

## Course description

# G3614e

## Assembling an ACS880-04 single drive module package into a cabinet, Internet course

### Course type

Internet course

### Course Duration

The course duration is approximately 30 minutes.

### Course Goal

The goal of this course is to familiarize students how to assemble an ACS880-04 single drive module package into a cabinet. Also general engineering tips and tricks are given.

### Student Profile

This course is intended for electricians, technicians, and engineers who install or design cabinets with ACS880-04 single drive module packages.

### Prerequisites

- An Internet connection. The recommended browser is Microsoft Internet Explorer
- Recommended: G020e – General AC drive installation best practices, Internet course

### Course Objectives

Upon completion of this course, students will be able to:

- Understand the basic idea how an ACS880-04 single drive module package can be assembled into a cabinet
- Have an overview of the kits and accessories used for the cabinet assembly
- Have an idea of the challenges of the cabinet assembly and examples how to overcome them

### Main Topics

- Stage by stage presentation how to assemble the ACS880-04 single drive module package into one cabinet
- Assembly of the diode supply unit cabinet/cubicle, using D7T or D8T modules
- Assembly of the inverter unit cabinet/cubicle, using R8i modules
- General engineering tips and tricks regarding cabinet assembly

### Low voltage drives training
