OEM ENABLEMENT

T&B® industrial fittings conversion program

There's never been a better time to switch.

Discover what ABB can do for your business

Offset supplier transition costs

Benefits that go above and beyond

T&B® industrial fittings products are known for quality, reliability and innovation. And with the new T&B industrial fittings OEM conversion program, you can incorporate that quality, reliability and innovation into your products — and gain valuable business incentives to boost your bottom line.

Conversion allowance

The conversion allowance is designed to assist with costs associated with partnering with ABB, such as engineering changes to bills of materials and drawings, additional testing and amendments to existing certifications or files.

The rewards of doing business with ABB don't end after your initial conversion. Our goal is to partner with you in a long-term, mutually beneficial business relationship.

Contact your ABB technical sales specialist (TSS) today to start the conversation.
