box options for concrete, wood sub-floor and raised-floor applications
- Lid can be rotated to expose a small opening for cords, enabling the lid to close flush with the floor while in use
- Cover accepts one duplex or GFCI receptacle – no special device plates required (receptacle purchased separately)
- Cover accepts up to two communications jacks – includes one 2-port keystone data plate and one blank data plate for custom cut-outs or power-only applications (communications jacks purchased separately)
- Non-metallic covers are available in black, gray, beige and brown. Black covers are available with an optional brass or aluminum flange
- Two set screws lock the cover in place – no gluing required

# Rectangular floor box

## 1-, 2- and 3-gang

Carlton® rectangular floor box systems – three-way power, data and communications plus easy double- or triple-gang, too.

Compared to metal boxes, Carlton® rectangular floor boxes cost less and install faster to save you money on every job. Three-in-one power, data and communications capability cuts installation time and cost even more, while simple two- and three-gang modularity gives you the flexibility, installation ease and cost-savings no other non-metallic boxes can match. The covers attach without the use of fasteners, providing a professional, clean installation as well as preserving the aesthetic life of the product. Take a closer look at all that our rectangular floor box systems offer you.

### Features and benefits:

- Covers require no adjusting collar – two screws ensure a flush, secure installation
- Non-metallic PVC construction, watertight gasket and corrosion-resistant hardware ensure long life and reliable performance, even in harsh and/or corrosive environments
- One consistent box depth simplifies ordering time and reduces inventory
- Saves time and money on installations with simple saw cut to floor level
- Concrete tight and suitable for any on-grade/below-grade application; concrete or wood subfloor construction approved
- Convenient cubic inch capacity markings on inside enable easy inspection
- PVC-molded ports and reducer plugs included
- Accepts ½", ¾" and 1" conduit, tubing or raceway
- Rectangular sides are drillable
- Suitable for tile and carpet applications
- Cover options include solid brass, stainless steel and non-metallic (brown, slate and caramel)
- UL/CSA scrubwater tested, approved for all types of finish flooring

## Gangable rectangular Floor box

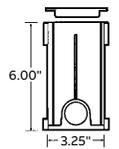

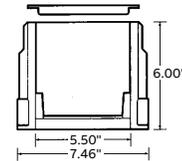

**Features and benefits:**

With our rectangular boxes, one SKU is all you ever need. Simply remove appropriate sides and slide boxes together to create two- or three-gang boxes for unique on-the-job flexibility

**For wood floor applications, box must be supported from below.**

Cat. no.	Material	Size	Internal volume (cu. in.)	Min. concrete depth	Hubs (In.)	Reducer plugs (In.)	Std. ctn.	Std. Wt. (lbs.)
E976RFB	PVC	1-Gang	97.4 (16.8 per inch of depth)	3½	(2) 1	(2) 1 x ¾ (2) ¾ x ½	3	6.92

## Activation

Kit

Activation kit provides components to accommodate all standard power, data and communications devices, plus a divider to separate power from data and communications – all in a single SKU. Device yokes can be adjusted to store excess cord in the box.

One kit per gang.

Cat. no.	Material	Std. ctn.	Std. Wt. (lbs.)
E976AK2	PVC	3	2.47

## 1-, 2- and 3-gang non-metallic

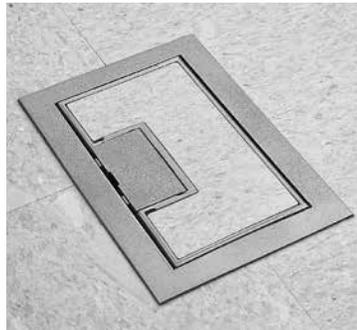

### Floor box covers

On-the-job flexibility extends to our rectangular box covers. Each one-, two- or three-gang cover is suitable for any wiring application and can be used with any floor surface. Non-metallic covers are even field-reversible for tile or carpet. Double-door feature enables easy access to the device and helps keep stray cords organized.

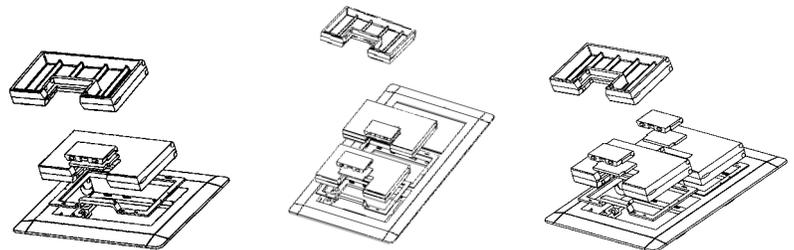

Carlon® Rectangular Floor Box Covers do not require a separate carpet flange. The carpet flange is part of the cover and may be removed for tile application.

#### Features and benefits:

- High-impact resistant thermoplastic
- Field reversible for tile or carpet
- Gasketed for a watertight seal
- Double-door design
- For tile and carpet applications
- UL/CSA scrubwater tested

Cat. no.	Size	Color	Carpet flange	Dimensions (w x L) (In.)	Std. ctn.	Std. Wt. (lbs.)

## Solid brass and stainless steel floor box covers

1-, 2- and 3-gang

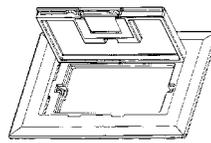

Carlton® brass and stainless steel rectangular floor box covers add a classic touch to all floor box installations, and are particularly suited for use in high-traffic areas because of the resistance to wear. The gasket gives a watertight seal, and the light lacquer finish provides extra protection.

### Features and benefits:

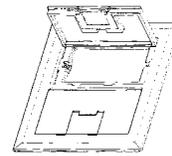

- Rugged construction
- Coated with a light lacquer finish for extra protection
- Covers include a cord door
- Gasketed for watertight applications
- Accepts single, duplex, GFCI and low-voltage receptacles
- For tile and carpet applications
- UL/CSA scrubwater tested

# Adjust-A-Box® adjustable residential floor boxes

## 1- and 2-gang

Carlton® Adjust-A-Box® Floor Boxes make installing floor outlets fast and easy by providing maximum installation flexibility. The box features an adjustment screw designed to adjust the box from 0" to 1¾" by simply turning the screw clockwise or counterclockwise, providing a flushmount every time.

Covers are available in three types: non-metallic, brass and stainless steel. They feature two hinged doors to protect unused devices and to keep out dust and scrubwater. Because the doors are attached, they won't get lost or misplaced while the outlet is in use.

The Adjust-A-Box® is available in two sizes, single-gang and double-gang. The single-gang box has a 20 cubic inch capacity and includes a duplex receptacle, and the double-gang box has a 34 cubic inch capacity, and comes with a divider for dual-voltage capabilities.

Carlton® Adjust-A-Box® residential floor boxes are ideal for residential and home office applications and provide a clean, aesthetically pleasing floor outlet anywhere you need it.

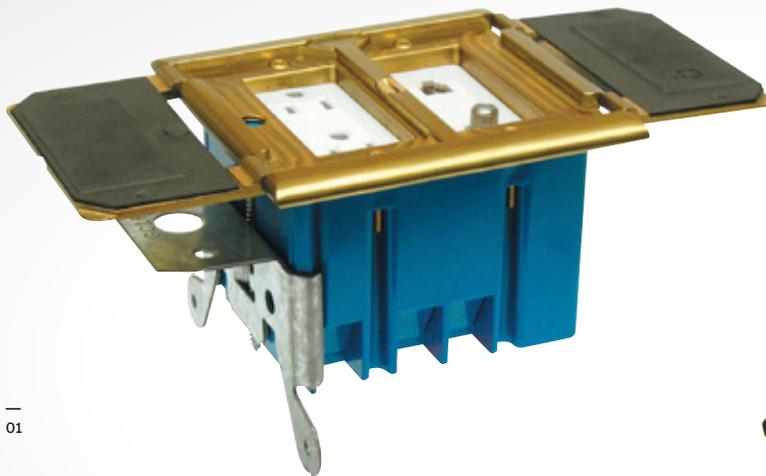

### Features and benefits:

- Listed floor boxes in accordance to section 314.27(B) of the NEC®
- Adjustment screw adjusts depth (from 0" to 1¾")
- Cover options include: non-metallic, brass and stainless-steel covers
- Covers have two (non-removable) hinged doors
- Solid brushed-brass and stainless-steel covers with a light lacquer finish for extra protection
- Non-metallic covers are available in white and ivory (single-gang box only)
- Two-gang version features dual-service capabilities (requires use of dual-service divider)
- Integral cable clamps
- Ideal for new work and retrofit applications
- UL® Listed
- UL/CSA scrubwater tested
- Single-gang only has a 2-hour fire rating

## Low-voltage adjustable floor bracket with cover

Carlton® structured cable management systems...your total systems solution!

—  
01 Install clip  
over subfloor.  
Screw in to adjust.  
Beautiful flush fit  
every time!

The Carlton® low-voltage adjustable floor bracket is specifically designed for the low-voltage, structured cabling market...the floor bracket is industry-standard orange to identify low-voltage applications, the open design provides the space needed for low-voltage bend-radius requirements and the Leviton QuickPort® Quad 106® Insert provides up to four low-voltage outlet ports. The Carlton® low-voltage adjustable floor bracket is ideal for any residential or commercial low-voltage application.

The floor bracket also features a unique screw design, enabling it to be adjusted to most finished floor heights by simply turning the screw clockwise or counterclockwise and adjusting flush to the floor.

The floor bracket kit comes complete with a non-metallic (white or ivory) or brass cover, a Leviton QuickPort® Quad 106® Insert, new work and old work metal mounting brackets and mounting screws.

### Features and benefits:

- White, ivory or brass cover
- Orange – identifies low-voltage installations
- Open design floor bracket – accommodates low-voltage bend-radius requirements
- Adjustable screw – bracket adjusts to most finished floor depths
- Leviton QuickPort® Quad 106® insert – install up to 4 low-voltage inserts
- Two-door design

## Floor box kit for wood floors

### Single-gang residential

— 01 Brass finish with duplex receptacle

— 02 Nickel finish with GFCI receptacle

Tired of tripping over extension cords? Look no further than the Steel City® single-gang residential floor box kit from ABB. This affordable and conveniently packaged kit for the residential market provides power right where you need it most.

#### Features and benefits:

- Kit includes switch box, cover, flange and receptacle
- Durable metallic covers and flanges are available in aesthetic brass or nickel finishes
- Available with duplex or GFCI receptacle MopTite® covers meet UL® scrubwater requirements for wood, tile and carpet
- 3" x 2" switch box is 3½" deep with 18 cu. in. capacity
- Box includes integral non-metallic sheathed cable clamps

# Drop-in floor box

## Carlton®

The Carlton® Drop-in floor box with brass cover combines many of the same features of our existing floor box line with the strength, durability and style necessary to accommodate today's residential electrical/ telecommunication needs.

The Carlton® Drop-in floor box is the fastest, easiest way for contractors to put a floor socket anywhere they need it! It's designed to accommodate high- and low-voltage applications and comes complete with everything needed for installation – floor box, brass cover, hole saw, wired receptacle, two-hole low-voltage plate, blank plate, mounting screws and wire nuts.

### Features and benefits:

- Single hole installation
- Fast, easy installation
- Cover options include: Brass and Aluminum
- Accommodates high- and low-voltage applications
- Includes single-gang grounded receptacle, low-voltage telephone/cable plate (data jacks not included) and blank plate for custom installations
- Tamper-resistant receptacle
- Available with or without a hole saw
- 11.8 inch cubic capacity
- Suitable for wood floor installations
- Ideal for residential and home offices
- Eliminates the need for extension cords
- Superior aesthetics – ideal for home offices and entertainment rooms
- 2.25" installation hole diameter

## Drop-in floor box installation

**Note:** Turn power off before installation.

01 Cut 2<sup>3</sup>/<sub>8</sub>" hole through carpeting before using hole saw.

01

02 Drill hole in floor using hole saw.

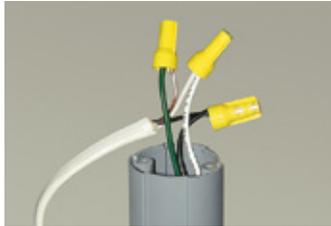

02

03 Pull Romex™/Loomex™ through floor.

03

04 Connect receptacle wires to Romex™/Loomex™. Be sure to match wire color(s).

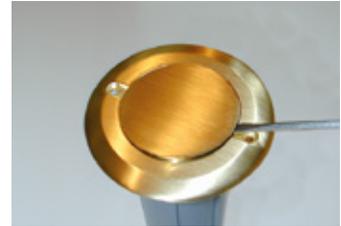

04

05 Secure wire clamp on bottom of tube.

05

06 Cover snaps into place. Use a small screwdriver to pry open cover to plug in appliance.

06

07 Align the three latches on the low-voltage plate with the three latch holes in the round floor box tube.

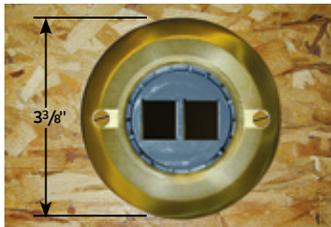

07

08

08 Remove receptacle by pressing three tabs located on side of tube. \* 15A, 120V tamper proof receptacle.

### Installed

## For wood subfloors

### 60W Series

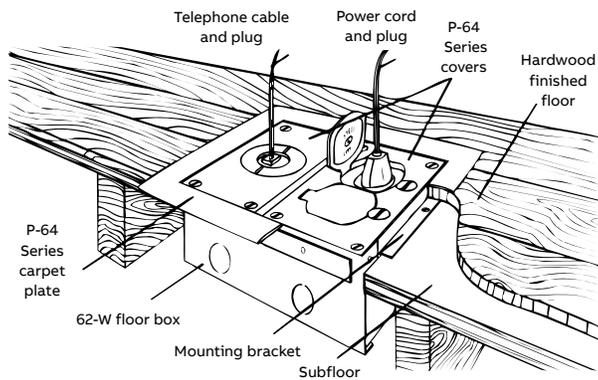

Steel City® 60W Series Floor Boxes provide single- and multi-gang solutions for wood subfloor applications.

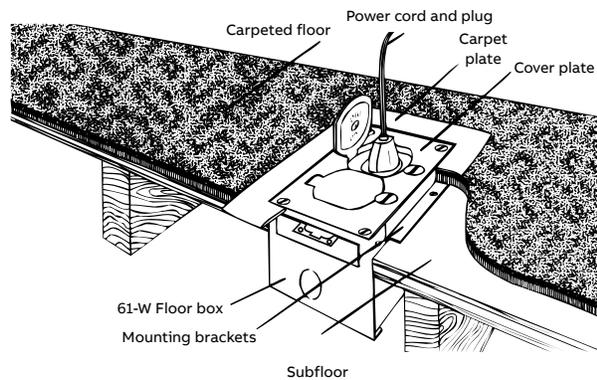

#### Features and benefits:

- Up to three-gang configuration for high-capacity, multi-service installations
- Large KOs ( $\frac{3}{4}$ " and 1") on gang for application flexibility
- Adjustable mounting brackets allow for various finished floor-material heights (hardwoods, tile or carpet  $-\frac{3}{4}$ " max)
- Ideal for open-layout residential applications, school lay-out auditoriums or commercial office space
- Voltage dividers are included with multi-gang boxes to accommodate power, voice and data services in the same floor box
- Full range of metallic and non-metallic cover and flange options

#### New construction (new work) applications

#### Retrofit construction (old work) application

## Carlton® round floor box systems

Three-way versatility for power, data and communications

Carlton® round floor boxes give you the same cost-saving advantages over metal boxes as our rectangular boxes. By combining power, data and communications in the same box, you can dramatically reduce your installation time and cost compared to other non-metallic boxes. In addition, multi-use covers mean fewer SKUs to deal with and greater jobsite flexibility to increase your savings further. Take a closer look at all their advantages.

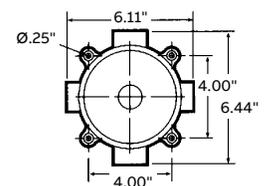

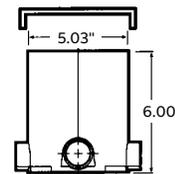

### Features and benefits:

- Non-metallic PVC construction, watertight gasket and corrosion-resistant hardware ensure long life and reliable performance, even in harsh and/or corrosive environments
- Covers are available for a variety of applications
- The same box depth simplifies ordering and reduces inventory
- Suitable for tile and carpet applications
- Cover options include: brass, stainless steel and non-metallic (ivory, caramel, taupe, slate and brown)
- Concrete tight and suitable for any on-grade/ below-grade application; concrete or wood floor construction approved
- Y-connector (E972Y) enables you to feed parallel runs of 3/4" conduit or to feed in/out from the same side for increased wiring flexibility and faster installation
- PVC-molded ports and reducer plugs included
- Accepts 1/2", 3/4" and 1" conduit, tubing or raceway
- UL/CSA scrubwater tested, approved for all types of finish flooring

**Round floor box** - Carlton® round floor boxes enable various thicknesses of concrete pours. Trim out is easy – just use a handsaw to cut off box at desired height to accommodate carpet, tile or other flooring. Carlton® leveling ring guarantees a level top every time, even if the box is tipped slightly during the pouring process.

Cat. no.	Internal volume (cu. in.)	Min. concrete depth (in.)	Hubs (in.)	Reducer plugs (in.)	Std. ctn.	Std. Wt. (lbs.)
E971FB	90.0 (15.5 per inch of depth)	3 1/2	(2) 1 and (2) 3/4	(2) 1 x 3/4 and (2) 3/4 x 1/2	10	15.6

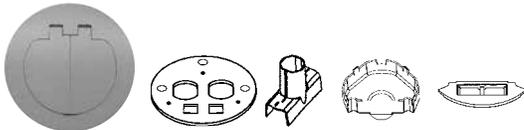

## Brass and stainless steel covers

For round floor boxes

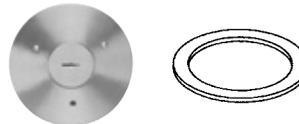

### Features and benefits:

- Screws concealed under doors
- Rugged construction
- Coated with a light lacquer finish for extra protection
- Resistance to wear – suited for high-traffic areas
- Gasketed for watertight applications
- Available in four styles – single door, two door, NPS opening and two-door dual service
- For tile and carpet applications
- UL/CSA scrubwater tested
- Cover diameter: 5½"

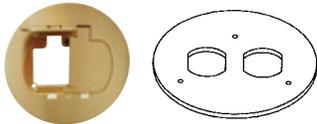

### Two-door dual service (divider kit included)

Cat. no.	Cover	Devices	Std. ctn.	Std. Wt. (lbs.)

Others and accessories

# Retractable work surface receptacle

Concealed receptacle provides safe and convenient desktop power

With the variety of electronics and powered devices today, convenient power outlets in the home and office are critical. While phone chargers, laptops, appliances and other devices are typically located on work surfaces, outlets are often located underneath the work surface, along the wall or on the floor. Repeatedly accessing these outlets is an inconvenience and poses safety hazards.

The Carlon® retractable work surface receptacle provides a convenient outlet right where you need it. A hole saw is included that attaches to your power drill to quickly mount the receptacle in a counter, desk or similar work surface. A 6-ft. cord connects to an existing wall or floor outlet, so no wiring is required. Simply pull up the receptacle's cover to raise the unit above the work surface and plug in a device. When not in use, push the cover down to store the receptacle below the work surface. The non-metallic cover is black to complement most home or office decor.

## Features and benefits:

- Provides easy access to a power outlet – simply pull up the receptacle to plug in a device
- 6-ft. cord plugs into an existing floor or wall outlet
- Receptacle remains hidden below work surface when not in use
- Compact design occupies minimal space both when recessed and while in use
- Rotated receptacle orientation accommodates oversized power adapters
- Hole saw included
- cULus Listed, File Number E340129 (per UL® 962A, Furniture Power Distribution Units)

Cat. no.	Description	Std. Pkg. Qty.

SP-60-DS-P3	P-60-DS floor plate assembly	1

### Seating plates for receptacles – steel

Cat. no.	Description for use with:	Std. ctn.
SP-620-MA	P-60-2, P-60-1/2-2, P-60-3/4-2 floor plate assemblies	1
SP-621	P-60-DR, P-60-DU, P-60-DC-AL and P-60-DS floor plate assemblies	1

### Tile trims

Cat. no.	Description	Std. ctn.
600-4-FL-AL	Aluminum	4
600-4-FL	Brass	4

### Gaskets for floor plate assemblies

Cat. no.	Description for use with:	Std. ctn.
SP650	P-64 Series floor plate assemblies	4
SP651	P-64-DU floor plate assemblies	10
SPP-64-DS-P2	P-64-DS floor plate assemblies	4

### Seating plates for receptacles – steel

Cat. no.	Description for use with:	Std. ctn.
640	P-64-2, P-64-1/2-2, P-64-3/4-2 floor plate assemblies	4
638	P-64-DS and P-64-DU floor plate assemblies	1

8803

8818

### Floor plate plug inserts

Cat. no.	Description for use with:	Std. ctn.
8803	Threaded steel body cover for 98 Series	4
8818	Metal protective cap	4

\* CSA Not applicable.  
2-5/8 in. – 20 in. UN 2A Thread

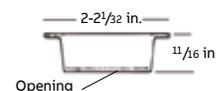

### Plate for short strap receptacle

Cat. no.	Description for use with:	Std. ctn.
889	Series 671 and 672 Boxes	4

489-MA 1-1/4 in. dia.

### Plate for short strap receptacle

Cat. no.	Description for use with:	Std. ctn.
489-MA	27-gauge galvanized steel with 1-1/4 in. dia. Opening for standard microphone jacks: for Steel City® Floor Box Series 671	4
