Product life cycle announcement
30A, 60A, 100A, 200A QMR, QMW, HCI

In accordance with the ABB global strategy, this product is in the life cycle management process. For process details, please visit Life Cycle Management.

Legacy product line (to be replaced)

Replacement product line

30A, 60A, 100A, 200A QMR, QMW, HCI

Rotary style: OT non-fusible and OS fused disconnect switches

See page 4 for additional products (if applicable).

Reference information

Affected product list

Transition benefits

ABB's rotary disconnect switches is a comprehensive offering for diverse applications such as:

- machinery, power distribution, motor control, photovoltaic or energy storage
- OEM's and panel builders can benefit with:
  - Safe
    - Visible contacts for visual verification in higher ampacities of non-fusible and DC disconnects
    - Safer service when replacing fuses as both sides are disconnected from terminals in fused disconnects in the "off" position
  - Smart
    - Adjustable shafts don't require cutting to length for variable depth applications
    - Stock optimization and design simplification with common accessories across the range
  - Sustainable
    - Designed for easy and cost-efficient installation, maintenance and operation with smaller footprint
    - Maximize uptime and ensure continuous operation with individual poles; virtually maintenance-free
