

{ A perfect atmosphere...

...that reflects your personality. }

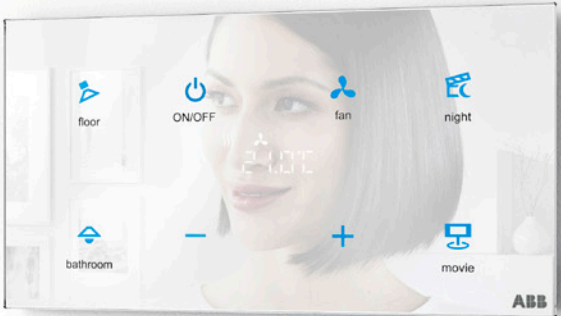

ABB tacteo® KNX

The individual touch

Your wishes are unique and your ideas are an expression of your creativity and individuality. You like to achieve the extraordinary, both in the way something looks and in the way it works. The ABB tacteo® KNX sensor helps you achieve this. With its individually configurable control elements for intelligent building management, each sensor is unique in design, offering maximum functionality with a personal touch. Exactly what you are looking for. Find out more at abb.com/tacteo
