ABB HB-Series IP Intercom

Infinite possibilities

Comfort with style

Outdoor Stations

Design combined with appearance and functionality. Combining a 2-megapixel HD resolution camera with an intelligent brightness sensor that switches automatically between day and night mode providing the best possible picture. Visitors can easily see the illuminated bell plate from afar. The innovative design of the 4.3" screen makes everything visible and smart.

Card Reader

Trust is good, control is better. No one should be able to gain access to a building without authorisation, protecting residents and their belongings. The access control function of the HB-series provides safety and security at all time. With innovative solutions that meet the highest requirements which are integrated into an outdoor station – providing protection against vandalism.

System Topology

- Based on standard TCP/IP communication over Ethernet
- For villa, apartment and office applications
- Flexible system structure
- Easy integration and customization
- Unlimited apartments
- Unlimited distance (Ethernet standard)
- Multi-channel communication

—
7" Indoor Stations

The HB indoor station is designed with a beautiful modern style, and an elegant look. Five quick access buttons, an intuitive interface and high-resolution touch screen ensure easy operation. Ground-breaking functions realise an innovative and more secure door communication, every day, all the time.

• Intercom between App and outdoor station
• Monitor
• Unlock
• History log
• Simple configuration
• No extra devices needed.

—
Guard unit with 7" LCD Touch Screen
